

12.—GEOGRAPHICAL STORY.

My (island east of Maine), (bay in Newfoundland), (hills in Newfoundland) eyed sister, (town in New Jersey), (cape east of United States), and her (town in Oregon), (river in Australia), (island in north of Australia), (river in Australia) gave a picnic. They invited a (river in France) of female friends, and (heads south of Ireland) fellows. They went (creek in Western Ontario) to the park, and (river in England) the sun went down they stayed, (a county in Ontario) 's fellow was called (river in Nova Scotia), (Town in England) gentleman, and was a (town in France), (island west of England) (island west of England). But the favorite was (island in Nova Scotia) (city in United States) a (cape south of Ireland) headed (cape in Nova Scotia) who made a (river in Ireland) of fun. They had a (lake in Nova Scotia) for which they all made a (river in Labrador) (port north of Ireland) and (river in course they had (head south of Ireland) and (river in West Virginia) and (river in Kentucky) (river in Texas). One of the ladies who was delicate ate (cape east of United States) and (sea in Europe) (Bay in Australia), and for a side dish (river in England) with (town in England) sauce. They all drank (sea in Europe) tea, and (river in Montana) sweetened with (sea in Asia) (river in Indiana). They had a (Mountain in New Brunswick) time; but on returning (Bay in Baffin Land), three got stuck in the (river in Cape Breton), where they all got covered with (island south of Nova Scotia), which rather spoiled the day's outing. The result of the picnic was a wedding with (city in Vancouver Island) for the (river in Ireland), three (island east of China) later. And there is (town in Nova Scotia) of another, so that the event came out (island east of New Brunswick).

HENRY REEVE.

5.—Truth, crushed to earth, shall rise again.
 The eternal years of God are hers;
 But error, wounded, writhes in pain,
 And dies among his worshippers.—Bryant.

6.—Chest-nut, wal(l)-nut, ground-nut, beech-nut,
 brazil-nut, hazel-nut, butter-nut, pea-nut, cocoa-
 nut, gull-nut.

7.—'Tis better to be lowly born and range with
 humble givers in content,
 Than to be nestled upon a glistening grief and
 wear a golden sorrow.—Shakespeare.

8.—Happy the man, and happy he alone,
 He who can call to-day his own;
 He who, secure within, can say:
 "To-morrow, do thy worst, for I have lived
 to-day."—Dryden.

9.—The more links in the chain, the greater the
 risk of flaws.

10.—Though wrong may sway the world to-day,
 You hold the hand of fate;
 Your good seed grows beneath the snows;
 Right can afford to wait.

11.—Our birds of song were silent long,
 The treeless groves were dumb;
 But God's time is our summer time,
 And that is sure to come.—Cobb.

12.—While in Paris, my friends, Henry Robinson and Big Solomon Chester, went to the art department. The first thing they saw was a fine monument. On one side of the base was carved a salmon and a silver, grim-looking moosehead with a big horn; and on the opposite, an organ, and a hog eating a bird like a crane. The shaft was most tastefully designed, representing a long, bald-headed, crooked man, holdin' a white swan in one hand and a black Minoreca hen in the other. The whole was surmounted by a broad statue of a negro, selling black tobacco and white sugar. They said it was a grand pyramid, worthy of notice. But the best piece of art was a figure piece. The principal figures were a skeleton of a lady and gentleman in the foreground. The lady stood on a green table, her right arm resting on an ivory-colored round Yellowstone. She wore an amber-colored hood, and in her right hand she held a canary, and with the other she was presenting the gentleman with a gold grindstone. Her mouth looked like a pit, and her nose resembled a head light. The gentleman had in his mouth a prime cigar, and for a cane he carried a battle axe. On the whole they had a pleasant time, and made a resolution to go again.

Answers to 4 and 8 puzzles in the May number omitted in June.—4—Man's vanity tells him what is honour; 8—119.

NEW ADVERTISEMENTS.

SPECIAL NOTICE.

THE FARMER'S ADVOCATE refuses hundreds of dollars offered for advertisements suspected of being of a swindling character. Nevertheless, we cannot undertake to relieve our readers from the need of exercising common prudence on their own behalf. They must judge for themselves whether the goods advertised can, in the nature of things, be furnished for the price asked. They will find it a good rule to be careful about extraordinary bargains, and they can always find safety in doubtful cases by paying for goods only upon their delivery.

All Advertisements, to insure insertion, must be in this office by the twentieth of each month.

The FARMER'S ADVOCATE is the unrivalled advertising medium to reach the farmers of Canada, exceeding in circulation the combined issues of all the other agricultural publications in the Dominion. Send for an advertising circular and an estimate.

L'ORIGINAL CREAMER.

This Can works at every farmer's well, with or without ice, by changing the water once after the heat of the milk is off. It will be perceived that in this Can there is a central tube that admits the water to ascend until it reaches the head of the exterior body of water, and thus we avail ourselves of the cooling and purifying influence of water on the inside and outside of the can. With this can we guarantee one-sixth cream during hot or cold weather, and better results generally than with any other process. We build these double creamers to suit all sizes of dairies. Send for price list. Agents wanted.
