

During Lactation WYETH'S LIQUID MALT EXTRACT is particularly beneficial. It is a most agreeable and valuable nutrient tonic and digestive agent, containing a large amount of nutritious extractive matter and the smallest percentage of alcohol found in any liquid preparation of malt.

1

Medical Opinions upon Wyeth's Malt Extract.

KINGSTON, ONT., Feb. 27, 1895.
"Wyeth's Liquid Malt Extract I think is a very excellent preparation. One great advantage is the pleasant taste."

M. SULLIVAN, M.D., (Senator.)

MESSRS. JOHN WYETH AND BRO.,

"I have used your Liquid Malt Extract, and am highly pleased with it. In cases of malnutrition where malt is indicated its action is satisfactory. Especially during lactation, however, when the strength of the mother is deficient, or the secretion scanty, its effect is highly gratifying. Its reasonable price brings it within the reach of all."

A. A. HENDERSON, M.D., Ottawa.

ST. ANNE DE LA PERADE, Nov. 27, 1895.
"I cannot recommend too highly Wyeth's Liquid Malt Extract in convalescence from puerperal fevers, in fact it is the only tonic I find good."

FRS. A. MARCOTTE, M.D.

DR. J. LESPERANCE, St. Denis St., Montreal, tells us that he can express no higher opinion for Wyeth's Extract of Malt than to say he has at present some sixty patients using it.

"In Wyeth's Extract of Malt I believe you have produced an article the want of which was felt and that it will prove a great benefit for convalescents, and those of weak digestive powers. I will gladly recommend it in suitable cases."

E. H. T., M.D., Montreal.

DR. A. R. GORDON, Toronto, writes,—“Messrs. John Wyeth and Bro.,—I write you regarding your Liquid Malt Extract and congratulate you upon its merits, and may say that during the past year I have ordered in the neighborhood of 30 doz. of same, besides my prescriptions. Have been highly satisfied with its effects.”

DR. C. R. CHURCH, Ottawa, writes,—“I have employed Wyeth's Liquid Malt Extract in my practice for some time past, and am in every way satisfied that it is a most valuable assistant to the processes of digestion. Its taste is agreeable, and is in my opinion a nutritive tonic.”

J. H. DUNCAN, M.B., Chatham, Ont., writes,—“It affords me great pleasure to say that ever since its introduction I have prescribed Wyeth's Malt Extract with gratifying results. I believe it to be a most valuable and reliable aid and stimulant to the processes of digestion and assimilation, in addition to its purely nutrient qualities, which from analysis given must be of a high order.”

DR. DEMARTIGNY, St. Denis St., Montreal, also tells us that he has some thirty patients using Wyeth's Malt Extract, and recommends it very highly.

“I have often had much difficulty in getting patients to take the semi-solid Extracts of Malt, and your preparation, Wyeth's Liquid Malt Extract, I think will fill a long felt want, and I see a very large field for its use.”

F. WAYLAND CAMPBELL, M.A., M.D., L.R.C.P., London.

DR. F. A. MARCOTTE, of St. Anne, de la Perade, also writes,—“I prescribed Wyeth's Malt Extract as a tonic in great feebleness produced by laborious accouchment with excellent results, and I can recommend it above all as a tonic to augment lactal secretions.”
