The House was advised that the Legislative Council had passed all the bills sent up to them.

Mr. Kent gave notice of a question as to the action the Government intended taking on Mr. McNelly's report in connection with the telegraph enquiry; and also of another in connection with the petition from Ferryland in regard to the services of Dr. Giovanetti.

Hon. Minister of Justice gave notice that the House would be prorogued to-day at 3 p.m., and the House adjourned till 2.30 p.m. to-day.

Lost Lot of Logs.

Passengers by the express inform us that owing to a heavy N. W. gale which occurred a couple of days ago, the ice in Middle Brook, Port Blandford, gave way suddenly and going down on the wharf where the coastal boats moor damaged it considerably. Between 800 and 1,000 logs were swept away and lost. They were owned by Mr. Stone and their loss is a serious one for him. A man named Sexton also lost 100 large pine logs.

ST. JOSEPH'S PARISH. — Great preparations are being made for the annual Easter Concert in St. Joseph's Parish, Holytown. A good programme will be rendered. The concert will take place next Tuesday evening.

Simple Home Treatment Revolutionises Method of Treating Deafness.

FULL DESCRIPTION SENT FREE.

A marvellous discovery has just been given to the world which adds one more victory to the many triumphs of science over disease. The deaf can hear!!! No longer need deaf people go about wearing the strained, pathetic expression caused by their affliction, a positive burden to themselves and those around them. No longer need they incur the expense or suffer the pain of dangerous surgical operations, useless methods, or cumbersome apparatus. Old prejudices and time-worn fallacies have been entirely swept away. This wonderful discovery enables the patients to cure themselves speedily and surely in their own homes, without a visit to the doctor or even the aid of an appliance. The current number of the "Otolological Gazette" contains a full description of this new method of treatment. A copy of this issue will be sent free of all charge to every reader who is suffering from Loss of Hearing or Ear Trouble in any form. Write to-day (a postcard will do) and secure a free copy before the edition is exhausted, addressing The Aural Remedies Co., 208 Craven House, Kingsway, London, England.

The Impossible Has Become Possible—English Chemists Are the Discoverers.

TO GROW HAIR ON BALD SPOTS WAS ONCE CONSIDERED IMPOSSIBLE. They have recently discovered ladies of Paris have abandoned all the long looked for remedy.

Ladies need never wear rats. The ladies of Paris have abandoned all false hair fillers, and are using the new hair grower—SALVIA. Hair can be grown in a few weeks.

Mrs. Jackson of New York writes stating that since using SALVIA her hair has grown six inches in two months. Marvellous are the results obtained from this new preparation. Not only does it produce a beautiful fluffy head of hair, but at once destroys the Dandruff germ. Your dealer guarantees SALVIA to grow hair, kill Dandruff and to make the hair soft and fluffy. SALVIA is not a dye; does not contain anything injurious. All of its ingredients are simple and harmless. A daintily perfumed hair dressing, used and endorsed by men and women of society. A large generous bottle only costs 50c., and remember, a money back proposition.

Cabinet Crisis in Italy.

Special to Evening Telegram.
ROME, Mar. 21.
The Italian Cabinet resigned to-day. The retirement of the Ministry which was formed on December 10th, 1909, with Baron Bonino, as Premier, was due to the realization that the Government's Mercantile Marine subsidies measure was doomed to defeat. The Italian Minister's programme announced on February 11, provided for a six million subsidy in aid of Italian shipping. The Government also proposed to give the Italian-Lloyd Steamer Company a twenty-five year subvention for the transportation of mail. The proposals proved unpopular and led to stormy scenes in the chamber, during which the Cabinet was sharply criticized.

Parliamentary Hooligans.

Special to Evening Telegram.
BUDAPEST, Mar. 21.
Stormy as have been the sessions of the Hungarian Chamber of Deputies, the Magyars to-day out-did themselves, and ink-wells, books and other handy missiles were hurled at the heads of the Ministers until the latter took refuge in flight. Both the Premier and the Minister of Agriculture were struck by flying missiles, and their heads were cut open. The trouble had been brewing for some time and the Premier and Ministry were unable to make headway against the Opposition, and this morning dissolved the Chamber by Royal decree. This was a signal for an outburst by the Opposition who claimed the dissolution was unconstitutional.

Notes From Harbor Grace.

Miss Phoebe Alcock is now enjoying a visit to friends in St. John's.

Miss Polly Kelly, formerly of this town but lately residing in St. John's, is here visiting friends and staying at the Cochrane House.

Dr. Brehm came by train Saturday night and we hear pronounced the man Bray suffering from a type of small pox.

Quite a number of people have the telephone installed and find it of great advantage.

A young lady of the East End in confidence to a gay young friend of hers the other day expressed herself as being a great admirer of a bachelor friend, who occasionally contributes to one of the St. John's papers. She better be on the alert or she may not get him.

The young man William Bray, who is suffering from small pox, was somewhat improved yesterday, although he has not as yet been taken

to hospital. The hospital was considered not fit to put a patient in. A sister of this young man, who had been much in his company during the past week, was on Saturday removed to the old Police Barracks on Carbonear Road, where two nurses were placed to look after such doubtful cases. This old building is thus after a great number of years utilized for the very purpose it was at first intended. About 50 or 60 years ago, we are not old enough to be able to say definitely, this building was put up by the people of Harbor Grace by subscription to be used as an hospital. We have never heard of its being used for that purpose, but when the soldiers came here in the fifties it was handed over to them for a barracks. When they were removed the police were quartered there. It was considered too far from the town for this purpose and but a few of the family men were left there. The late John McKay lived there for over 26 years. But it seems the old place was destined to be an hospital, as even now in its old age it is turned into what it was originally built for.

The people in the neighborhood are complaining that the place is not fit for an hospital as it has no sewerage and is otherwise unfit. They claim that a board fence should be put around it, thus keeping dogs and other animals from prowling about. There is little cause for fear. The Board of Health is made up of the right sort of men to do everything for the best, and we have not the least doubt that everything possible will be done to wipe out the disease as quickly as possible.

The Rev. Thomas Godden occupied the pulpit in St. Paul's Church yesterday as Canon Noel is on quarantine, as Mrs. Bray, mother of the sufferer, had visited the Rectory during the week.

Train Notes.

By the shore train at 6 p.m. yesterday there went about 20 passengers, mostly second class.

The Bruce express, Conductor Veitch, arrived at 8.50 last night bringing W. Bemmister, W. C. Jones, J. Maunder, Inspector McLachlin, Mr. Lumsden, R. Templeton, Mrs. A. Mitchell, Mr. McNab, Miss Muir, Mr. Duley and about 30 others.

The local arrived at 10.40 last night bringing J. Davis and son, J. Hayes, H. Bishop, F. Noseworthy, W. Thompson, Miss Smith, R. and Mrs. Wright and about 10 others.

An Honest Man.

Yesterday as a poor girl was travelling from Harbor Grace to Spangard's Bay by the local train, she left her purse which contained \$12, all the money she had, on the window, completely forgetting it. Mr. Walter Badcock, who was going to Bay Roberts, saw the purse and seized it, ran after the girl who had left the train, and at the risk of losing his passage restored it to her. Conductor Kelly, on hearing of the man's honest act, slowed up the train and enabled him to get on board.
