Over Six Years Have Gone by and This Cure Still Stands-Only One of Many Such Cases.

St. Mary's Ferry, N. B., June 1.— (Special.)—Mr. Thomas Harrison, of this place, has addressed two signifi-cant letters to the Dodds Medicine Co., Toroato.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Caharrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional reatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of sestimonials.

Sand as Medicine

There is a man in Brighton, named Beghee, who thinks sand is the only medicine in the world for stomact troubles, says Tit-Bits.

"I was nearly dead," he says, "from dyspepsia 20 years ago, and had lost all faith in medicine, I was willing to take doses of anything. I began by swallowing a teaspoonful of dry sand on going to hed at night, and I soon noticed that I slept better then for years though my anter than for years, though my ap-petite did not increase for a few weeks. I kept on swallowing the sand regularly until I was well. I have used it off and on, however, ever since, and I carry a bottle of dry sand about with me as a tonic."

NEGRO PREACHES IN HIS SLEEP. *

......

******* A somewhat remarkable story came from Saluda county a short time ago about a negro who preached in his sleep. The man's name was Major Perry. The story was brought out of Saluda by an evangelical preacher, who was then on his way out of the State. An effort was made to get confirmation of this unusual case, and finally it was ascertained that Dr. D. M. Crosson, of Leesville, knew Major Perry. Dr. Crosson was written to for information. He was in attendance upon the sessions of the South Colonial Medical Convention but as soon as he returned sent tion, but as soon as he returned sent

tion, but as soon as he returned sent the following reply to the State; it is a very interesting story of a remarkable case.

Dear Sir,—Replying to your request that I write what I know about Major Perry, the "sleeping negro preacher," will say that I have known Rev. Major Perry for a long time and have been his family physician for eight years. He is really a scientific wonder. He has been preaching every night, except occasionally on Friday Mghts, for about fifteen years. When he retires at night and goes to sleep he will read out his text—tell exactly where it can be found, verse and chapter, give it verbation, and will then begin his someon. oat:m-and will then begin his sermon. He confines himself closely to his text, and always preaches a good sermon. This is done while he is in this trance, and he can't be waked up until he has fidshed his sermon. Nearly every time he preaches he has a convulsion and his wife has to rub im and work with him, as it looks as

if he would die.

He stops speaking while laboring under this nervous writhing, but will begin his discourse just where he left off when the attack wears off and will go on and finish his sermon. He seems to be somewhat excited when he finishes his sermon and wakes up and is unconscious of anything that has transpired. The strange part of the that he can neither read nor it is that he can neither read nor write, so you see he could not pre-pare his discourses beforehand.

This is no fake, as he has been watched often when alone and he always preaches. I have, together with a number of other physicians,

tried to wake him up when in one of his trances and while preaching, and it can't be done.

A man can easily expend some of his knowledge of mental philosophy in the study of this case. This is not become a support of the properties but it expenses of his in the study of this case. hypnotism, but it savors of Divine inspiration. While in this trance or deep sleep he is unconscious of anythms else transpiring around him and his active mind is totally unconscious of what has transpired, but it is continuous and his preseling. active and he does his preaching while in this sub-conscious state, but why his subconscious mind, active upon "sermonizing" alone, is a deep

mystery.
