Winnipeg, Oct. 25.—Receipts of cattle at the Union stockyards today totaled 3,700; hogs, 953. Today's cattle market was steady at unchanged prices, the demand was good for butcher cows and helfers, but very few toppers were in the offerings, the bulk of the run consisting mostly of medium stuff. Bulls and oxen were in good demand at steady to firm prices. The demand was keen for good quality breedy stockers and feeders. Prices were stronger for this class of stuff. Common and low grade stockers and feeders are hard to dispose of. Vea calves, sheep and lambs steady, a few choice lambs selling at \$18.25. Milch cows and springer trade is good. Hogs took another slump and prices eclined 50 cents per hundred for selects. Market was extremely weak at \$15.00. Prospects are for lower prices.

TORONTO LIVESTOCK Toronto, Oct. 26, Union Stockyards.—
Forty-two cars comprised the receipts of the market today, with 278 cattle, 14 calves, 1,406 hogs, 997 sheep and lambs.
There were still several loads of fairly good butcher cattle unsold at the close. There seemed to be an eliment suits stated. There seemed to be an almost unlimited demand for the cheaper grades, though camers, cutters and fat cows found ready

up to \$6.90 and over for the choicest cows, and \$5.25 to \$6.50 for canners and outters. Lambs were easier, going off 50 cents and weak at that price. Hogs were a shade firmer, some of the best lots being picked up at as high as \$17, fed and watered.

# HANNA FARMERS ASK FOR FIXED

Resolution Sent to Premier Borden Asking for Fixed Prices on All Commodities Used in Grain Production

At a large meeting of the members of the United Farmers at Hanna, the question of fixed prices on grain and fixed prices on all commodities used in the production of that grain was thoroughly discussed. The general opin-ion seemed to be that unless the prices on machinery and other articles used by the farmer in his husiness were condo trolled, wheat would soon cease to be a 13 profitable article of production. After considerable discussion the following resolution was adopted, and copies of it will be sent to Premier Bor-den and other officials interested in the

production of grain. The Resolution Whereas the Canadian government as seen fit to set a certain fixed price in wheat and it is evident that the said government will in the near future

the farmer has to buy and if action is not taken at once it is but the question of a very short time until foodstuffs, very largely cut down by the western farmers on account of the high cost of machinery, labor and other inci-

dan holders, was not accompanied by dentals; and other including activity in the stock in the Mon-real market.

Business here was on small scale of Alberta, demand that the government of Alberta that and scattered over a fairly large numment at once take action and put a set price on all manufactured articles entering into the production of foodstuffs loan, which advanced 1-8 to 94 3-8, was the feature in the bond market.

C.P.R. IN DECLINE

AT TORONTO MARKET New York Raids on Rafl Affects Local Prices

Toronto, Oct. 25.—A sharp decline in Canadian Pacific, reflecting the abrupt decrease which rails suffered in the New York trading, was the sole feature o ftoday's local market. Trading in securities has been steadily waning and today's record, when not a single issue was dealt in to the extent of a board lot, comes as the culmination of the steadily dwindling volume of busi-ness. Brazil Traction, which has been occupying the position of market lead-er, was practically neglected Small lots of C.P.R. were turned over

at 145 to 145 5-8, with the close at the lower figure for a net loss of 8 8-4.
