ROSEBERRY PESSIMISTIC

Regarding the Industrial and Commercial Competition That England Must Face.

London, Jan. 17.-At a meeting of the Wolverhampton Chamber of Commerce yseterday former Prime Minister Rosebery made a speech in which he dealt in serious strain with the industrial and commercial competing by which Great Britain was faced. He declared that the future was dark and gloomy. "The chief rivals to be feared," said

his lordship, "are America and Germany. The Americans, with their vast and almost incalculable resources, their acuteness and enterprise, and their huge population, which will probably be 100,000,000 in twenty years, together with the plan they have adopted for putting accumulated wealth into great co-operative syndicates or trusts for the purpose of carrying on this great commercial warfare, are perhaps the most forcial warfare, are perhaps the most for-Lord Rosebery's speech at Wolver-hampton excites much comment, but it is not taken very seriously. The Morn-ing Post, which calls him a "dreamer." declares that at the present moment

people are more concerned with ques-tions of national defense than of education.
The Daily Chronicle says: "Happy are they who think that a commercial war is the only one we have to fear in the future."

The Standard declines to believe that the American trusts will ruin them-selves in order to undersell rivals. It

selves in order to undersell rivals. It admits the seriousness of American expansion and of the invasion of England by American industry, but says it fails to see why the prosperity of others should be necessarily a disadvantage to Britain.

NOTHING IN THE RUMOR

That Edgar Moden Had Left The City.

Rumors were current around the city yesterday that Edgar Morden, who has been brought into such unenviable prominence by the Sifton will case, had left for parts unknown. There was no truth in the report, however, as Morden was in the city both yesterday and today, and was seen around the principal streets at noon to-

Counsel for the plaintiffs would not definitely say as to whether they would take any steps looking to criminal prosecution of Morden on the charge of forgery. The crown authorities were equally non-committal as to whether criminal proceedings would be taken against the man whom the civil jury had virtually accused of forgery.

Grip Is Killing

Scores of People.

New York, Jan. 17.—Speaking of the grip epidemic in this city, Dr. Cyrus Edson said: "Fully one-sixth of New York's population have the grip—the others will get it. I believe the epidemic is now at its height. There are many cases of grip-pneumonia, which is grip affecting the lungs. This is very dangerous. A characteristic of grip this year is that the temperature is always very high. The death rate so far has been enormously high-75 deaths in one week is unprecedented

for grip."
Toronto, Jan. 16.—the grip has set its hand on the Hazelton murder trial, and stopped the machinery of the law. The court sat all this morning waiting for a statement as to when Alex. Downey, the stenographer who took Mrs. Milne's ante-mortem statement, will be able to attend and give evidence. Downey is seriously ill, and the case cannot proceed in his absence.

The Toronto School Board Accepts Sir Wm. Macdonald's Offer.

Toronto, Jan. 17 .- "If the school boards of Toronto would like to have two of these schools, and perhaps three of them—a forty-bench and a twenty-bench school-provided in Toronto, I am quite willing, because I have been authorized, and I have funds in hand. I say this will be done for the School Board, and we will find as good a man and two assistants as can be found for this work. We can have the teachers and the equipment here in about a fortnight, and have the schoos open when the legislature opens in February, which will afford a valuable object lession to the members of what can be done for all Ontario." In these words Prof. Robertson conveyed to the old school board last night Sir William Macdonald's offer to establish manual schools in Toronto, as in other parts of Canada.
