

Intimate Unless Fans Support Club, Directors

Gives Owners' Angle On Pro **Ball Situation In London**

President Heard Reviews the Club's Affairs Since Organization In 1919.

In the following written statement by President Heard of the London Baseball Club, the fans are given the baseball situation as it affects professional basebail in London, from the angle of the Saginaw club directors:

ttention has been directed several times to a series of misapprehensions in respect to professional baseball as operated in this city. The best way to clear this up is a plain statement of the facts, for often a single demonstration is better than a book full of arguments. ter than a book full of arguments.

The Tecumseh Baseball and Athletic Association, Limited, was formed in 1919. All the money that was raised at that time and \$3,000 more, a total approximating \$7,000, was used in that year with no assets at the end of the

During 1920, reorganization took place. Additional money was raised and a pennant was won, and we served 100,000 people in the hall park, sold about \$6,000 worth of players, which left a surplus at the end of the year of about \$9,000. During that year the manager received \$2,150. Through the backing of a certain shareholder he demanded and got for the next year \$3,500, besides a percentage on sales of players. We During 1920, reorganization took place a percentage on sales of players. We won a pennant that year and served 58,000 people, a shrinkage of 42,000 people. Receipts and disbursements were about equal

Last year, 1922, we served 54,000 peo-

ple in the park, completed the year in second place with the same manager, second place with the same manager, and lost \$4,500, leaving a surplus to communee this year of about \$4,500.

This surplus has been used up and about \$2,500 besides, leaving the club experiencing a loss for this year, to date, of something like \$7,000. The attendance this year is 14,000 people, to date, so that the directors of the club are endeavoring to find why it is the people will not patronize the club.

We are led to believe that among the bauses for want of attendance are: auses for want of attendance are:

1st—Increase of 10 cents at the gate.

2nd—Resentment because the old
manager was not continued.

3rd—A disapproval of the present

Majority Ruled. Answering this, in the first place, ever since the Michigan-Ontario League has been organized the admission charge by the American clubs has been 50 cents and by most of the Canadian clubs, 40 cents, and this was a continual source of trouble, so that last year the league forced all the clubs to charge the same rate, 50 cents. The London club was not in favor of it, but had to submit to the majority. London club was not in favor of it, but had to submit to the majority.

Secondly, the old manager could not be continued for two reasons. First, he was the highest paid manager in minor league organized baseball. He was paid more than the London club could afford. We might have continued the could afford the core but there was an could afford. We might have continued him on this score, but there was another, and to the writer's opinion, a fatal objection, which was that he would not live within instructions, neither the instructions of the directors, nor within the constitution of the National Association of Baseball Leagues. Three times during the last year he violated the rules and left the club and the could be applied to the club and left the c violated the rules and left the club and himself subject to heavy penalties. In two instances the circumstances came to the London club's attention through Judge Landis' office, and in the last case the London club was find \$250 with-

the manager also a similar fine was Personally the writer would rather go but of baseball than submit to such put of baseball than submit to such proceedings.

In the third instance it is easy to make a mistake. Still we must be fair and give everybody a chance. The present manager was condemned by some of the fans before he had made a beginning. When one looks at the club, as at present constituteed, winning seven out of eleven games while on the road, and which has been playing and winning 50 per cent of its games for the last six weeks, and this in the face of the most adverse criticism, it would indicate that there is good stuff in this club, and also in the manager. That he has not exhibited all the signs of good management may be attributable good management may be attributable to want of experience. It is, however, a bad practice to "swap horses, when rossing a stream."
The baseball club since 1920 has been The baseball club since 1920 has been giving an exhibition of good, clean, honest baseball, and the players, almost without exception, have behaved on the grounds in a way to commend themselves to all patrons of the game. It is not possible to always win pennants. Two pennants and once in second place, as well as being champions in the playoff between the Central League and the Michigan-Ontario League, seems pretty good picking. The league consists of eight clubs, all of which are necessary to each other, and

ich are necessary to each other, and league would be destroyed if any b monopolized the winnings. Give Services Free. During this period of time the direc-During this period of time the directors have been giving their entire services free. None of them has received a penny for their services, and they are naturally anxious to know whether professional baseball, as exhibited by the Tecumseh Baseball and Athletic Association, can endure in this city. ociation, can endure in this city.

Only one shareholder in this city made money out of baseball, and that was by selling his stock when the boom was on, and this shareholder is the greatest baselyer the glub has and this shareholder is the greatest knocker the club has.

It has generally been talked around town that the Tecumseh Baseball Association was a money-making institution, controlled by a few men in their own interests. The foregoing facts should set at rest any foolishness of that kind.

that kind.

Many men of judgment and experience believe that a professional baseball club, properly conducted, traveling throughout the country, has great advertising merit. The publicity given to sports throughout United States and Canada cannot help but advertise the city to its advantage, so that all citizens are interested in its continuance. In many cities it is a community affair, and players are trained for this profession the same as any other. Still the fact stands out prominently that unless and players are trained for this pression the same as any other. Still the fact stands out prominently that unless the citizens want its continuance and patronize the game in increasing numbers there can be only one outcome.

Any persons desiring to investigate for themselves as to the exact condition of themselves as to the exact condition of things and how carefully every penny of expenditure is scrutinized, are welcome to call at 68 King street, where they will be shown the figures.

MIKE QUINN IS DEAD.
Canadian Press Despatch.
Quebec, July 27.—The local sporting world was shocked this morning upon learning of the sudden death of Mike Quinn who, for a number of years, was the leading figure in local hockey circles and also in professional hockey circles in Eastern Canada. Mr. Quinn managed the Quebec team right up to the flast season Quebec was in the N. H. A. and when Quebec dropped from the league Mike also dropped out of hockey.

ONE BAD MIX - UP

Associated Press Despatch. St. Catharines, Ont., July 27.-Threatening weather conditions which did not develop failed to interfere with

did not develop failed to interfere with a successful completion of the first day's event of the 41st annual regatta of the Canadian Association of Amateur Carsmen on the Royal Canadian Henley course here today.

Quite in keeping with the interest centering upon the senior singles was the finish of the second heat which Hilton Belyea of St. John, N.B., the present champion, won, and which was keenly contested. Since his return from competing in the diamond sculls at Henley it had become apparent that from competing in the diamond sculls at Henley it had become apparent that the easterner was not in his best condition. His win today was accomplished by his gamest performance since he made his bow on the local course. Paul Costello of Philadelphia, who had been expected to be Belyea's chief opponent, in the finals which are to be rowed tomorrow, won his heat fourteen seconds slower than was required for Belyea's heat, but Costello did not have the same opposition. Belyea nearly collapsed at opposition. Belyea nearly collapsed at the finish.

Costello's heat was no such contest. He finished nearly seven lengths ahead entirely fresh and lost a couple of lengths by funning foul of a bouy. All of today's events were run the full Henley distance of one mile and 553 yards straight away on a decision arrived at by the association last year.

One of the finest races ever seen on the local course, that of the junior eights, in which six shells approached eights, in which six shells approached the finishing mark within a distance of three lengths, was marred because the finish gun was fired too soon, causing all competitors to cease rowing before the race was decided. When the gun was fired Detroit and Argos were almost tled for first place and Univeristy of Toronto possible thire.

Ottawa and Lachine were in striking distance and Hamilton in the rear.

The question was taken up by all competing clubs and discussed until nearly 11:30, after which the executive of the Canadian Amateur O. O. met and announced that the race would be rowed over at 10 o'clock tomorrow morning with all crews competing.

ronto; 3, Lachine R. C., Montreal. Time 7:25.

After a false start Dons broke water first, with Detroit recovering and leading in 200 yards. Otaawa quitting with a broken oar Detroit had a length and a half at the quarter on Dons, with Lachine a quarter to the rear. At the mile Detroit had four lengths, the relative positions of Dons and Lachine being unchanged, Detroit traveled easily, the race being for second and third. Detroit won by six lengths; Lachine was third by a length and a half.

Junior doubles—1, Detroit B. C., Wehmeier and Stroud; 2 Don. R. C., McDonnell and Harris. Time 8:11.

Dons' early lead had diminished at the quater mile, and at the mile Detroit were ahead three-quarters of a length. Detroit was sa'ling in a longer stroke. Two hundred yards out the Michiganders had ten lengths to the good, and at the finish the lead was nearly twenty lengths.

Hackett of Kenora was the only scratch, Costello and Durnan pulled away slightly ahead, but went off their course. Lane was rowing well within himself in good position. At the mile Costello had three lengths on Lane, who had a shade on Johnny Durnan. Two hundred yards out Costello was safe. Johnny was even with Lane. Costello fouled a buoy, losing some water, but a hundred yards to go Lane walked away from Durnan. Costello won by six lengths.

St. Thomas fans feel that they were given a raw deal in the ninth by Umpire Harry Dunn of Jackson, Mich. Kenney drove a terrific swat to left field when the score stood 6—6—a hit that was good for three bags, but Dunn called him out for not touching second base, while fans and St. Thomas players claim that he hesitated on the bag before going on the third. However, the decision was abided by. The result was the handing of the game to the visitors. Both pitchers turned in a good record. President Tom Halligan of the Mint League was in the city yesterday and claims that Ottawa and Montreal are open for two franchises in the league. Interests in both cities would be willing, ne claims, to put up a guarantee that would more than make up for the long jumps entailed by placing two clubs so far east.

Ottawa interests have already made overtures for the Hamilton franchise, and Halligan says that unless there is more support forthcoming in London the league will be forced to take some action regarding the local franchise.

In Second Extra Hole Champion Succumbs To Chick Evans.

Associated Press Despatch. Cleveland, July 27.-Missing an 18inch putt on the second extra hole after running up dead from all over the green all day and sinking many long ones to day, cost Jess Sweetser, national champion, his golf match with Chick Evans in the semi-finals at the Mayfield Club, in the western championship, which Evans was defending for the seventh

time. Sweetser, after leading much of the Sweetser, after leading much of the forenoon match, was overhauled and put one down at the eighteenth by Chick's fine round of 69, but he in turn overhauled an Evans' lead of three up and squared the match at the 36th, only to lose at the 38th, by falling to sink a wisp of a putt for a half in five on the 340-yard hole, after he had saved himself on the 385-yard 37th by holing a 12-foot putt for a half in par four.

As a result of his victory over the national champion. Evans will play Hamilton Gardner of Buffalo, in the finals tomorrow, the New Yorker having eliminated Joe Wells of East Liverpool, Ohio, four and three, in a fine match that was almost forgotten on account of the thriller in 36 reels for the last green of the fairways at the Hills and Dales of Mayfield links.

SUSPENDS TOM O'ROURKE HAMILTON VETS MEET MASSEY-HARRIS TODAY.

Associated Press respatch.

New York, July 27.—Tom O'Rourke, veteran matchmaker of the Polo Grounds Athletic Club, which promoted the Eugene Criqui-Johnny Dundee featherweight title match last night, was suspended today by the New York State Athletic Commission as the result of a dispute with Walter Hooke, deputy commissioner, yesterday when Criqui and Dundee weighed in. The commission issued no explanatory statement of the decision, but O'Rourke discussed the incident freely.

"Hooke objected to a test of the scales by myself and Robert Eudeline, Criqui's manager," declared O'Rourke, "before the fighters weighed in. I insisted that every precaution be taken, however, as the boxers had \$10,000 forfeits at stake to make 126 pounds, and the result was we found the scales to be off balance by a pound."
