PROSPECTUS FOR 1874-7th YEAR.

## THE ALDINE,

An[lliustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

NOT FOR SALE IN BOOK OR NEWS STORES.

NOTFOR SALE IN ROOK OR NEWS STORES.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodiculs. It is an elegant miscellany of pure, light had graceful literature; and a collection of pictures, the rarest spocimens of artistic skill, in black and white. Although each succeeding number affords a fresh picasurs to its friends the real value and beauty of THE ALDINE will be most approximated after it has been bound up at the close of the year. While other publications may claim superier cheapness, ascompared with rivals of a similar class, THE ALDINE is a unique and original conception—also and unapprosached—absolutely without composition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for tentimes its cost, jand; then there are the chromos, besides!

#### ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have wor a world-wide reputation, and in the art contres of Europe it is an admitted fact that its wood outs are examples of the highest perfection over attitude. The common prejudice in favour of "steel plates," is rapidly yielding to a more oducated and itseriminating tasts which recognizes the advantages of superior artistic quants with greater facility posses all the delicacy and claborate finish of the most costs steel plate, while they allorded a botter rondering of the actists neighbor.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs of the members of the National Academy, and other noted American artists. THE ALDINE will reproduce examples of the bost foreign masters, selected with a view to the highest artistic success and gleatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, only in his own home the pleasures and remning fulluences of true arts.

The quarterly tinted plates for 1874 will be by Thos. Morgan and J. D. Woodward.

The Christmas issue for 1874 will contain special aceigns appropriate to the season by our bestartists and will surpass in attractions any of its predecessors.

Premium for 1874.

Every subscriber for The Aldine for the year 1874, Every subscriber for The Aldine for the year 1874, will receive a pair of chromes. The original pictures were painted for the publishers of The Aldine by Thomas Moyan, whose great Corlando picture was surchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "Ino West" One is The White Mountain New Hampshire: the other gives The Chiffs of Green River, W. coming for itery. The difference in the nature of the scenes themselves is a pleasing contrast, and atterds a good display of the artist's scope and coloring. The chromes are each worked from tairty disanct plates, and are in size 112x 10, and appear unce exact far-singles of the originals. The presentation of a worthy example of America's greatest landscept panter to the subscribers of The Aldins was a 1-1 but peculiarly happy floating its stimental, over the signeture of Mr. Morgan homeeli.
