R. HILLS, Assistant Secretary.

HAMILTON, MAY 28, 1875.

A. G. RAMSAY, Managing Director & Sec'y.

MUTUAL INSURANCE

FOR

COMMERCIAL MEN.

The Board of Directors of the Beaver and Toronto Mutual Fire Insurance Company have opened a Water-Works Branch for the exclusive purpose of insuring property situated within range of the hydrants connected with the Water Works of Toronto, Hamilton and other cities having similar facilities for extinguishing fire.

By the passage of the Mutual Insurance Companies Act of last session of the Ontario Legislature, all the vexatious clauses of the old Mutual Insurance law have been entirely removed. No lien or real estate, no liability for any payment over and above the amount of the premium note can hereafter exist. No premium note, even, is necessary, but a simple "undertaking" to pay assessments up to a limited amount, thus removing a very general objection on the part of mercantile men heretofore felt by them.

THE WATER WORKS BRANCH will insure, for three years, all property coming under the above class, on receiving the "undertaking" of the insured for four times the usual annual rate, and will collect thereupon a first payment of 10 per cent., and will assess thereon at the rate of 20 per cent per annum only, at the periods of six, eighteen, and thirty months respectively from the date of each policy, and for no larger sum unless required to pay extra losses occurring within the said Branch.

Application may be made either at the Head Office, over Toronto Bank, or to the undersigned.

Office of the East Toronto Planing Mill, corner
of Queen and George Streets.

Toronto, Sept. 3, 1874.

Messrs. STOCK & WEBSTER,

GENTLEMEN,—In answer to your request as to our opinion of your oil as compared with others, we have to say that we have decided to use no other so long as we can get yours; and this was brought about by the fact that other dealers came round and said that they could give us oil as good as yours for much less money, so we took samples from each. The following is the result of four tests of each sample, in one of Foster's Patent Oil Cups on our engine. Cup No. 12 once filled run with sample No. 1, at 25c. per gall., 2 days; sample No. 2, at 45c. per gall., 3 days; sample No. 3, at 55c. per gall., 6½ days; STOCK'S EXTRA OIL, at 60c. per gall., out of barrel that we were using, 12 days. The above samples were from the leading oil dealers of Canada. I may also say that we are using your oil on our cylinder instead of tallow, and find it does as well and is much cheaper, and better for the boiler. I think we can truly say that we are saving fifty per cent. in oils since we commenced using STOCK'S EXTRA. Respectfully yours,

WM. H. ESSERY,
Engineer for Messrs. Withrow & Hillock.**MURDOCH & DONALDSON,**
