**APPAIRS IN EGYPT.**  
GRAND DEPARTURE. THE KHE-  
DIVA. LONDON, Sept. 25.—The  
Arabi's Advice to England—He is sorry he  
went to War—Proposed General Am-  
nesty—The Expedition at Turkey—  
LONDON, Sept. 25.—The news definitely  
announced in confirmation of the rumor  
that Gen. Wolsey and Admiral Seymour  
have been elevated to the peerage.  
The Times' Berlin correspondent fore-  
casts a close connection between Eng-  
land and Germany, regarding the eastern  
question.  
The Khedive and his suite, accompanied  
by the British consul-general departed  
for Cairo this morning. The Bengal  
stationers escorted them to the railway  
station, and the route was lined with  
troops. An English band performed the  
Egyptian national anthem. The ministry  
went to Cairo on the same train.  
It is stated on good authority that the  
Khedive will shortly visit London, and  
will be accompanied by all the rebels,  
except about six, who will be tried for  
their lives, being implicated in the mas-  
sacres and confiscations at Alexandria.  
ARABI'S ADVISE TO ENGLAND.  
CAIRO, Sept. 25.—Arabi says the best  
thing England could do for Egypt would be  
to send all the notables and the other  
leading men connected with the rebellion  
out of the country. If they do not, ven-  
geance will be taken upon them after  
the departure of the troops.  
Seeing the manner in which the British  
treat their prisoners and the wounded,  
Arabi says they are a great people and he  
heartily sorry he fought them. He never  
thought England would send a large army  
to assist the Khedive and so he was led  
into the war. He desires having any com-  
munication with the Sultan during the war.  
THE KHEDIVE'S RECEPTION IN CAIRO.  
The Khedive and the Egyptian ministers  
were received at the depot this afternoon  
by the Duke of Connaught and Gen.  
Wolsey. A detachment of grenadiers  
was drawn up on the platform, and the  
household cavalry lined the approaches to  
the depot. The royal artillery fired a salute,  
the band of the grenadiers playing the  
national anthem. The Khedive, the Duke  
of Connaught, General Wolsey, and Sir  
Edward Malet, consul-general, entered the  
same carriage and were driven to Ghizeh  
pass. The streets through which they  
passed were densely crowded and lined  
by almost all the English and Indian troops  
now here. The natives gathered along the  
route, numbering many thousands. They  
gave the Khedive a very friendly welcome.  
All the notables, as well as the sheiks of  
El Asher mosque and the Kad were at the  
depot.  
BAKER PASHA'S TASK.  
CONSTANTINOPLE, Sept. 25.—The Khedive  
with the approval of England, has offered  
Baker Pasha the task of reorganizing the  
Egyptian army. The latter has accepted.  
RUSSIA ON THE SITUATION.  
ST. PETERSBURG, Sept. 25.—The Novor  
Brumya says that Russia's interests require  
a postponement of the settlement of the  
Egyptian question until after the partition  
of Turkey, when England might bargain  
for preponderance in Egypt.  
NOTES.  
Among Arabi's papers are offers of service  
from French, German and Russian officers,  
which were all declined.  
The Egyptian government proposes to  
establish a municipality at Alexandria, in  
which Europeans will be represented.  
It is estimated that 150,000 persons  
witnessed the entry of the Khedive into  
Cairo.  
OBITUARY.  
Friedrich Woehler, the eminent German  
chemist, died at Frankfurt on July 31, 1869,  
and studied the natural sciences at Marburg  
and Heidelberg. Having taken his doctor's  
degree, he proceeded in 1824 to Sweden,  
where he studied chemistry under  
Berzelius. On his return to Germany he  
was for several years professor in the Berlin  
university, and held the chair of chemistry  
and toxicology at Bonn. He has made several  
chemical discoveries, among them a new method  
of obtaining nickel; was the first to obtain  
aluminum in an isolated state; and dis-  
covered the element cerium. He has also  
given in the scientific journals of Germany  
and elsewhere several valuable works on  
chemical subjects, which have been trans-  
lated, and was a member of various sci-  
entific bodies. He was an officer of the  
legion of honor, received various foreign  
decorations, was elected a corresponding  
member of the institute in June, 1864, and  
was inspector-general of pharmacies in the  
Kingdom of Hanover.  
Creation of New Cardinals.  
ROME, Sept. 25.—At the consistory to-  
day Cretti, papal nuncio at Paris, and  
Rinaldi, nuncio at Madrid, were created  
cardinals. The pope recom-  
mended the Secretary of State, and ap-  
pointed a number of prelates to see in  
America and Oceania.  
Escaped From Jail.  
KINGSTON, Sept. 25.—Hugh McWhinney,  
recently convicted of fraud and sentenced  
to five months' imprisonment, escaped from  
the jail yard on Saturday, during a storm  
of rain. It is believed a  
assistance man has been rendered to him  
from the outside.  
Distress on the Labrador Coast.  
QUEBEC, Sept. 25.—The new prefect ap-  
pointed, named by the pope over the St.  
Charles, named by the pope over the St.  
Lawrence, during a short  
absence, on behalf of the scattered settlers  
and fishermen on the Labrador coast, who  
are, he says, threatened with starvation,  
through the utter failure of their crops and  
the small take of seal and cod this season.

**FLOODS IN THE STATES.**  
LATEST NEWS FROM THE TUN-  
DARA DISTRICTS.

**NEW YORK, Sept. 25.**—The general re-  
ports received here to-day respecting the  
floods are not so alarming. The rain has  
generally ceased and rivers and streams are  
either decreasing or standing still.

**NEW YORK STATE.**  
POUGHKEEPSIE, Sept. 25.—The damage  
to the track of the H. R. railway is repaired,  
so trains are running regularly.

**TROY, Sept. 25.**—A hundred feet of the  
big dam, which is Hudson river water  
power, and the paper company's building  
across the river at Mechanicville, were  
wrecked away by the rising of the river on  
Saturday. The part carried away consisted  
mainly of treble work. Three large der-  
ricks and a large quantity of planks were  
also borne away. The water rose more  
than six feet.

**NEW JERSEY.**  
JERSEY CITY, Sept. 25.—The damage done  
by the recent storm in this county is es-  
timated at \$1,000,000, although individual  
losses are comparatively small. The great-  
est sufferers are probably the city and Pen-  
sylvania railroad. Fifteen sewers burst  
and were borne away. The water rose  
more than six feet.

**PHILADELPHIA, Pa., Sept. 25.**—The  
mould house and filter house of Harrison,  
Ravenscroft Company's sugar refinery  
were burned this morning. The buildings  
were filled with sugar in process of man-  
ufacture or ready for delivery. The loss is  
half a million. An employee named Lewis  
was burned to death and several were in-  
jured. A number of the employees escap-  
ed almost unscathed. The loss is now es-  
timated at \$2,000,000.

**CLEVELAND, Sept. 25.**—There was a  
large fire in the sawmills works of the  
Cleveland rolling mill and sawmills. Five  
works last night. Damage \$30,000.

**LONDON, Sept. 25.**—A fire broke out in  
the dry-dock near the Victoria works of  
the Dundas cotton mills here  
about 11 o'clock on Saturday night. The  
fire was extinguished in about 15 minutes.  
Loss about \$10,000, which is fully insured.  
The company has put on a gang of men to clear  
up the debris, but it will take about six weeks  
to get the mill in operation again. Five  
hundred hands are temporarily thrown out  
of employment. Through the almost super-  
human exertions of the citizens the cotton  
mill was protected from being destroyed, al-  
though its loss was at one time considered a  
foregone conclusion.

**STROVING, Sept. 25.**—This afternoon  
about 8 o'clock a fire broke out in the  
foundry of Mr. O. R. Gilman, completely de-  
stroying it along with his dwelling and out-  
houses. Loss about \$20,000, insured in the  
Royal for \$2800. The cause of the fire is  
unknown.

**MILWAUKEE, Sept. 25.**—The Meadow  
Spring distillery, near this city, belonging  
to William G. Bergenthal & Co., burned  
this afternoon. Loss \$50,000.

**THE WOODSTOCK ABORTION.**  
Continuation of the Inquest—Damages  
Evidence Against Mrs. Munson.  
WOODSTOCK, Sept. 25.—The adjourned  
inquest on the death of Ellen Gamp was con-  
tinued this evening. Mrs. Munson, the  
old negro doctor, and those living in her  
house, were examined. The evidence  
shows that her house has been the scene  
of some of the most unwholesome medical aid  
for some years, and that several persons have  
died as a result of her unwholesome circum-  
stances there. One child, given birth to in  
the house by a white woman, Mrs. Munson  
acknowledged was buried in the garden.  
She also admitted that she heard the doctor  
say that the child had been foully dealt  
with. The evidence and consideration is  
still being given, and it is expected that  
later the jury brought in a verdict  
against Mrs. Munson, and she has been  
arrested and sent up for trial at the fall  
sittings.

**THE GRAPHIC BREEF.**  
Mrs. Mary Jones of Harrisburg, Pa.,  
was arrested on the charge of choking a  
child to death. The child was found  
dead in the arms of the mother. The  
mother was charged with the murder of  
the child. The case is being tried at  
the fall sittings.

**CABLE NOTES.**  
A false report that the troop ship Tyne  
was lost, caused some anxiety in London.  
The steamer Elam, sunk in the collision  
with the Spanish steamer, cost \$200,000.  
At Rotterdam, England, a meeting of  
delegates representing 20,000 miners yes-  
terday decided to demand an advance of 15  
per cent on their wages.

**Another Revolver Accident.**  
OTTAWA, Sept. 25.—A shocking accident  
occurred at Eastman's Springs yesterday,  
which is likely to prove fatal, and which  
is only another instance of the careless  
handling of firearms. A small party of  
boys were shooting for amusement, when  
an English emigrant, named Fred Robbins,  
pointed his revolver carelessly at a young  
fellow named Frimmons of Eastman's  
Springs. The weapon exploded and the ball  
entered the boy's head, just above the  
right eye, lodging in the back of his head.  
Dr. Bell of this city was summoned this  
morning to attend to the unfortunate lad,  
who is not expected to recover.

**School Girl Accidentally Killed.**  
CHARLESTON, S. C., Sept. 25.—A  
school girl named Vira McWhinney, aged  
twelve years, whilst crossing the Toronto,  
Grey, and Bruce railway, about a mile out  
of Charleston station, was struck by the  
south bound express. The train was  
stopped as quickly as possible, the child  
brought here, and medical aid was called,  
but in vain. Every effort was made for her,  
she was fatally injured, and died shortly  
afterwards.

**A Coal Mine Accident.**  
LONAOKING, Md., Sept. 25.—A heavy  
fall of a roof of coal occurred this morning  
in the Kingston mine. Four miners, in-  
cluding the foreman, Wm. Byers, are  
known to be under the coal. The dead  
body of James Dineen has been brought  
out, and Louis Cook has also been brought  
up in a dying condition.

**THE WEATHER BULLETIN.**  
Toronto, Sept. 25.—1 a. m.—Lake: Moderate  
to fresh easterly to westerly winds, fine weather;  
not much change to longer distance.

**SHIPPING.**
