

Digging asphalt from Trinidad Lake

Time-and-weather test is the *real* roofing test.

You want to be sure *before you buy* that your roofing will stand this vital test. The only way you *can* be sure is to know what the roofing is made of.

Genasco
the Trinidad-Lake-Asphalt Roofing

is free from mystery and deception. It has the life that only *natural* asphalt can give roofing to make it thoroughly and permanently waterproof.

The natural oils in Trinidad Lake Asphalt give it this resisting life; and they do not dry out of Genasco like the volatile oils in artificial asphalt roofings, which leave them to crack, crumble, and leak.

Genasco Roofing resists rain, snow, sun, wind, heat, and cold—and it lasts.

The **Kant-leak Kleet** not only makes seams absolutely water-tight without cement—it prevents nail-leaks, and gives the roof an attractive finish.

Ask your dealer for Genasco mineral or smooth surface Roofings with Kant-leak Kleets packed in the roll. Fully guaranteed. Write us for samples and the Good Roof Guide Book.

This Cylinder Shows Why The "EUREKA" Root Cutter

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—

suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it.

In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder.

The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

THREE COOKS AND THREE REASONS

These three cooks differ widely in ability and experience, but all are agreed that the prime essential in good cooking is the stove on which to cook, and all concede that every stove necessity is met in a

GURNEY-OXFORD RANGE

For no matter how much or how little cooking is done; no matter what the experience given or required, there are certain prime requisites for every kitchen range. Whether the cook be a professional chef or the young bride with only "him" to please, the stove must furnish these *three* essentials—steadiness and control of heat, even baking facilities, and a grate that gives plenty of air to the fire with a saving of fuel and convenience in handling.

For these three problems—on which all cooks are agreed—the GURNEY-OXFORD RANGE has three answers, three good reasons why.

THE OXFORD ECONOMIZER is a small lever for the steady maintenance of heat, licensed for use only on Gurney-Oxfords. It effects a remarkable saving in fuel as well as labor. Nothing can go up the chimney but smoke and odor.

The Divided Fine Strip distributes the heat evenly, front as well as back of oven, thus securing against failure in baking. There is no better test of practical stove work than this oven control.

Are you always dusting? The Gurney-Oxford Reversible Grate saves dirt and labor; one-half turn and the ashes are out, while the interlocking teeth grind the hardest clinker.

There are plenty of other "reasons" for the advantage of the Gurney-Oxford, as a call on our dealer will convince you. Or if he is unknown to you, write our nearest branch for his address and for our booklet.

BUY A BT LITTER CARRIER

And save yourself the dirtiest and most disagreeable job about the farm. No stable is complete without a system of overhead tracking in it for handling manure and feed, and a litter carrier is no longer a luxury, but a necessity.

The **BT LITTER CARRIER** always pleases, and is built to last a lifetime. It is simply constructed—nothing to get out of order, and the material used in it is the very best.

The **BT LITTER CARRIER** has many excellent features of advantage over other makes, which we would like to tell you about. Our new catalogue explains these fully, and if you will send us your name and address we will be pleased to mail a copy of same to you. Let us know how many feet of track you will require.

BEATTY BROS., Fergus, Ontario
We also manufacture Steel Stalls, Stanchions and Hay Tools

Good Paint Is Not An Expense

A good paint does a great deal more than beautify a building. It protects the surface, seasons the wood, and hardens and prolongs its life.

Paint is not an expense, but an investment. Not an extravagance, but a saving, for it lengthens the life of buildings.

This is not a theory, but a proved fact.

Moore's House Colors are the best paints to use—and the most economical.

Moore's House Colors

These paints are made by paint-makers who have no superiors in the world. The linseed oil

in Moore's Paints is *pure*. It is chemically tested. When the price of linseed oil is high, adulteration is prevalent, and the individual purchaser (who is not able to subject the raw material to chemical test) is apt to be "stung." Moore's Paints and Varnishes for every purpose.

MURESCO. We also make Muresco, for wall and ceiling decoration. Send for literature describing Muresco.
