Attention:—I had in use two of your lights while re-lining one of our tunnels. On this particular work these lights were in constant use for at least six months, day and night. They furnished sufficient light to keep a gang of at least fifty men employed. We experienced no unpleasant effects from their use by either smell or smoke, we at all times having a bright, clear, odorless flame. We made no repairs to any part of these lights during the time they were in use on this work.

I consider your light economical and beneficial in every particular wherever its use is required.

Yours very truly,

D. E. DALE, Roadmaster.
