I that the Wood Mower runs with the least expense; there are not so many boits and nus
out of order. Your Machine has got the best boxing—all brows; the journals are well fitted
un very smooth; the strains are met with straight lines, and these are features worthy of
e in machinery. In fact we think you have the plainest, simplest, and most substantial
er running. They are dot only the best, but lowest in price of any of the same quality. We
at hesitate in saying to parties wanting to buy a good Machine, to try o be before purchasing
e convinced that you make at home in our own country as good a Mower as can be got in
warket. They are not surpassed by any, and should you accidentally break a piece you have
filedly in getting it replaced at the Foundry; you are not humburged by agents, and ises
so of a Machine nearly are good satisfaction, and the farmers wish you every success so long
up to the story of the property of the surperson of the farmers. The nonly objection we have to the Machine is this, it!) so to the shop for repairs,
ten as we would like it, but as that is the kind that suits the farmers, we dare not grumble
loud.

Yours respectfully,
