

We beg to call attention to our advertisement in another column, regarding the Grand Picnic that is to be held on the 23rd instant, in the Victoria Gardens for the benefit of St. Ann's Church and School. We hope that our Catholic fellow-citizens will show their appreciation of the Rev. Mr. O'Farrell's distinguished services in completing these buildings by attending that Grand Picnic, where, besides enjoying much healthy recreation, they will have the satisfaction of knowing that they are contributing, in an important degree, to a most praise-worthy object.

THE CATHOLIC WORLD.—We have much pleasure in acknowledging the receipt of the August number of this excellent periodical, which was punctually forwarded to us by Messrs. D. & J. Sadler of this city. The editors of the *World* appear to us to have succeeded admirably in making their periodical a very valuable eclectic Magazine. This number is exceedingly entertaining, being filled with solid, interesting and instructive matter. The *World* is, we trust, destined to accomplish a great deal of good, and we hope to see it patronized by all who value solid and instructive literature.

BLACKWOOD'S EDINBURGH MAGAZINE. L. Scott & Co. New York. [From Dawson Brothers Montreal.]

We have received a copy of this reprint, which has many readers in Quebec. It is sufficient to give the table of contents: Miss Majoribanks, part 6; Cornutus O'Dowd upon Men and Women, and other things in general, part 16; Carlyle's Frederick the Great; Sir Brook Fossbrooke, part 3; The Rate of Interest, conclusion; Picaudilly, an episode of contemporaneous Autobiography, part 5; Mr. Gladstone at Chester; and the Past and Coming to the Parliaments.

NEW CATHOLIC CHURCH BLOWN DOWN.

The readers of the *TRUE WITNESS* are earnestly solicited to lend a helping hand to the ladies of the Catholic congregation of Cornwall, who intend holding a Bazaar, on the 26th Dec. next, and three following days, in aid of the funds for the reconstruction of their beautiful new church, which was leveled with the ground during that fearful hurricane which swept over the country on Wednesday in Holy Week—12th April last. Thus, in less than thirty minutes, that dreadful tornado, which did so much damage throughout the length and breadth of Canada, deprived the Catholics of Cornwall—(the majority of whom are in slender circumstances)—of the fruit of their struggles for years past. Meekly bowing to the dispensation of Divine Providence, those good ladies have put their heads together and resolved upon getting up a Bazaar to aid in putting their church once more in the condition it was in before that memorable wind storm. Surely they deserve assistance under the circumstances! and so surely, please God, will many a generous heart, after reading these lines, resolve upon sending them a contribution, either in material or money, and immediately thereafter reduce this resolve to practice. The contributions may be forwarded to the address of Mrs. Dr. Macdonald, Mrs. Angus Macdonald, Mrs. D. McMillan, Mrs. J. S. Macdonald, Mrs. Angus McPhaul, Miss M. E. Campbell, or the Rev. J. S. O'Connor, P.P. OMEGA.

Cornwall, 19th June, 1865.

ORDINATION FERVOR.—On Sunday morning last an Ordination Service was held in St. Mary's Cathedral, during First Mass, at which three candidates were ordained. His Lordship Bishop Horan officiated, assisted by the Very Rev. Vicar General Doherty. The Rev. John J. Graham, Deacon, was called to the Priesthood and Messrs. Staudon and Michael O'Keane were ordained sub-deacons. The Rev. Mr. Graham celebrated his first Mass yesterday morning at the Hotel Dieu Chapel. —*Kingston Whig.*

HONOR TO A CURATE.—The *Mercury* of Saturday evening says, that Messrs. Desile, the Cure of Lewis, who left for Europe by that morning's mail steamer, was paid the especial compliment of an escort across the river by a large number of his parishioners. They had chartered the steamers *Albion* and *Voyageur*, and assembling to the numbers of several hundreds, including two companies of the Lewis Infantry in their bright scarlet uniforms, accompanied their pastor to this side and bade him farewell. The steamers were decked with flags and the demonstration which did honor to all concerned, attracted much attention. —*Quebec Daily News.*

ST. PATRICK'S ORPHAN ASYLUM.—Yesterday the grand annual Pic-nic in aid of this benevolent institution was held in the Victoria Gardens. The weather, though rather warm, was everything that could be wished, and notwithstanding the day first fixed upon was unfortunate, it is very evident that St. Patrick's Orphan Asylum suffered nothing by the postponement of its *fête* , at which between two and three thousand persons were present. The affair was indeed acknowledged to be more than usually successful, and everything seemed to have been done by the gentlemen who had the management of it to bring about such a desirable consummation. The Victoria Gardens are exceedingly well adapted for occasions of this nature, both from their convenient locality, extent and appliances, such as swings, &c., which of course were kept going during the afternoon. In addition to the fine band of the 25th K. O. B. there were also two quadrille bands engaged, one in the upper and one in the lower portion of the grounds, the demands on which were by no means lessened, that one came to imagine (as they never ceased) that the performers must have borrowed steam arms and engines for the occasion, and we might add, the spot usually set aside for them, at either end of which seats had been erected more particularly for the convenience of ladies and children, both of whom were largely represented. The games were of the usual nature, and elicited varying interest—now at the success of some competitor or the failure of another in some feat where an additional half inch would have conferred a 'tall' reputation. The games were continued till dusk, and subjoined we give a list of them, with the names of the winners.

Committee on Games, Messrs T. J. Donovan, H. Gallagher, P. J. Durack, B. Tansey, Jno. McElroy and Wm. Stafford.

PROGRAMME OF GAMES.

Throwing Heavy Weight, 56 lbs.—1 prize, Jas. Oughlan, 18 ft 10 in; 2nd do, Luke McHugh, 18 ft 3 in.
Throwing Light Stone—1st prize, Luke McHugh, 52 ft; 2nd, Jas. Pardon, 50 ft 4 in.
Three Standing Leaps—1st prize, Geo. Gamble, 36

ft; 2nd, Jas. Johnson 31 ft.
Pole Leap—1st prize, Thos. McMahon, 7 ft 11 in; Matthew Olin, 7 ft 8 in.
Quarter Mile Hurdle Race—1st prize, Jas. Badman, soldier; 2nd, James Collier, do.
Sack Race—1st prize, Jas. Jackson; 2nd, Jno. Jacques, soldier.
Half Mile Hurdle Race—J. Delorimier, an Indian, time 2m 15s; 2nd, Jas. Collier, soldier.
Running High Leap—1st prize, Jas. Stuart, 5ft 2in; 2nd, Matthew Olin, 5ft 1in.
Potatoe Race—1st prize, John Bennett; 2nd James Byrne; 3rd, Jas. Jacques.
Sack Race Over Hurdles—1st prize, Jas. Jackson; 2nd, Alph. Cropeau.
Running Long Leap—1st prize, Pat Fagan, 16 ft 1 in; 2nd, Jno. Poirais, 15 ft 10 in.

It has been often remarked by several moralists that the pursuit of pleasure is generally attended with an empty void. This strange to say, often takes place in the stomach, and people enjoying themselves are particularly liable to be hungry and thirsty. To meet such cases, refreshment stalls were placed in different parts of the ground, this department being more particularly under the superintendence of Mr. Thos. Mathews. During the afternoon we observed the Hon Thos. Ryan and other gentlemen on the ground. The games having been brought to a close those present gradually turned their steps homeward with satisfaction of thinking while they had enjoyed themselves they had contributed to the wants of others less fortunate. —*Gazette, 3d inst.*

THE GOVERNOR OF NOVA SCOTIA.—A Halifax paper speaks of Sir Richard Greaves Macdonnell, the Lieutenant Governor of Nova Scotia, as being about to leave for England, and mentions Hong-Kong as the place of his next gubernatorial labors.

GOLD IN THE MARYTOWN TOWNSHIP.—Some recent discoveries of gold in another part of the Buxton Township, are said to be very important, and likely to attract considerable attention at an early day. We are informed that from a point three or four miles above Sherbrooke, on the river Magog, gold has been found for ten miles up the stream, both in quartz and in the earth. Two American companies are already at work employing twenty men, and with favorable results, miners on the ground stating they never saw better indications in California. We were shown specimens of gold found by Mr. J. H. Nichols of this city, in the district, and which were taken from earth washed by him in a pan. The yield appeared to have been abundant for the quality panned. We hear that all explorers have returned well satisfied, and that steps will be taken to organize working parties. One of the above mentioned Companies has bought 1,200 acres of land on the river Magog. It is to be hoped that while giving every facility to private enterprise on the part of individuals or Companies, the Government will not allow parties to step in and purchase large tracts of the mineral land to be used for speculative purposes, to the injury of the mining interests and the Province generally. —*Montreal Gazette.*

OIL IN CANADA.—The *Pittsburgh Oil News* has the following:—There is the greatest activity in the Oil Springs districts, and great results are expected. Another flowing well has been struck at Petrolia. Messrs. N. Dickey & Co., of Toronto, are engaged in manufacturing engines and oil well machinery on a large scale. Their 12-horse power engines are said to be superior to all others. The Musson well, at Oil Springs, is giving fifty barrels very pure oil per day. There is great excitement at Petrolia over a strike at 280 feet, which is said to promise better than any well yet sunk in that section.

MORE COAL OIL.—Positive indications, by touch and smell, have been found on the river bank near Blythe Mills, and also in the vicinity of Lakefield, during the past week. We cannot speak so favorably of the alleged indications at Buckhorn. —*Peterborough Review.*

GAS VERSUS COAL OIL.—We notice that at a recent meeting of the Hamilton City Council it was decided to continue lighting the streets with Coal Oil instead of Gas. The Oil costs \$12.30 and the Gas \$16 per light, for the year.

The *Welland Telegraph* says:—As we go to press we are informed that at a depth of 32 ft. oil has been struck in the neighbourhood of Thorold village. The location of the flowing well is below the mountain, near to the Paulding farm.

One of the engines sent to Gaspe to bore for oil was started at work on Friday. The appearance of the oil well so far is satisfactory—some few feet having been dug by the hand in order to reach the rock.

FRAUDS UPON EMIGRANTS.—A case of great injustice to a poor emigrant woman was recently made public upon undoubted authority. A woman named Gibney, with six children, took passage by the 'Britannia' from Glasgow to Quebec, for the purpose of joining her husband near Toronto, but was landed in New York, sent by way of Albany, and Suspension Bridge to Lewiston, N. Y., and by the American line of steamers to Montreal. When she reached that city her money was exhausted, having been used up in paying for the movement of her baggage at the various points of transshipment. The emigrant agent at Montreal sent her westward again, and by his assistance she finally reached her destination. Her husband meanwhile had gone to Quebec, where of course, he did not find her. It is said that this is not an isolated case, but that similar ones are of frequent occurrence. Numbers of emigrants coming to Canada by way of New York are similarly imposed upon. Families going to the vicinity of Montreal, are sent by way of Suspension Bridge—hundreds of miles out of the direct road, at considerably greater expense. Of course, the difficulty may be referred to the want of knowledge on the part of the emigrants—who, as a rule, understand nothing of American geography. It is not at all surprising that Mrs. Gibney did not know better than take passage to Quebec by way of New York, in order to reach the vicinity of Toronto. But the rapacity and cruelty of the ship and other runners who take advantage of the ignorance of the poor people to send them out of their way, is not the least palliated by the emigrant's want of knowledge. It is unfortunately the fact that emigrants coming to Canada through the United States, are too often very badly treated by the runners and even by subordinate officials. —*Globe.*

From certain indications in the County of Renfrew, said by Geologists to denote the existence of minerals, there can be no reasonable doubt, says a correspondent, but that the lands in that vicinity will be found peculiarly rich in iron when properly examined. On any of the roads small pieces of ore can be picked up. Sometimes large blocks are thrown up on the surface. Near the village of Douglas there is an immense mine of Black Mica, which, although not very valuable, is a sure sign of the presence of White Mica, a most valuable article of commerce, selling at \$1 per lb, and used for ship lights, &c. Marble exists in masses on the public road, two miles from the village of Renfrew, and although not so variegated as that found at Arnprior, has still many beauties when polished. In the township of Bagot, a mass of coloring matter has been discovered of a bright red, ochre likely; and has been tried in its raw state, and appears to fasten on wood very tenaciously. Further up the Madawaska river, about 60 miles, plumbago has been found, and little doubt exists that scientific engineering would open many rich fields in the county for the investment of capital. Near the town of Perth, is an extensive white mica mine, and the material is carried into town and cut in sheds and packed up for America market. There is also a large iron mining establishment being opened by an American near Perth. —*Ottawa Citizen.*

COUNTERFEIT BILLS.—The *Kingston News* states, that five dollar counterfeit bills of the Kingston Branch of the Bank of British North America are now in circulation.

A CENTENARIAN.—A day or two ago a thanksgiving service was offered up in the church of Oap Sante, a few miles from this city, on the north shore, at the request of Mr. Joseph Fafard, a respectable farmer of that parish, who has just completed his hundredth year. The old gentleman is still hale and sound, retaining all his faculties with surprising tenacity, and always able to walk to church, which is some three miles distant from his home. —*Quebec Chronicle, July 27.*

THE CHAUDIERE GOLD MINES.—A gentleman who arrived in town yesterday, from Beauce informs us that a great freshet, doing immense damage to the country, occurred in that region in the early part of the week, caused by the late rains. On Monday the river rose some eight inches, and on Tuesday it had risen 15½ inches higher, overflowing the banks of all the small streams, carrying down sawlogs, hay, &c. Mining operations were suspended, it being found impossible to work on the small streams. The De Lory company intend making new roads through the mining district, and erecting a line of telegraph of fifty miles in length, so as to communicate with New York direct. Our informant does not give the most flattering account of mining operations in the gold region this season, owing to the absorption of mining lamps by speculators, and the impossibility of obtaining claims at anything like reasonable prices. —*Quebec Daily News.*

Admiral Sir James Hope, commanding on the North American station, arrived here at half past five on Saturday afternoon, in the *Leifrey*, of 39 guns, accompanied by H. M. steamship *Slyx*. The Admiral's flag was saluted by the citadel with 15 guns.—*ib.*

FIRE AT LEVIS.—On Friday afternoon, at three o'clock, the house of Mr. Pierre Barra, in the centre of the village of Bienville, East Levis, took fire and was burned to the ground. —*ib.*

About six o'clock on the 6th instant, another fire broke out in the house occupied by Mr. Arthur H. Murphy, Levis, and notwithstanding the exertions of firemen, assisted by others from Quebec, the house and a barn were entirely consumed. The house, we understand, was insured. —*ib.*

RUN OVER.—A girl, about eight years old, daughter of Mr. John Stafford, of Fleury street, St. Roch, was run over in St. Paul street, on Saturday afternoon, by a wagon belonging to a grocer. The child was rescued from under the wheels of the vehicle by Mr. Henry O'Connor, and at once carried into that gentleman's store, when it was found she had received no injury. —*ib.*

FIREARMS.—On Saturday, the 29th ult., at Strathroy, C. W. Thomas Casse was practicing shooting with a Colt's revolver, when a ball went through a fence at forty yards distance and lodged in the leg of the eldest son of the Rev. George Richardson. —*ib.*

FALL FLAX IN PICTON.—We were shown, this week, a fine bunch of flax, grown on the farm of Wm. Vance, just outside the limits of Picton. The tallest stool measured four feet two inches, and the average must have been about three feet nine inches. —*Picton Gazette.*

DEATH OF A CENTENARIAN.—On Friday morning Madame Angeline Royer, widow of the late Pierre Royer, died at her residence Richmond street, St. John suburbs Quebec, at the advanced age of 113 years, eight months and ten days. Deceased leaves 236 living descendants, including children, grand children, great grand children, and one great great grand child.

MAN DROWNED.—A man named Wm. Maitland, in the employ of the Grand Trunk Company at Point Edward, as fireman of the Dredging Machine, was drowned in the bay between Garsia and the Point on Thursday afternoon, under the following circumstances:—In company with another man, he was sent down to the town to get a Pile-driving Machine, belonging to the Company, which was lying at one of the docks, made ready to be towed up to the Point by the steamer *W. J. Spicer*. The boat accordingly came down soon after, and took the machine in tow, the two men being on it; but being an old water-logged affair, and very deep in the water, the speed at which the boat went caused its bow to dip under, until one side of it got under so far as to place it edge-ways, the men clinging to the upper edge. Both of them managed to hold on for a time, but before the boat could be stopped, Maitland lost hold and was drowned. He belonged to London, and we are informed, leaves widow and four children to mourn their sudden bereavement. —*Sarnia Observer.*

On Monday last a daughter of Mr. Charles Bapin, hotel keeper, Beauharnois, aged 8 years, while playing about the wharf with another little girl, fell into the water. Her companion went leisurely home and told of the occurrence, when on the father learning of it he at once hastened to the spot. The hat of the unfortunate child was seen floating on the surface of the water, while at no great distance from it was to be discerned, at the bottom of the river, the child herself, with her head downwards. She was speedily drawn out, but to all appearance was stark dead. Medical assistance, however, was sent for, and Dr. Sabourin succeeded, after a time, in restoring life. The little girl, thus brought back from the arms of death, is now doing well. She was fully fifteen minutes in the water. A more extraordinary case of restoring life we have seldom heard of.

THE WEATHER AND THE CROPS.—Another week of scorching dry weather and still no signs of rain. The hay has now nearly been all harvested. Spring wheat is now about ready for the cradle, but in most cases will be scarcely worth cutting. Oats, barley, peas, potatoes, &c., are rapidly coming to maturity, and promise better than was at first expected; but if the present dry weather continues for three or four days longer the heat of the sun will prematurely ripen such as are not yet out, thus drying the seed up when not over two-thirds the size they should be. A good day's rain would have a wonderfully beneficial effect in the present condition of the oats, barley, &c., crops. Fall wheat has turned out a most magnificent crop, but unfortunately very little was sown last fall. We have heard of a farmer who had two acres and a half of this grain sown, and thrashed from that breadth 100 bushels. This is something like old times. We understand that in every direction the farmers are preparing large tracts to put down fall wheat this season. —*Perth Courier.*

THE CROPS IN CORNWALL.—The hay crop has been secured in good condition although the weather was rather showery. The fall wheat is now being rapidly gathered, and is a good crop generally. —*Cornwall Freeholder.*

The wheat harvest is pretty well over, and the lowest estimate for this immediate section is half a crop. A great deal of mischief has been done doubtless, but for which we would have had the best crop ever raised. As it is, we think we may safely calculate on a two-thirds or a four-fifths crop of hay, spring grain in great abundance, and a full average of roots. —*Brantford Expositor.*

The farmers in the western part of Upper Canada are in the midst of harvest operations, and are rapidly gathering in large crops of wheat, favored with excellent weather. Lower down the fall wheat is filling out to perfection, and not the slightest appearance of rust, mildew, or weevil. Hay crops are all gathered in excellent condition. In Lower Canada the crops are backward for the season, owing to continued wet weather; but they look quite promising.

SUDDEN DEATH.—On Sunday evening, about 6 p.m., a man named John Pettit suddenly fell down on the corner of Craig and Ragsdale street, and expired in a few minutes. Dr. Bossey was in almost immediate attendance, but it was found to be too late to render any effectual assistance. An inquest was held on the remains, at which the jury rendered a verdict of death by the 'visitation of God.'

GOOD NEWS FOR DUNSMILL.—We learn from a reliable source that, in a month from this date, the Welland canal will be led from Lake Erie, the dredging having been completed to the lake level. This welcome announcement is of the greatest importance to this village, as the mills and factories already existing, and others that are to be built here can be supplied with any quantity of water all the year through. Mr. Richard Clarke, of St. Catharines, is in the village, with the view of making arrangements for the immediate rebuilding of the saw-mill lately destroyed by fire. No doubt other capitalists will soon be attracted here and erect factories, &c., as the advantages of this place for water are unsurpassed on this peninsula. —*Dunsmill Independent.*

TORONTO, Aug. 8.—A large fire broke out last midnight on the corner of Bay and Wellington streets. The Grand Trunk general offices, Dr. Adams' dwelling, and Hamilton's Hotel, were totally destroyed; other dwellings were injured. Loss about \$30,000. It is feared a boy perished in the flames. It is supposed to be the work of an incendiary.

The Ottawa Union of Thursday says:—At twenty-five minutes to three o'clock yesterday morning, a slight shock of earthquake was experienced in this city. The shock was preceded by a rumbling sound to some extent resembling the approach of a heavily laden railway train. The subterranean concussion must have been a severe one, for the shock to the earth's crust was such as to shake stone buildings perceptibly in its passage. It passed from the Northeast in a wavy kind of motion, which lasted for about eight seconds.

CROWN LANDS AGENTS.—His Excellency the Governor General has been pleased to appoint Charles Francois Fournier, Esq., of St. Jean Port Joli, county of L'Islet, C.E., agent for the disposal of the public lands in the townships of Ashford, Arago, Beaubien, Casgrain, Dionne, Fournier, Garsneau, Lafontaine, Lessard and Leverrier, in said county; and also for the settlement of the following colonization roads, viz: Arago and Elgin roads in said county, and all that part of the Tasche road included in the counties of Bellechasse, Montmagny, L'Islet and Kamouraska, in the room of Stanislas Drapeau, Esq., resigned.

AN INTERESTING OCCASION.—On Tuesday last at St. Sebastian, Mr. Joseph Chabouneau and Dame Marie-Anne Pinguet, celebrated the fiftieth anniversary of their marriage—first by a religious service, and then by a family festival, in accordance with the old custom of the country, at which all the relatives and friends of the family assisted.

The first locomotive built for the Grand Trunk Company by the new Engine Company at Kingston, was turned out the other day, and is said to be an excellent piece of machinery. The Company now is expected to turn out a locomotive a week.

INFORMATION WANTED OF A STRAYED FAMILY.—We find the following in the St. John, N. B., Evening Globe:—We direct attention to an advertisement with this heading in our paper to-day. It would take up too much time to relate the circumstances of the case, but, if we did so, the sympathy of all our readers would be moved in behalf of Mr. Alexander. It is sufficient to say that his wife and seven children left England some months before the husband and father, that he has traced them as far as Boston, and believes that they have come on to this city that he has made the most diligent search for them, expending all his spare means therein, and in even travelling to Fredericton on foot and back again, looking for them, much depressed at his want of success. Beyond a rumor of a family like his having gone on to Toronto, he learned nothing. Our local contemporaries, as well as those in Canada, would perform a kind act by giving this advertisement an insertion.

A MUSEUM OF ART.—On Sunday last, fourteen splendid oil paintings of the Stations of the Cross, or the events of the Passion of our Saviour, were exposed to view in St. Mary's Cathedral. They are a present to the Cathedral from Bishop Horan purchased out of his private purse, while on his visit last winter to Rome. The paintings are about five feet by three feet each, enclosed in beautiful gilt frames, and from the brush of a celebrated artist. They were viewed by everybody and much admired. The worthy Bishop put himself to no small inconvenience in their purchase, the money with which he bought them, having been laid by for a private tour in Germany and Ireland, previous to returning home. —*British W.*

AN EARTHQUAKE.—About one o'clock on the morning of Wednesday last our town was visited by a demonstration of nature, very unusual in this quiet part of the world, to wit, an earthquake, of sufficient magnitude to cause jars, glassware, pots, and things of that ilk, to rattle and shake as if suddenly taken with a fit of ague, or St. Vitus dance. It was but a slight spasm, however, and was all over in a minute. A sound not unlike distant thunder accompanied it. —*Perth Courier.*

BRANTFORD, August 5.—A scaffold inside the Congregational church now in course of erection here, gave way to-day precipitating three men named John Hall, James Smith, and John Whalen to the ground, a distance of 25 feet. Hall is not expected to recover from the injuries sustained. Whalen is severely cut and otherwise injured. Smith was not much hurt.

Married.

At London, C.W., on the 3d. instant, by the Rev. Father O'Brien, assisted by the Rev. Father Byrne, Mr. Duncan McMillan, to Miss Mary O'Brien, daughter of the late Dennis O'Brien, Esq.

MONTREAL WHOLESALE MARKETS

Montreal, Aug. 11, 1865.

Flour—Pollards, \$3.00 to \$3.50; Middlings, \$3.60 to \$4.00; Fine, \$3.24 to \$4.00; Super., No. 2 \$4.20 to \$4.40; Superior \$4.90 to \$5.10; Fancy \$5.10 to \$5.20; Extra, \$5.60 to \$5.60; Superior Extra \$5.95 to \$6.20; Bag Flour, \$2.60 to \$2.65.
Oatmeal per bbl of 200 lbs, \$4.50 to \$4.60.
Wheat—U. Canada Spring \$1.03 to \$1.07.
Ashes per 100 lbs, Pots, latest sales were at \$5.10 to \$5.12; Inferior Pots, \$5.30 to \$5.35; Pearls, in demand, at \$5.20 to \$5.25.
Butter—Store packed in small packages at 00c to 00c; and a lot of choice Dairy 00c.
Eggs per lb, fair demand at 00c to 00c.
Lard per lb, 11c to 12c.
Tallow per lb, 11c to 12c.
Cut-Meats per lb, Hams, canvassed, 9c to 10c Bacon, 00c to 00c.
Pork—Quiet; New Mess, \$20.00 to \$21.62; Prime Mess, \$17.50 to \$20; Prime, \$16.50 to \$20.00.
Dressed Hogs, per 100 lbs. \$9.00 to \$9.50

COLLEGE OF REGIOPOLIS

KINGSTON, C.W.,

Under the Immediate Supervision of the Right Rev. E. J. Horan, Bishop of Kingston.

THE above Institution, situated in one of the most agreeable and healthful parts of Kingston, is now completely organized. Able Teachers have been provided for the various departments. The object of the Institution is to impart a good and solid education in the fullest sense of the word. The health, morals, and manners of the pupils will be an object of constant attention. The Course of instruction will include a complete Classical and Commercial Education. Particular attention will be given to the French and English languages.

A large and well selected Library will be OPEN to the Pupils.
