**MILLINERY.**—The stocks in this line are very inviting and the weather, tho' soft at the moment of writing, has been very much more spring-like than at this date last year. "Better goods," the houses tell us, and more expensive ones are selling this season, indicating an improved condition of the country. A feature in millinery trimmings, as in dress goods, is the prevalence of *Moire* material and figured or flowered goods; *moire* silks, *moire* ribbons bordered with Tuscan straw, ribbons of lace pattern and satin, ribbons of damasce and *moire*, ribbons of gros, brocade and satin are all to be seen. Lace and *moire* effects are prominent, pervading German and French as well as English goods. Some charming things are visible in the shape of hankerchiefs, lace-bordered, used for mob caps or for trimming; also in French sashes with roses or with silver lace worked upon the surface. The prevailing ornaments are pearls in clusters, festoons or rows, in a variety of sizes and colors; pearls and Tuscan straw are combined or sometimes pearls and beads, while chip is also used. The odd and *outré* ornaments of last season for hat and bonnet, such as pigs, owls, etc., are out of vogue. Chenille is still used. Feathers are popular in cream, lemon, and all light shades. Among artificial flowers may be seen the hyacinth, the crocus, the lily, and the sunflower, as big as a hat and gayer than a Sons of Temperance rosette. In both flowers and trimmings cream and pink are the prevailing tints, beige, gold and steel being out of favor. Parasols, handpainted, are replaced by flower or bird-embroidered, or, in the cheaper lines, flower-printed; black satin lined with light tinted silk, lace-trimmed or fringed, are profuse in their variety. "Laciness" is the thing; novel or rustic handles are also sought. No colored mantles are being shown for spring, black is the *mode*; either cloth, silk, or brocade; some beauties lined with silk plush are shown.

**PETROLEUM.**—The refined market is quiet and steady with sales of Canadian at 18c. per Imperial gallon for five to ten barrel lots, and 18½c. for single barrels. American prime sells at 26c. and water white at 30c.

**PROVISIONS.**—In this line there has been little doing the past week on account of the irregularities of outside markets. *Butter* is quiet and firm at 20 to 22c. for choice tub lots, but these are very scarce; medium qualities sell at 15 to 18c., and inferior at 12 to 13c. *Eggs* have been in good demand and prices steady at 14 to 15c. in case lots. *Bacon* quiet with sales confined to jobbing lots of long clear at 11½ to 11¾; large lots 10½ to 11c.; Cumberland cut is now quoted at 10½ to 10¾. *Hams* in moderate demand and steady at 13 to 13½ for smoked and 11½ for pickled. *Mess Pork* continues steady with stocks small and the demand limited; jobbing lots are quoted at \$21 to 21.50. *Lard* in fair demand and unchanged at 14 to 14½ for tubs and pails. *Hogs* are in light supply and steady at \$8.25 to 8.50. *Dried Apples* offer freely and are easier at 6 to 6½. *Cheese* unchanged at 12½ to 13c. for the best and 11½ to 12c. for ordinary.

**WOOL.**—Receipts of *fleece* have been limited and what little offered was sold at 25c. *Pulled* supers are firm with sales to factories at 27 to 28½; Extra is in moderate demand and steady at 32 to 35c. Demand from factories for all kinds continues active as yet, but the open winter has not been "good for" some lines of woolsens, and factories find it more difficult to sell than this time last year. Reports from the American wool market show a somewhat better feeling all round, except for coarse combings such as our *fleece*. Prices are as below:—Southdown English domestic, super and lambs wool, 28 to 35c. according to quality. Cape wools, 18 to 21c.; Australian and New Zealand, both greasy, 21 to 23c.; Persian 21 to 23c.;

Spanish greasy, 15 to 18c.; East India, 17 to 22c.; Scotch Cheviot, 30c.; Canadian pulled lamb and super, 27 to 28c.; pulled extra, 33 to 35c.; fleece clothing (fine downs or cross breeds), 32 to 38c.; pulled combings, 20 to 21c.; fleece combing, 20 to 23c.
