

SIX

DRINKING CUPS TO BE ABOLISHED SOON

St. Marys Collegiate Principal Recommends More Sanitary Arrangement.

[Special to The Advertiser.]

St. Marys, March 12.—The Collegiate Institute board held a brief session last evening. The secretary presented a number of communications. The finance report was presented as follows: Willard & Atkinson, account \$14.96; J. T. Simms, repairs to furnace, \$17.75; Kappeler & Lancaster, auditors, \$5; National Typewriter Company, \$22.50; O'Brien Bros., \$145.50; total, \$206.75.

The principal suggested to the board doing away with the present drinking cup as being unsanitary. The matter was left with the board to investigate and report.

Trustees were instructed to correspond with other Collegiate Institutes regarding county grants and rates. The principal drew the attention of the board to the fact that the Ontario Government health exhibit car will be here on Wednesday, March 19, at 11:11 a.m., and remain until March 20. On Wednesday evening, March 19, in the town hall the school children will be given a treat to a moving picture exhibit of health models and health matters. The exhibits in car and also in town hall are free to the public.

Great opposition is cropping up against the town council submitting a bylaw for the selling of or diverting of a portion of Water street, which at present runs through the Thames Quarry.

NOTED ANARCHIST CAUGHT AT PARIS

Europe's Worst Murderer Close to a Lynching and Will Be Guillotined.

Paris, March 12.—Lacombe, called "Dog Nose," an international anarchist and murderer, recognized as the most desperate and brutal criminal in Europe, was arrested here late today in a desperate fight with four police agents in La Villette section, in the suburbs. He was attending a street fair when recognized by two plainclothesmen. As they grabbed him he made frantic efforts to escape. Two uniformed policemen ran up in time to prevent Lacombe getting two revolvers out of his pocket and emptying them into the great crowd watching the encounter. A bomb and 18 cartridges were also found in his pockets. The man was rushed to the nearest police station to prevent his being lynched by the excited people, long inflamed by the horror of his many crimes.

Will Be Guillotined. Lacombe will be guillotined, as he has already been convicted under the French law. His first known murder was the killing of a Government official named Cartier, when robbing the postoffice in Besancon, France. He fled to Paris and hid for days in a house in the Montmartre district, where a man named Ducret published an anarchist newspaper. On Nov. 9 Guichard of the Paris detective force, at the head of 100 police, surrounded Lacombe's hiding place, but Lacombe had been warned and got away, but several weeks later returned and killed Ducret, after torturing him all night, shooting the editor in bed as he lay beside his wife.

FATAL PNEUMONIA

Patrick Coleman Had Resided at Bothwell Nearly All His Life.

[Special to The Advertiser.] Bothwell, March 11.—The funeral of Mr. Patrick Coleman, held yesterday afternoon from the family residence on Elm street, was conducted by Rev. Mr. Masters.

Mr. Coleman was 46 years old, and had resided in this vicinity since childhood. His death was caused from an attack of pneumonia, and he was ill for only three weeks.

He leaves his wife and five children to mourn his loss.

HOW TO TREAT PIMPLES AND BLACKHEADS

Successfully and Speedily With CUTICURA SOAP

And Cuticura Ointment, at a trifling cost, is learned from the special directions which accompany these pure, sweet and gentle emollients.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 25-page booklet on the care and treatment of the skin and scalp, sent post-free. Address: Potter Drug & Chemical Corp., Dept. 260, Toronto, U.S.A.

CORRESPONDENCE

A Suggestion.

To the Editor of The Advertiser: Some years ago the council of Lobo procured enlarged portraits of those parties who were at the time prominent in the township, and those portraits have been hanging in our town hall for years, which is all right. I submit that no person has a greater claim to remembrance than our late C. M. Simmons. In everything he undertook he was a worker, and always had the best of the township in his mind. No person would be more missed than Charlie, and I feel certain that the township will more than support our council if they procure a life-size portrait of our late C. M. Simmons, and hang it in the hall, and I trust the hint I give them in this will be all that is necessary. Yours truly, A. C. ATTWOOD, Vanneck.

On Board of Trade Delegates and the Cattle Industry.

To the Editor of The Advertiser: Owing to the very fair way in which agriculturists and their interests are treated by your useful paper, I take the liberty of writing you a few lines.

The Board of Trade think and resolve that the farmers ought to be stirred up through the press to the needs of the home market.

I may be wrong, but I am of the opinion that not only the cattle interests but those of sheep and hogs, and in fact, of all natural products of the farm were very intensely argued during the summer of 1911, and also that the municipalities whose delegates compose the board who fathered this resolution, voted directly against the opening of the American market to Canadian cattle, the object being to keep down values of food animals to the lowest point in the interest of the Canadian consumer.

Citizens generally ignore the causes which have led to the decline in shipments of export cattle, and to the indifference shown by farmers to the needs of the home market. They do not appear to appreciate the brain power of the rural worker, who drops an unprofitable line for one of greater promise. They think he can be advised to return to lines of production from which he was driven by the 27½ per cent. cattle tariff of the United States, and last but not least, and not even honestly defensible, "the British embargo." Yet we have a Government at Ottawa who are determined to compel us to pay \$35,000,000 to ease the tax of the very man who flung the bolt that struck the solar plexus of Canada's beef cattle industry.

The gentleman who moved the resolution said we were in the habit of selling the calves and immature animals, deriving a doubtful advantage. I sympathize with him, but as we are breeding dairy stock and not beefers, the sooner we get the home market off the farm the better, as they grow homelier and less profitable as they grow in years. Although we are receiving one, two or three cents per pound less for first-class cheese than paid for such cheese in the New York State markets, yet it has this merit that it cannot be "cornered" like the cattle trade, nor overdone as the hog trade was when we sold at from \$3.50 to \$5 per hundred weight, live weight.

We reduced the holdings of sheep when our natural market was closed to us except at a sacrifice of \$1.50 per head for every sheep sent there. What are we to think when an unconscionable statement is made that 3,000,000 pounds of frozen mutton brought from the Antipodes was in cold storage in the Northwest Provinces, brought to Canada by lines subsidized by the Dominion Government?

The Government also, with the idea in view of re-establishing the sheep industry, appropriated a sum of money to be expended in purchasing breeding stock. The sheep were purchased and shipped, also offered for sale by auction in the Maritime Provinces, Quebec, the Prairie Provinces and British Columbia, with the result (as reported) that money was dropped all along the line.

It is about time that the "powers" understand that tariffs kill the sheep industry, and that it might have been as firmly established as it was during the former reciprocity period (when every farm had its flock), by simply ratifying the agreement of 1911, but that would have cost nothing and might have increased the cost of living and wool. However, the present generally adopted system of lowering supplies has raised the price of sheep and lambs and also of hogs above the American market quotations. Cattle also are continually advancing in value and must still advance. The beef breeds are down and out. It will take the few that are left many years to build up again, even if there were free entry into the United States, and the repeal of the embargo. In fact, it looks as if the Canadian duties will have to be repealed if the consumer is to escape paying the highest prices in the world for the products of the West are being encroached upon by settlers, but how many know that many of the ranges are rented to American cattlemen who winter their stock south of 42 degrees north latitude, and place them upon the Canadian pastures ("in bond") in the summer, returning them to the American market when it is favorable, or to the warmer feeding grounds for wintering.

If it were not for the insane rejection of free trade in animals, Canadian stock men would have stocked the ranches and thereby increased their own wealth and also the wealth and well-being of our country. We are not asking for advice from boards of trade, they are fair field and no favors to others at our expense. We are told to think imperially and to copy "British ideals," and not American. Well, Britain has proclaimed free trade to the world for 77 years, and welcomes it from any quarter. How does that ideal strike our Canadian imperialistic advisers? Study up the Golden Rule for awhile. It is short, and its author divine.

JAMES A. GLEN.

BENEDICTINES FOR WEST.

Calgary, Alta., March 11.—It is announced that the new Benedictine College to be erected here on a 20-acre site donated by Cecil Hadfield, will cost \$100,000, at the start, and accommodate sixty pupils. All the professors will be brought from England and be Oxford graduates. The instruction will be secular, and the board desires the affiliation with Calgary University. Rev. Father Clark, of the English Order of Benedictines, is promoting the plans.

Mrs. Murphy—Yore Dennis was certainly a good man to his family, wasn't he? Mrs. Casey—He was that. Shure, he wouldn't think of bating up his own family till he had bated up everybody else in the neighborhood.

A New Trick

London, March 11.—A new suffragette trick is now being put in operation. That is the sending of an unstamped letter containing a copper coin to magistrates, solicitors and others whose addresses are public property. The intention of the coin involves the addresses (if he accepts the letter) in the payment of a double registration fee. The recipient of the letter on opening it finds a circular pressing woman's finger. Many public men have already been victimized in this way.

ONTARIO ORANGEMEN MEETING IN WINDSOR

Many Important Political and Social Questions To Be Discussed.

[Special to The Advertiser.]

Windsor, March 12.—Orangemen from all over Ontario are here today for the opening of the 54th annual convention of the Provincial Grand Lodge of Ontario West.

At the session which opened this afternoon Grand Master Dane, of Toronto, presided. Col. J. H. Scott, of Walkerton, grand master of the grand lodge of Canada, and many other prominent Orangemen are here.

There may be a contest for the grand mastership should Mr. Dane retire. Dr. Williams, of Woodstock, and Mayor Hocken, of Toronto, would be the contestants. There is, however, a strong feeling that Mr. Fred Duno should fill a second term in the chair. Generally the legislation committee's report is the most important, but its secrets are exceedingly well guarded. There will, however, doubtless be a reference to bilingual schools, the naval bill, the marriage question, and it is rumored that a demand will be made for single fares on July 12th, or the order will unite to oppose in Parliament and Legislatures every railway bill till this concession is made.

MURDER HEARING TO OPEN NEXT TUESDAY

Henry Love Will Be Tried for Killing His Wife.

[Special to The Advertiser.]

Toronto, March 12.—Mr. H. D. Gamble has been appointed crown counsel for the criminal session for trial at Owen Sound next Tuesday. The case of Henry Love, charged with the murder of his wife near Ceylon, is set down for trial. Mr. Justice Lennox will preside at the sittings. Dr. Arthur J. Johnson, Toronto, will give medical testimony on behalf of the crown. Provincial Inspector Henry Reburn, whose investigation brought about the arrest of Love, will assist the crown counsel.

OPERATION ON DR. ROCHE

Canadian Cabinet Minister Lies Ill at Rochester, Minn.

[Special to The Advertiser.]

Ottawa, March 11.—A special to the Citizen from Rochester, Minn., says: Dr. W. J. Roche, minister of interior of Canada, submitted to an operation at St. Mary's Hospital today for gall stones. The patient is resting with comfort following the operation, although not fully relieved from the effects of the anaesthetic.

CALL CREMATION PAGAN

Catholic and Protestant Clergymen of Washington Denounce It.

[Canadian Press.]

Washington, March 11.—Dr. W. G. Woodward, health officer of the district of Columbia, has precipitated a sharp controversy on the question of cremation which is stirring church circles. Catholic and Protestant clergymen have taken up the matter and denouncing it as "pagan" and "infidel." The controversy has reached the newspaper stage, and arguments for and against cremation are finding their way into print.

"I believe it is the only sanitary way

New Treatment Now Advocated For Bronchitis

IS HAVING WONDERFUL SUCCESS AND IS MAKING REMARKABLE CURES.

For bronchitis a different form of treatment is now advocated. It consists of a scientifically devised vapor which penetrates to the innermost recesses of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility.

Just think of it—a remedy that can be carried with the very air you breathe to the seat of bronchial or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that disease flees before it. Catarrh is truly a wonderful remedy. In many lands it has won its cures from colds, catarrh, throat weakness, asthma, and bronchitis. There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrh, which is embraced by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size 50c, sample size 25c. Catarrh is sold by druggists, or The Catarrh Co., Buffalo, N. Y., and Kingston, Canada.

ARE YOUR HANDS ROUGH & CHAPPED?

One thorough application of Zam-Buk at night will bring ease by morning. Zam-Buk stops the smarting, heals the cracks and makes the hands smooth.

Mrs. A. F. Phillips, of Ayer's Cliff, Que., says:—"I suffered terribly from chapped hands. Sometimes I almost cried with the pain and smarting. Zam-Buk was recommended and it gave me ease almost as soon as applied. Now my hands are quite smooth."

Also use Zam-Buk for all skin eruptions, ulcers, piles, cuts, burns and all skin injuries. 50c. box all druggists and stores.

ZAM-BUK

of disposing of the dead," said Dr. Woodward, "and surely it is the only poetic way. I hope to see cremation extended."

Monksignor William P. Russell, pastor of St. Patrick's Catholic Church, declared that cremation "was against the teachings of Christianity." He declared that it was contrary to the tenets of Catholicism, and that such disposition of the body of the departed was a reversal to the days of pagan Rome. Several Protestant pastors voiced the same view.

BUILD CANALS SUPERIOR TO GULFS

Gigantic Project to Canalize U. S. Waterways.

[Canadian Press.]

Madison, Wis., March 11.—The Wisconsin Legislature will be asked to endorse a project for connecting Lake Superior and the Gulf of Mexico for steamboat traffic. More particularly it proposes to canalize the waterways from Lake Superior to the Mississippi River at Prescott, Wis., making it navigable for boats of heavy draft.

Assemblyman Chinnock, of Hudson, estimates that the realization of the plan will provide a revenue to the Federal Government for power sold amounting to \$3,300,000 annually.

A joint resolution is in course of preparation, memorializing Congress to provide funds for carrying out the project.

LEAVING STATFORD

Engineer Kastella Will Take Big Position at Ottawa.

[Special to The Advertiser.]

Stratford, March 12.—A fine promotion has come to Mr. August Kastella, chief engineer of the big electric power plant of the G. T. R. here. He has been appointed head engineer in charge of light, heat and power at the Grand Trunk Central Station and Chateau Laurier at Ottawa. He left today for his new post.

ODD INSURANCE CASE

A. O. U. W. Ask Court To Solve a Problem as to Beneficiary.

[Canadian Press.]

Toronto, March 11.—The Ancient Order of United Workmen this morning secured from Chief Justice M. M. Meredith an order allowing them to pay into court \$1,000, the amount of a policy on the life of Albert Louis Brad, of Ottawa. The policy was made payable to "Adele Brad, bearing the relation of wife of Adele Brad is dead, and A. L. Brad is survived by her two children, and his second wife. Under the insurance act, insurance payable to a wife is payable to the surviving wife. This case the question is whether Adele Brad was not a preferred beneficiary, the words "bearing the relationship to me of wife" being merely descriptive. If the words are merely descriptive the money will go to Adele Brad's children, if not it will go to the second wife. The matter will be argued later.

Don't Diet Yourself TO DEATH TO CURE DYSPEPSIA OR INDIGESTION. IT ISN'T NECESSARY.

While it is necessary for the dyspeptic to abstain from rich, greasy, highly seasoned food, it is useless and injurious to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body.

Weakening the body will never remove dyspepsia, on the contrary, all efforts should be to maintain and increase the strength.

Burdock Blood Bitters will increase the strength, and at the same time enable one to partake of all the wholesome food required, without fear of any unpleasant after results.

Miss Martha A. Brooks, Gagetown, N.B., writes:—"I have been troubled with indigestion for more than seven years, have tried several doctors and different medicines, claiming the power to cure, but all without success. Having heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. I have taken only one bottle, and that one has done me more good than all the other medicines I have used. My appetite, which was very poor, is now good, and I can eat most everything without any disagreeable feelings."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

Russell-Knight "28" Touring Model \$3,250
Russell-Knight "28" Roadster Model \$3,200
Russell-Knight Seven Passenger \$3,500
F.O.B., West Toronto.

Investigate The Russell-Knight "28"

Overheard in an Automobile Show Room

"If I were about to buy a car, I would investigate all models within range of my pocketbook, for nearly every one has features that seem to give it preference."

Don't you think that is the right way to buy a car?

We would that all prospective owners exercised such judgment in buying cars. All round investigation would prove that the 1913 Russell-Knight "28" so far leads all other cars in efficiency and comfort, that it stands 'way ahead in a class by itself.

The car not only has more comfort-making features than any other model in Canada, but it has been designed in such a way that these features lend their greatest efficiency to the car as a unit. The Russell-Knight "28" was not produced by adding new or extra features, to an old model. It has been designed absolutely anew from the ground up. Some of its special and exclusive features are:

Russell-Knight Engine, Left Drive and Centre Control, Combined Electric Dynamo and Motor for Starting Engine, Lighting Lamps and charging Battery, Electric Head Lamps, Side Lamps, Combined Speedometer and Clock, Wheel Locks, easily attached, Heating System for the Tonneau, Non-skid Tires, 36x4 1/4 inches, Power Pump for the Tires, Demountable Rims, with one spare rim, Folding Glass Windshield for the Front Seat, Folding Glass Windshield for the Rear Seat, Extension Top with Side Curtains, Top Envelope, Foot Rest, Roba Rail, Tire Holders (double), Electric Horn, under the bonnet.

A Descriptive Catalogue will be mailed or a demonstration arranged upon request.

The hand-written letter has no business in a business office

It is an unwarranted intrusion on a busy man's time and patience.

In the museums of the future, the pen will be hung up with the warning-pan, the flint-lock and the spinning-wheel.

In the business office of today the typewriter is an established fixture. It is not only a new industry itself but it is the right hand of every industry under the sun.

The large corporation would be helpless without it. The single-handed man needs it most of all.

It has a legitimate place wherever there is writing to be done or records to be kept.

Let the

Monarch Typewriter

handle your writing—especially your business correspondence. It will pay for itself in the better, bigger business it will begot.

Send for illustrated booklet to

History—Laubeane, Crims of 1912; Oman (editor), History of England, Vol. 19.

One of the Few Left Who Charged With the Light Brigade.

[Canadian Press.]

London, March 11.—Viscount Tredegar, one of the few who returned from the charge of the Light Brigade at the battle of Balaclava during the Crimean War, in which he took part as a captain of the Seventeenth Lancers, died today at the age of 82. There is no heir to the title of viscount. Courtenay Charles E. Morgan, a grandson of the first baron, however, succeeds to the title of Baron Tredegar.

GAVE HIM A RING

Popular Ridgeway Organist Is Going to Chatham to Reside.

[Special to The Advertiser.]

Ridgeway, March 12.—At the close of choir practice last night in the Presbyterian Church, Mr. Whitney Scherer, who has been organist for the past three years, was presented with a beautiful signet ring and an address by the members of the choir. Mr. Scherer has resigned as organist here, and is going to Chatham.

JOURNALIST DEAD.

Winnipeg, March 11.—Henry Thomas McPhillips, aged 63, a print-

KIDNEYS WERE SO SORE DIDN'T KNOW WHAT TO DO.

GRAVEL AND SMALL STONES PASSED THROUGH THE URINE.

One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid and lime in the blood uniting and forming a gritty substance which lodges in the inner surfaces of the kidneys or bladder, and sets up a painful irritation.

To relieve these terrible pains it is necessary to keep the kidneys healthy by healthy kidneys secret fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain.

Mrs. Elmore Baldwin, Windsor, Ontario, writes:—"I was so weak I could not do my own work. I tried many doctors, and every one of them told me to go to some institution. Reading of Doan's Kidney Pills, I tried them, and am now well, and can recommend them to all. My kidneys were so sore I did not know what to do, but after using the Doan's Kidney Pills, you would be surprised at all the gravel and small stones that passed through my urine. Now I am well and able to do my own work."

Doan's Kidney Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct, specify "Doan's."
