Build Sties, Drivelling, or any other building from Concrete Block. The London Adjustable Concrete Block Machine makes every kind and size of block. High grade. Moderate price. We manufacture a full line of Concrete Machinery. Tell us your requirements.

LONDON CONCRETE MACHINERY CO.
Dept. C., London, Ont.

THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I said, "Fine horse, but, I didn't know anything about horses much. And I didn't know the man very well either."

So I told him I wanted to try the horse for a month. He said "All right," and I gave him my money. I gave him the horse but I didn't like that. Well, I didn't like that. I was afraid the horse wasn't "all right" and that I might have to waste my money if I once parted with him. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "100 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I never knew, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machine for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "100 Gravity" Washer will do. I know it will wash the clothes, without wearing, tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash tub full of very dirty clothes in ten minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "100 Gravity" Washer does the work money that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fray the edges, nor break bottoms, the way all other machines do.

I just drives soapy water clear through the pores of the clothes like a force pump might. I told to myself, I will do with my "100 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "100 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "100 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for itself. It will save its own cost in a few months in wear and tear on the clothes alone. And then you save 50 to 75 cents a week over what it costs you to wash your clothes. I'll let you pay for it out of what it saves you. It'll save you 50 cents a week, and me 50 cents a week till paid for. I'll wash it cheerfully, and I'll pay for my money with the machine itself. I'll earn the balance. I'll give you a line today, and let me send you a book about the "100 Gravity" Washer. It will tell you all about it in six minutes.

Address me personally:
K. O. MORRIS, Manager 1900
Washer Co., 357 Yonge St., Toronto.

The Fireless Cooker

Mrs. F. McCann, Oxford Co., Ont.

In this busy, rushing age in which we live we farmers' wives frequently hear our husbands talking of the new machinery that they must have in order to carry on their work successfully. And I believe the majority of women will agree with me that when a man takes a notion to get something he usually gets it. We women too have a right to have as many labor-savers as possible around the home, and if we decide on something within reason and suggest the idea to our husbands, the majority of them are quite willing that we should have what we want.

One labor-saver that comes to our minds at this season of the year, and for use more particularly during the summer months, is the fireless cooker. While this convenience is becoming

"These Flowers are Mine"

"I am sending you a photo of myself and my flower garden," writes little Mary Kambocki, who lives in Montrose Co., Ont. to Farm and Dairy. "I am going to school and I take great interest in flower gardens."

fairly popular it is not found in nearly as many farm homes as its usefulness warrants. Just now, when house cleaning is in full swing, and the garden and poultry requiring attention, it is very trying for the housewife to have to spend much time preparing meals. The fireless cooker will solve this difficulty as the dinner can be heated at breakfast time, placed in the cooker and will not require attention until almost time to serve.

When we first heard of the fireless cooker it was very crudely fashioned, usually out of an old packing box packed with hay, and frequently known as the "hay box." Now, however, we find a wide range of makes varying in price and efficiency. While reading in a magazine a few days ago I noticed that a large three-compartment cooker with aluminum fittings and cooking utensils, baking plates and all up-to-date improvements is now on the market for \$10 or \$12.

Anything that will stand slow cooking is improved by the use of the fireless cooker. By using the cooker we can heat our cereal for breakfast in the evening, place it in the cooker, and in the morning have a delicious breakfast dish. (For myself, however, I prefer some of the light breakfast foods that are already prepared, for use during the summer). Then too we can go to church or to visit a neighbor, knowing that when we return the meat will be nicely boiled, the pudding cooked, or the vegetables all ready to season and serve.

I believe we should endeavor to add some convenience to our homes each year, and for those of my sisters who have not tried a fireless cooker, I would strongly advise their trying one out.
