PANOPEPTON, Bread and Beef Peptone.

IN Panopepton we present to the profession a new, complete and perfect peptone, one which we are confident will meet every requirement. Panopepton is the entire edible substance of prime, lean beef and best wheat flour, thoroughly cooked, properly digested, sterilised and concentrated in vacuo.

Panopepton is therefore the quintessence of peptones, containing all the nutrients of these two great types of food, beef and bread, fused into a delicious restorative.

Panopepton is the food par excellence in all conditions where a fluid, quickly assimilable, agreeable and comprehensive nutriment is required.
