andrs are much involved, and their o aest boy is very dissipated."

two generations ago, not one person in hity, belonging to what was then called "the figuer waits of fite, would have thought it decorous to unveil anyang physical or mental which gave pain inside a friend's dweiting. Being disarmed and made helpiess by miness, aid not mak the tree to pub ..e discussion.

certain specific or hereditary conditions of disease either in mind or body, used to be regarded as too terrible to be told openly; friends and relatives were satisfied by the tender, jet guarded, sympathy which reached them, arough the veil of their reticence; I had almost said decent, reticence. Now you very often hear: "I do not think they speak of it, but I really believe so and So is showing symptoms of insanity," and the speaker hears no echo of his own words, which should emphasize that the family desire to avoid publicity.

If it is the high other of human speech to gladden and charm, to make our intercourse with each other a help in life's journey, what a loss it is to dumi, into the accepted topics for inuntiar task the miseries and diseased conditions of our fellow men and women. If, of all our pessessions, our bodies and minds are most positively our own, what can be a greater violaation of the golden rule than the exmoreing of the failing powers of either? what does the world gain by making nee --scussion of the most unlovely ... pects of physical existence a fashmuable fad?

Laying a cautionary hand on the . .oughtless speaker's arm, the writer sau: "Do you think he would desire to have that known?" "Why, there is nothing to be ashamed of in being id," ...as ...e astonished answer.

Nor does the plain speech of our day short with the discussion of disease: offences against morality are now considered entirely open topics of con-The "touening of pitch" versation. and not ceased to be a clinging defilement, and no student of psychical conditions can possibly doubt that every young mind shrinks with less horror from those forms of evit which he or she are allowed to speak of freely to their companions or in the family cir-

it may seem the assertion of a mind hampered by bygene beliefs and not "up to date." but whatever the argu. ment may lose in force because of the wrace's point of view, it is a stern and lamentable fact that many social offences have ceased to have the awful

ings, and a solid brick cottage in Would be sold at a moderate rear. price. (148-B).
