A PUZZLING FEAT.

The medicine men among the Zuni

Indians perform a feat at the annual "corn festival" which surpasses the famous mango growing trick of the Hindoo. Many scientists have been present to witness this strange ceremony, but have never been able to fathom the mystery of it. in front of the southern opening of

the medicine lodge a large square of clean yellow sand, carefully smoothed and packed, is spread. With a ceremonial arrow figures representing the Great Spirit, the earth, sun, sky and rain are drawn. There are also the symbols of the corn and a bountiful harvest. The indentations made by the arrow are then filled in with pigments, blue for the sky and clouds, black for the earth and chrome yellow for the harvest. The middle of the square is left vacant. This picture in sand painting is a most pleasing specimen of barbaric art.

The hour for the ceremony arrives, and at the right moment the medicine man comes forth from his lodge and takes a seat in the opening of the lodge, facing the sand square. The warriors and chiefs arrange themselves around the square according to rank. The ceremonial pipe is then filled and lighted, and the medicine man blows one puff in each direction of the ++++++++++++++++++++++++++ compass and two to the heavens. He then makes an address, going over the past history of the tribe and the kindness of the Great Spirit and his care. He concludes with a prayer for the

The great moment has arrived. With mpressive solemnity the medicine man thrusts the sacred arrow into the sand. withdraws it and places a grain of corn into the hole thus made. Carefully smoothing the sand over it, he resumes his seat, while the assembled chiefs smoke their pipes in stolid silence. If the Great Spirit condescends to answer the prayer of the medicine man-and he generally does-the corn will sprout and send up a shoot. After an interval of fifteen or twenty minutes the sand seems disturbed at the spot where the grain of com was planted, and soon the slender green blades of the sprouting corn are seen above the surface The plant continues to grow rapidly and naturally during the day, and by the next sunrise the silk and tassels appear. By noon the stalk and ear have reached full maturity and the ripening begins. Finally the blades and husks turn yellow and rattle when the wind shakes them. All this, we must bear in mind, has been done in thirty-six hours. On the morning of the second day the corn growing is complete. The medicine man now addresses the watchers who in company with him have watched the plant grow. for it is never left alone. With appro priate ceremonies he symbolizes the harvest by stripping the ear from the husks and placing the corn in his bag for future use. The stalk is pulled up by the roots and hung over the door of

#### **Ideal Interior Decorations**

For Homes, Stores, Hotels, etc.

Metal Walls and Ceilings are, by far, the most durable, most economical, most artistic and most sanitary of all wall coverings. Once in place, they are practically indestructable and will remain in perfect condition until the house is torn down. They are the cheapest in the end because they cost nothing for repairs. They are made in an endless variety of rich designs, suitable alike for the home and the more elaborately planned buildings. They make rooms warmer by preventing drafts, and, being absolutely fireproof, make it impossible for fire to spread from one room to another. The leading insurance companies reduce their rates ½ on buildings constructed of metal. Every man, interested in building, should write The Metal Shingle & Siding Co., Limited, of Preston, Ont., for a copy of their booklet about Metal Walls and Ceilings, which they will send if you mention this paper. SPRING WALKING SUITS.

Coat and Skirt Considered Smarter The shirt waist dress is now more

less of a farce. For street wear and for traveling a coat and skirt, whether of linen, cloth or silk, are once more considered smarter than a dress of any kind, while in the afternoon the gown that is alone permissible is far too elab.

GOWN OF BLUE RAJAH CLOTH.

orately made to be dubbed a shirt waist dress. Extremely pretty are the spring walking suits of rajah cloth. In trimmed, is generally seen, and the skirt hangs very full, whether long or short. The length of the skirt depends morning a walking length skirt is still popular, and this is being made up in you must use the dark shades of rajah, blues, greens and tans. There may be a waist of the same material, trimmed simply with lace or embroidery, and this makes a most attractive little costume, but a fine lingerie waist can be worn equally

Dresses of rajah are not so very much trimmed. Good lace is, of course always effective, and hand embroidery work is employed to a large extent to finish attractively even the very sim-ple gowns. In such shades as pink, red, turquoise and lavender less trimming is required than on dark colors which never look so smart in them

To take the place of the shirt waist dress a severe tailor suit of rajah is ex-cellent. This should be of a shade that will not soil so quickly, but could be made so simply that it could readily be washed or cleaned. The gown sketched is a dainty affair carried out in fine navy blue rajah cloth trimmed with knife kilted frills of silk of the collar, completed by a deep band of lace, is particularly becoming to a short necked girl. The skirt is a many gored one and is trimmed with two up-standing frills of knife kilted silk.

### THAT STAB-LIKE PAIN IN THE SMALL **OF THE BACK COMES** FROM THE KIDNEYS AND CAN BE CURED BY DOAN'S

KIDNEY PILLS

It is not the back that is aching, but the kidneys which are situated beneath the small of the back.

Therefore, dull pain in the back, or sharp, quick twinges, are warnings of sick kidneys — warnings of kidney trouble. Plasters and liniments will not cure a bad back, for they cannot reach the kidneys which cause it. Doan's Kidney Pills reach the kidneys. That is what they are for and that only. So, if you would be free from backache, swelling of the feet and ankles, frequent or suppressed urine, painful sensation when urinating, specks floating before the eyes, frequent pthirst, brick-dust deposit in the urine, or anything wrong with the urinary organs or bladder, you must keep your kidneys well. Help them to work freely, and help them to flush off all the body's waste and impurities.

Doan's Kidney Pills are made from the purest roots and herbs, and have a remarkable healing and toning effect on the kidneys. Mrs. Barling, 26 Locomotive Street, Hamilton, Ont., writes: "I had been troubled considerably with my kidneys, and many remedies, but finding no relief. I tried Doan's Kidney Pills and found them to act directly on the kindeys, and making them strong again."
