

UNIVERSITY OF MICHIGAN LIBRARY
ANN ARBOR, MICHIGAN

- No. 61: The chemistry of the reaction of sodium with oxygen
- No. 62: The chemistry of the reaction of sodium with chlorine
- No. 63: The chemistry of the reaction of sodium with bromine
- No. 64: The chemistry of the reaction of sodium with iodine
- No. 65: The chemistry of the reaction of sodium with phosphorus
- No. 66: The chemistry of the reaction of sodium with sulfur
- No. 67: The chemistry of the reaction of sodium with selenium
- No. 68: The chemistry of the reaction of sodium with tellurium
- No. 69: A new type of reaction: the decomposition of peroxide acid of the chloric series prepared by ROBERT H. COLLINS
- No. 70: An improved method of preparation for the synthesis of sodium and potassium chlorates by ROBERT H. COLLINS
- No. 71: A benzene compound and other hydrocarbons by Professor W. R. LANE
- No. 72: The effect of sodium on the pyrolytic reaction of sodium and potassium chlorates by HENRY F. LANE
- No. 73: The condensation of sodium with acetylene by ROBERT H. COLLINS
