That is how all the Liberals regard it. The Conservatives were delighted for that all was peace and harmony again. They had hoped against hope that matters would be patched up. Their hope had been gratified. Moreover, they were assured of their thousand dollars sessional indemnity, They had been filled with fear that parliament would not sit thirty days, and that they would have to be content with the beggarly eight dollars a day that is the solatium of the members in such cases. Now all was happiness again. Ministerial Statement in the Senate and

The good people of the Capital clambered up the steep stairs that lead to the galleries, on Wednesday afternoon; for it had been announced that Sir Mackenzia in the Senate and Sir Adolphe in the Commons would make the Ministerial statement. The members had been summoned from all over the land, and when, in the Commons Sir Adolphe rose, a tremendous 'audience was there to hear him. The announcement had better be given ipsissima verba: "Since reference was made in this House to the retirement from office of certain members of the Government the those troublous times Mr. Maclean was connected with these resignations, and has the country would be served, notwithstanding any differences of opinion that the high priest of robbery and corrupexist respecting the importance of filling tion. the portfolio made vacant by the resignation of the Hon Mr. Angers, by the rehis influence to secure for Mr. Brandon South Ontario, had refused. And on turn to their former positions in the Monday evening one heard that the new Cabinet of those who deemed it their the endorsation of the Conservative Cabinet had been organized. The rumor duty to retire on account of that vacancy. While it is true that this point was freely discuss d between the Prime Minister and his colleagues, it is equally true that the Prime Minister did not regard that vacancy -- the importance of filling which cannot be questioned—as a sufficient reason for the resignation of any member of the Government. This view, however, was not concurred in by some of his colleagues, who urged that a meeting of parliament with a Quebec portfolio vacant might seriously imperil certain important measures to be presented during this session. He had reasonable hopes of being able to fill that position up to the very the opening of parliament certain members of the Government sent their resignations to the Prime Minister, giving among other reasons, the fact, that having failed to fill the portfolio' and, that he evidently 'intended to go on with the transaction of public business with an incomplete Cabinet,' they thought sound constitutional practice and so weak, as a matter of policy,' that they were 'unwilling any longer to remain as members of an incomplete Government.' "

"And, therefore," interpolated Muock, "to make it more incomplete." "I think the hon, gentleman will permit me to continue the statement," protested Sir Adolphe. "Since the receipt of the resignations referred to, the objections put forward by the Ministers who resigned have been removed by the accepance of a seat in the Cabinet by the Hon.
