A Canadian Pacific despatch says that enormous damage by prairie fires is reported in the Dauphin district, Manitoba, during the heavy wind of a few days ago. A district of nearly one hundred miles square was burned over, and nearly all farmers have lost hay, and many are left without houses and stables. The Government will have to give assistance to some of the settlers, several of whom are left with nothing but the clothes on their backs. The heavy rainfall of this week has, fortunately, choked the flames.
