### FORGOTTEN.

STORES to rent—and stores cannot be rented. Stores are growing and stores are being forgotten. What does it mean? Business conditions—and business privileges. It's the old story—the survival of the fittest. The best service giving is the growing store—the practical store—the popular center—despite any location—any condition or any privilege. Ours is a growing store—bouncing ahead as at no previous time in its history. The store is better this season than it was last—better this month than it was a month ago—better today than it was yesterday—for that matter. Ever so much better—in stocks—in service—in workmanship. It's the spirit of the management—enthusiasm, growth—goodness—prompted by your immediate acceptance.

## SUNDAY SERVICES

International Bible Lesson for Tomorrow—The Promise of Power—Acts 1:1-14.

Golden Text—"Ye shall receive power after that the Holy Ghost is come upon you."

We leave Israel in our last lesson in the wilderness, under Moses, for the great privilege of studying the early church under Jesus Christ. Covering about a generation, the Acts are a continuation of the work of our Father God establishing and guiding the infant church in the way of the truth and the life by the presence and power of the Holy Spirit, who will continue with His people to the end. Our lesson records their usefulness for service until baptized with the spirit of the Lord Jesus Christ, who then qualifies them for His work and then works through them in a world under the power of Satan to bring out the slaves of sin and make them God's free men. Have we this power? Do we look into heaven? He will return; but their work and our work, guided and inspired by the Spirit, is on earth until Jesus comes.

### ON THE FOUR-SQUARE PLAN

The four-square plan means that all customers, regardless of rank or station, receive the same careful attention and treatment at our store. We are as particular with the child who is sent to purchase some small article, as we are with the experienced adult. We never substitute inferior drugs when filling your doctor's prescriptions. We never recommend the "something just as good."

Sure and Unfailing.

Under all circumstances of sickness and disease, Paine's Celery Compound is safe, sure and unfailing. It cleanses and purifies the blood, braces the nerves, corrects digestion, and builds up those who are weak and rundown. If you are nervous or sleepless, try one bottle; the result will surprise you. ### The Household

Soda is the best thing for cleaning tinware. Apply with a damp cloth and rub well, then wipe dry.

Throw a quantity of salt in the stove if the chimney is on fire and there is danger of sparks; if not let it burn.

A small quantity of baking soda mixed with brick dust will considerably accelerate the process of polishing knives.

Sweet oil and putty powder, followed by soap and water, makes one of the best mediums for brightening brass or copper.

A few grains of alum in tepid water will relieve people whose hands perspire very freely, rendering them unpleasantly moist.

A few drops of ammonia in a cup of warm rain water, carefully applied with a wet sponge, will remove the spots from paintings and chromos.

Grease spots that have burned and become hard on the stove, may be removed by a few drops of Kerosene oil on the cloth before rubbing them.

Dip half a lemon in salt and rub it on copper boilers, brass tea kettles, and other brass utensils if you want to make them bright as new.

Steel that has become rusted should be rubbed well with sweet oil and let soak for two days. It should then be rubbed with unsalted lard powdered fine until the rust is removed.

Oil or grease can be removed from books by dusting on them a little magnesia or French chalk; lay over it a piece of blotting paper and place a moderately heated iron across it a few times.

To keep cheese from moulding, cover it with cotton or linen cloth saturated with vinegar. The cheese will keep as fresh as when first cut, and the vinegar will in no way impair the flavor of the cheese.

For the instant destruction of roaches stir into a half pint of hot paste a dime's worth of phosphorus, adding, when cool, a quarter the bulk of grease. This should be placed where they frequent, and they will die while eating it.

When a carpet sweeper works hard the trouble is that the rubber bands on the wheels are loose. New ones may be bought for a trifle at a hardware store—by stating kind of sweeper and size. The sweeper will be as good as new.

To clean porcelain saucers fill them half full of water and put in the water a teaspoonful of powdered borax and let it boil. If this does not remove all the stains, scour well with a cloth rubbed with soap and borax.

To clean a kitchen sink, dissolve some soda in a little water and scrub the iron work with it, using a stiff brush in applying the first wash and a coarse cloth for the second.

Two such washings with a final rinsing with hot water will leave the sink as free from dirt as one could wish. The soda solution is also very good for cleaning hair brushes.

A writer in a contemporary magazine tells how those who cannot buy a filter can make one. Take a common five-cent flower pot of earthen ware, putting in the hole a piece of thoroughly cleaned sponge, over that a couple of inches pulverized charcoal, over that a couple of inches of sand; over that again about half as much clean, coarse gravel, and then the water, slowly filter through. Must needs have been very bad at the start not to be very pure at the end.

## The Noon of Winter

Fairly launched into 1902—the shortest day passed and real winter laying his hard hand on lake and river. Yes, and reaching gayly for your ears and toes. All freezable substances are alike to him.

Is there a weak point in your armor? A chain is only as strong as its weakest link. A single thin spot in the clothing may let in that ruinous midwinter cold. You know without a word from us how very worth while it is to dress rationally and well in January.

We make it if possible more to your interest to come here now than ever before for suits, overcoats, ulsters, underwear, fur caps, socks and shirts.
