The council also went into committee of the whole on the second report of the house of Refuge committee, with Deputy Reeve Cox, of Strathroy, in the chair. The report recommended the purchase of firet acres of land adjoining the present property at a cost of \$1,555.

Simon McLeod, reeve of West Williams, was convinced that the representatives of Strathroy had successfully "hoodwinked" the members of the council. No man in this county could, he said, honestly say that

Strathery and accession. No man in this county could, he said, honestly say that the House of Refuge was located in the Proper place in the county. The institution should have been built near Hyde Park and 100 acres of land should have been purchased in connection with it. He was in favor of having more land, but would not let Strathroy people bleed the council to the extent of \$85 an acre for land that was not worth \$30. The most successful "shark" that ever represented Strathroy in the County Council was the present reeve, Mr. R. P. Smith. He was a little dubious of the honesty of Strathroy's speculators in selling land to the county.

P. H. Reckard, of Dorchester, informed P. H. Reckard, of Dorchester, Informed fr. McLeod that the whole farm adjoining he present House of Refuge property sold

Mr. McLeod afterwards referred to the liberality of the townsh's of Adelaide. The town of Strathroy an. 'Adelaide, he said, were credited with one-quarter of the total expense connected with the maintenance of the House of Refuge—one-quarter of the total number of immates came from these two municipalities. A poor tramp peddler died in Adelaide willage, in the very heart of the township, and the people of Adelaide had not sufficient generosity and public spirit to give him a decent burial. They placed his body in a mungifuted hemlock coffin, with his boots and his clothes on and afterwards they pat his old felt hat on his head, as he had formerly worn it. They had not enough enterprise to give him a respectable burial. Mr. McLeod had once borne the total expense of a funeral for a man, and this was more than the whole township of Adelaide would do.

Depaty Rever Scarrow said he had been had formerly worn it. They had not enough enterprise to give him a respectable to place the County Council in opposition to the surrounding farmers. It so the councilors were cutting their own throats. The motion to adopt the clause in the report extried, when the council resumed.

J. M. Moore will be requested to impect the House of Refuge and report on the surrounding farmers. If so the councilors were cutting their own throats. The motion to adopt the clause in the report extried, when the council resumed.

J. M. Moore will be requested to impect the House of Refuge and report on the mater of more satisfactory heating.

Mr. Scarrow gave notice that at the January scaion he would move that the resolution supposering the House of Refuge committee to purchase additional land be resinded. His notice was ruled out of order.

The Theasurer J. M. McEvoy submitted an abstract statement of the receipts and disbursements of the county for the period from Jan. I to Nov. 30. The balance from 1891 was \$20,882 63, and the other receipts totalled \$111,159 72. The cash balance on hand at Nov. 30 was \$37,955 16. The disbursements for the eleven months therefore totalled \$94,097 19. The report was considered satisfactory and was adopted.

Dividing the county for the county was adopted.

Dividing the county for the county was adopted.

The report of the committee on dividing the county into two police magistrate districts, aireally published, was read and the causel went into committee of the whole. Clause I recommended that the county be divided into two districts.

Mr. McLeod moved that it be adopted.

Joseph Rosser moved in amendment that there be three districts composed as follows:

No. 2—Townships of London, Westminster, Nissari, Dorchester, and Delaware, and the village of London West.

No. 2—Townships of Loho, MeGillivray, Biddulph, East and West Williams, and the villages of Gience, Newbury and Wardsville.

No. 3—Townships of Loho, MeGillivray, Biddulph, East and West Williams, and the villages of Gience, Newbury and West Williams, and the villages of Gience, Newbury and West Williams, and the villages of Loho, MeGillivray, Biddulph, East and West Williams, and the village of the villages of Loho, MeGillivray, Biddulph, East and West Williams, and the village of the village of Loho in the villages of Chience of the village of Loho in the village of Loho in the villages of Loho in the villages of Chience of the village of Loho in the villages of Loho in the vil

No. 3—Townships of Lobo, McGillivray, Biddulph, East and West Williams, and the villages of Ailsa Craig and Lucan.

Mr. McLeod wanted Mr. Rosser and Mr. Smith to show that the proposed change was to be in the interests of the public. It would establish two or three men as magistrates and would be a great expense and a hardship on the poor. It was the worst movement that had ever been introdued in the council. The present magistrates carried on the affairs as economically and as satisfactorily as could be expected.

W. S. Calvert, Metcaife, argued that as

The motion to have three districts instead of two was lost.

The clause was struck out and the rest of the report will be read six months from this day.

W. S. Calvert, Metcalfe, argued that as the council had sent a deputation to the Government to obtain the necessary legislation and that as they had been successful no obtaining this legislation the council should adopt the clause. The scheme could be tried for a year or more, and then if it was found needs rable to continue, the council had eabolished.

Mr. Scarrow said that a lockup would have to be eastablished in every village in the county if the recommendation of the committee were adopted. The irregularities exposed a couple of years ago in the siministration of justice in Middlesox were not even and then the same was not even now, and thus the cause of this move had been abolished. The expense would be trebled. Two or three magistrates in the county performed nearly all the magisterial duties now without startes. He obtained this information from the Government statistics. Strong Words of Encouragement

CANADIANS WILL BE BENEFITED!

Men in every department of the Queen's service in Canada have been heard from in a way that is calculated to inspire confidence and great hope.

Thousands in our country now stand in need of honest and truthful assurances, because of failures in the past. Those who have met with failures are the suffering, broken-down and diseased, and these are found in every city, town and village of our Dominion. For months and years the sick ones have vainly endeavored to find an agent of cure. They have been misled by fair promises, and have sunk deeper than ever before into the slough of despondency. The disappointed, despondent and despairing unfortunately placed their faith in remedies that could not cure. They have spent their means and strength on agents that proved worthless and of no avail.

The light of science has brought new hope to the suffering; it has given to them a power and agency that has worked wonders wherever used. This power, remedy and blessing comes to our people in the form of Paine's Celery Compound—a preparation that is always victorious and triumphant when other remedies fail.

This Paine's Celery Compound makes no false representations. It guarantees to cure; and this assertion is borne out by thousands of the best testimonials ever published. It takes up the sad and despondent after all other means have failed, and restores them to health. What more can be desired?

Untold chisery—What a Well-Known Commercial Traveler Suffered, and How He Was Cured.—Gentlemen.—About five years ago I began to be troubled with dyspepsia, and for three years suffered untold misery, from this terrible complaint. I was at that time traveling for Messrs. Walter Woods & Co., Hamflton, and was treated by some of the best physicians in the country, but all to no purpose. I continued to grow worse, one day I was induced to try a bottle of Northrop & Lyman's Vegetable Discovery, and to my great surprise and joy, I soon began to improve. I continued using this medicine, and when the third bottle was finished I found I was entirely cured; and as a year has elapsed since then, I feel confident that the cure is complete and permanent. To all afflicted with this distressing complaint I heartily recommend Northrop & Lyman's Vegetable Discovery, believing that the persistent use of it will cure any case of dyspepsia. (Signed.) T. S. Oliver Cunning for Annexation WHY THIS DISCRIMINATION?
[Canada Presbyterian.]
Why is Mr. Elgin Myers, Q.C., so frequently denounced, as it he were the only annexationist in the Deminion? Mr. Myers has been punished—much too severely, many think—and so far as we know he bore his punishment like a man. Why should other offenders be passed over in silence and his name dragged to the front as Mr. McCarthy dragged it at the Auditorium meeting the other night. Is it because Mr. Myers is a young lawyer just beginning practice in the city and may not have as many influential friends as other well-known annexationists have? Or is it because he is a Presbyterian—a mere dissenter, you know—or because he used to be down? Why pass over Prof. Godwin Smith, president of the Annexationist Association of Toronto? He is a prominent man and dines with vice-royalty. Why say nothing about Mr. Sol. White, M. P. P., the only avowed annexationist in the Local Legislature. Mr. White was considered good enough to preside at a dinner given to a Dominion Cabinet Minister in Windsor the other day. He should be a fair illustration of annexationist wickedness. Whypass over him? Mr. McCarthy should look for an illustration among his aristocratic set. He could find one without much Rabbits.
