

## Are You Prepared For A Good Position?

No other field of human endeavor offers so rich and prompt rewards as the business and commercial world grants its workers. The one who is competent is always in demand and can place a high figure on his services.

Your success depends solely on yourself and on your training, and you cannot afford to handicap your abilities by studying "slipshod" methods and stereotyped lessons. Enroll with a business college that has won the confidence and esteem of the entire business and commercial world.

The C. B. C. re-opens Monday, August 14th. Write today for free prospectus.

### LOCAL & OTHER ITEMS

Destructive forest fire are raging in New Brunswick and Nova Scotia.

Three were killed and some were injured in a collision between two freight trains at St. Catharines Station, Province of Quebec.

Twelve persons were drowned on the 14th while bathing in the Rhine at Badenkirchen. It is thought the victims entered from anastrots.

Four persons were killed and many were injured at Fort Wayne, Indiana, on Monday in the wreck of the Pennsylvania eight hour train between Chicago and New York.

That H. M. S. Cornwall struck on a shoal that is uncharted when she went to the relief of the Niobe is the report of Captain Bankhouse of the Canadian Government steamer Petrel who was detailed to investigate.

Messrs. McLean and Nicholson have had excellent meetings so far in the campaign and everything looks bright for their triumphal election. The meetings in King's County commenced at Murray Harbor South last night.

It is announced from Berlin that on September 5th at Kiel, the Kaiser will review the greatest array of German vessels of war ever assembled. The fleet will comprise 140 vessels of all classes and the number of men in their crews will approximate 25,000.

The United States revenue cutter fleet in Behring Sea, reports that the unusual heat of the last few weeks has been felt in the Arctic regions. There is no ice in Behring Sea, nor along the shore of Alaska or Siberia. Such a condition has not been observed for several years.

R. L. Borden, Leader of the Opposition and A. B. Crosby, the old members, were nominated by the Conservatives of Halifax on Thursday last he Liberals on the previous day nominated A. K. McLean, Attorney-General of Nova Scotia, and Dr. Black, editor of the Recorder, as their standard bearers.

Charles Bennett, a young balloonist, fell more than 1,000 feet with his parachute at Atlantic City and crashed through the skylight of the Marlborough, Bismarck Hotel. The guests, panic-stricken for a moment, picked the man and tried vainly to revive him. He was sent to a hospital where he was found to have a fracture of the skull.

There appears little hope of averting a great railroad strike which probably will be accompanied by a general lock-out on the trade of the United Kingdom. At a meeting held in London by the Managers of all Railroads having terminals there, it was resolved that the time had arrived to resist the men's encroachments.

FOR THE PROVINCIAL LEGISLATURE.—Messrs. James Kennedy and M. C. Delaney, were again unanimously nominated as the Conservative candidates for the fourth district at Centerville on Thursday last. At Georgetown on Saturday last, previous to the County nomination, Mr. J. A. Mathieson, Leader of the Opposition, and Temple W. McDonald, were unanimously chosen as the Conservative candidates for that district.

Premier Aquilino's Government last Thursday night enforced its will upon the Province by a narrow vote of 131 to 114. By this vote the House of Lords decided to accept what the Liberals contend is the will of the people, and adopted Viscount Morley's motion not to insist on the Lords amendment to the Parliamentary Bill, which practically limits the power of the House of Lords to a two year suspensory vote, and vastly increases the prerogative of the House of Commons.

### Death of Judge Hodgson.

We have to record today the demise of Mr. Justice Hodgson, Master of the Rolls, and assistant Justice of the Supreme Court, which occurred Saturday afternoon. Deceased had been in ill health for the last few years, and nearly a year ago resigned the judgeship. He was 71 years of age at the time of his death. The late Judge was the son of the late David Hodgson, for many years Prothonotary of the Supreme Court. He studied law here and in London, and commenced practice in 1862. He was created Q.C. in 1879, and an L.L.D. by Laval University by King's College. In 1885 he married Miss Brecken. He was appointed Judge in 1891. In his palmy days he was a brilliant orator, an able jurist and upright Judge.

### Strong Feeling Against Reciprocity in Winnipeg

(Special Correspondence to The Toronto News and The Standard)

Winnipeg, Aug. 2.—With a hot sun, sending beams of gladness into the multitude of optimistic hearts that are yearning for a perfect crop, and with the political pot boiling over, the atmosphere in Winnipeg is full of steam, which promises to be a great source of power within the next two or three months. Commercially speaking, there is no thought in this city of a depression; all is buoyant and hopeful. And let it be said, this sanguine view is not an outcome of any agitation in the West for free trade with the United States. On the contrary, a strong feeling prevails in Winnipeg against the Reciprocity Agreement because of the belief in the minds of many prominent business men that the proposed trade pact would seriously interfere with the wonderful industrial development of their city.

While everyone here realizes most fully the importance of a bumper crop and of its distribution every one is also deeply conscious of the fact that a policy of free trade with the United States, even in natural products, is not the right way to plan for the increased pay roll and the greater prosperity of the 237 manufacturing industries which have sprung into being in the last few years, gathering under their roofs some 15,000 workmen.

Winnipeg in many respects is the most truly Canadian city in the Dominion, despite the claims of many in Ontario, that he who settles anywhere west of Lake of the Woods regards the older provinces as the dead, old East. The East-is-East-and-West-is-West idea does not express the view of Winnipeg's best and most influential men. Their conception of Canada is that expressed by the old philosopher in the words—"There be three things which make a nation great, a fertile soil, busy workshops and easy transportation for men and goods from place to place."

### BETWEEN EAST AND WEST

This is a vision, too, which the business man in Winnipeg, because of his unique position in the country, is more qualified to frame than others less fortunately situated. Here he is with his interests and sympathies fairly divided between the vast farming tracts of the Prairie Provinces and the industrial activities so close at hand. The wholesale merchant, the banker, the insurance and real estate agents are vitally connected with the growth of the further West. In fact, nearly every person of any financial worth has one or more strings fastened in some promising town or district on the prairies. For years he has been dependent on the prosperity of the farmer, and his heart and pocket also, feels for the man on the land.

Industrial expansion on the other hand, is a more recent factor in the general scheme of western development, and of course manufacturing is receiving its greatest impetus from the experienced citizen of Winnipeg. He sees in other towns and cities throughout the west, possibilities for the same phenomenal results that have been realized here. Since 1906 factories and shops numbering 109 have been added to Winnipeg's industrial roll; nearly forty were established in 1910 alone.

Just this week a contract was closed with the city by a prospective gypsum manufacturer for the installation of a 400 horse power plant. That this period of four years between 1906 and 1910 has been responsible for the great strengthening of Winnipeg, changing it from a mere distributing centre to a solid commercial city is proven by the increase in assessment values of nearly 100 per cent, and the advance in bank clearings from 500 to 900 millions.

### MIXED FARMING NEEDED.

A large body of consumers who have no connection with agricultural interests, has arisen in this city, and the cost of living is a consideration now that was not complained of before. Hence, one has on every side an urgent demand for the adoption of mixed farming in Manitoba. People are realizing more and more the absurdity of importing meat, eggs, butter, cheese, fruit and so on

from far away regions in the United States and eastern Canada. Winnipeg sees its future handicapped without more abundant and cheaper supplies of food from its own province, and this desire whether understood now or not is the strong and irresistible first step towards protection in western Canada. To be the force and power, that such a country as the west should be, the thorough Canadian out here sees the absolute necessity for self-efficiency. He has everything to help him develop; a soil fit for any kind of agricultural products save the tropical varieties, coal, timber, iron, ore and magnificent water power. Why then, should he not build up these resources, a millionth part of which has not yet been utilized to be turned to the exclusive use of Canada, making her not simply a producer of grain for other countries, but a mighty commercial power supported by a variety of interests?

Such a national future has arisen in the mind of Winnipeg and gradually, if even ever slowly against the agrarian forces of the Grain Growers' Association, that vision must inevitably move westward to the mountains where it will find a more encouraging support again, but he province of British Columbia. This note was struck intensely by R. L. Borden a few weeks ago when he toured Western Canada, and in this city at least his speech was appreciated and will be remembered as that of a Canadian statesman. His avowed support of the Hudson Bay Railroad, terminal elevators and cold storage plants was taken as a constructive scheme for this new country, which although perhaps submerged for the time being under the straight issue of reciprocity, will predominate later, because it had first place in the mind of the people, especially the farmer.

### POLITICS AND FINANCES.

Just now all is politics and finances, the latter being slightly more dependent on the crops. A big fuss has arisen in Winnipeg over the arrangement of voters' lists. The Dominion officials have stepped in to say that the provincial lists arranged by Hon. Robert Rogers are out of date, and that they and not Mr. Rogers shall fix up the new ones for the federal election. It is quite likely that there will be much clashing before suitable lists are compiled. In financial quarters the word is at the best "There will be no money in the country," said a leading banker here today. "We have all increased our capital, and it only remains for the railroads to move the grain." "It will take," said he, "fully fifty million dollars to send the crop to the coast of the lakes, and there you have a large amount to be released into channels of circulation within the next month or two." The only serious feature of the whole commercial situation is the coal famine which threatens the West, for this means that the transportation of coal from the West for the bodily welfare of the Western citizen will have a prior claim over the wheat crop.

Altogether, however, there is much resource in Winnipeg, financially and politically, that promises to go along bravely in tiding Canada over the stormy period of the next two months.

### Fraser for King's.

A large representative and enthusiastic Liberal Conservative Convention assembled at Georgetown on Saturday for the purpose of choosing a candidate for King's County in the approaching Federal contest. Mr. A. C. McDonald President of the King's County Liberal Conservative Association presided. M. A. L. Fraser, the member for the County during the last Parliamentary term, was nominated by John McLean, M.P.P., and seconded by Mr. J. C. Underhay, the veteran of numerous battles and victories, and by Mr. Robert Orran of Baldwin's Road. No other name was presented in the Convention, and Mr. Fraser's nomination was acclaimed by the assembled electors with the utmost enthusiasm. He was received with ringing cheers when he rose to accept. He thanked the delegates and electors present for the splendid nomination of the member for the County during the last Parliamentary term, and proceeded to discuss the public questions before the people, especially Reciprocity, which the Government has made the sole issue in the contest. He delivered an able and comprehensive speech on the Reciprocity question, and retired amid loud applause. "Rousing" speeches were delivered by John McLean, M.P.P., J. A. Mathieson, Leader of the Opposition, Messrs. A. P. Prowse, M. McKinnon, J. A. Dewar, M.P.P., Mr. James McLean, G. R. Montgomery and others. The meeting closed with enthusiastic cheers for R. L. Borden and Mr. Fraser.
