During a long life of health and activity, she religiously performed the great and important duties incumbent upon a wife and a mother. Under the influence of faith in Jesus she lived, and died in the hope of that blossed immertality which he brought to light in his Gospel. The deceased was born in the parish of Gretna, Conc. The deceased was born in the parish of Gretna, County of Dumfries.

From the Novascotian.

By the Western Mail we received last night the St. John Courier, containing the following Message of President Jackson, which we consider puts an end to the dispute between the United States and France:

To the Senate and House of Representatives. The Government of Great Britain has offered its mediation for the adjustment of the dispute between the United States and France. Carofully guarding that point in the controversy, which as it involves our honour and independence, admits of no compromise, I have cheerfully accepted the offer. It will obviously be improper to resort even to the Apply to the Subscriber.

clined or accepted the mediation. I, therefore, recommend a suspension of all proceedings on that part of the Special message of the 15.h Jan. last, which proposes a partial non-intercourse with France. While we cannot too highly appreciate the elevated and disinterested motives of the offer of Great Britain, and have a just reliance upon the great influence of that power, to restore the relations of an ancient friendship between the United States and France, and know, too, that our pacific policy will be strictly adhered to, unul the national honor compels us to depart from it, we should be insensible to the exposed condition of our country, and forget the lessons of experience, if we did not efficiently and seculously prepare for an adverse result. The peace of a nation does not depend exclusively upon its own will, nor on the beneficent policy of neighbouring Powers, and that nation which is found totally unprepared for the exigencies and dangers of war, although it comes without having given warning of its approach, is criminally negligent of its honor and its duties.

I cannot too strongly repeat the recommendation already made, to place the sen-board in a proper state for defence, and promptly to provide the means, amply protecting our commerce.
