NEW PROCESS JUMBO GRAIN CLEANER

Capacity, 75 bushels of wheat per hour guaranteed. Sold on 10 days' trial; if not the fastest and most perfect grain cleaner on the market, can be returned at our expense. One machine at wholesale to first farmer ordering in each neighbourhood to introduce them. Hundreds of satisfied customers in Western Canada. The only machine cleaning and blue-stoning the grain at one operation. Separates wild or tame oats from wheat or barley, as well as wild buckwheat and all foul seed, and the only mill that will successfully separate barley from wheat. Separates frosted, sprouted or shrunken wheat, raising the quality from one to three grades, making a difference in price of from 5 to 15 cents per bushel. Cleans flax perfectly. Furnished with bagger if desired. Write at once for wholesale prices.

BEEMAN & CO., 127-129-131 Higgins Avenue, Winnipeg, Man.

One Movement of the Foot Lifted the Plow and Men and Leveled the Frame

A Marvelous Plow

The J. I. Case Self-Leveling High Foot-lift Sulky Plow is a marvel in more ways than one. It has brought out many advantages that were heretofore thought impossible. The picture tells the story of the wonderful lifting power of the foot lever. The boy, with his foot alone not merely lifted this great weight, but he raised the plow bottom from six inches under ground to six inches above ground and at the same time leveled the frame. Two results with one operation. This single lever feature is original with J. I. Case plows and is a great labor saver. Other so-called foot-lift plows require the handling of a hand lever in order to level the frame, else the operator must ride in an uncomfortable position. The J. I. Case Self-Leveling High Foot-lift Sulky Plow while having a powerful leverage in the foot-lever is aided by a strong lifting spring. That is why a boy can easily lift the bottoms way up high in the frame out of the way of trash. Then the foot lever and height of seat can be quickly adjusted to suit the reach of a tall or short person. This makes the high foot-lift, self-leveling feature equally effective for any size of operator. Other important advantages are: The bottom enters the ground point down heel up and starts plowing at once. It comes out point up, heel down. It stays in no matter how hard the soil. It plows straight on the roughest ground. It is light draft because the friction of the bottom is carried on the wheels instead of the ground. Write for our catalogue which fully describes this marvelous plow and the entire J. I. C. line.
