DR. MOFFATT'S TOOTH SYRINGE.

This Syringe is very carefully made, and will stand the test of wear; the only true test of any instrument. Its form is such that it may be held with perfect steadiness by two fingers passing

over the projecting arms, the thumb pressing upon the bulb; in this way the point can be directed with perfect accuracy, without any of that uncertainty of aim so troublesome in other bulb syringes.

Being nickel-plated, it does not blacken from exposure to air, moisture, or contact with goods containing sulphur; it has two tubes, one straight and one curved, and the bulb is covered with silk netting. We do not hesitate to recommend this as the best Dental Syringe now made. Price, fitted in case, \$3.50.

CODMAN & SHURTLEFF'S BRACKET SPITTOON, No. 1.

We here present a cut of a Spittoon of a new design. It has a brass socket and plate for attachment to the chair or room wall by screws, a brass crane or support with a ring for holding the basin, which is of heavy spun copper, lined inside, and bowl-shaped, to admit of easy cleaning. The spittoon funnel is of purple glass. A tumbler bracket is connected with the main bracket or crane by a socket at the point shown in the cut, and revolves independently. This bracket may be fixed in any convenient position by means of the thumb-screw at its base. The whole swings in the lower chair socket and may be swung around so as to be

in a convenient position when the chair is upright and thrown back. When Anæsthetics are used, the tumbler and funnel may be removed, leaving the spittoon as convenient as before, with no danger of breaking. We are confident that the convenience, durability and general appearance of this Spittoon will give it the preference over the common forms now in use. PRICES. Price as per cut, \$10; the same with brackets Nickel Plated, \$13; the same with brackets and basin Nickel Plated, \$15. Illustrated priced catalogues on application.
