

Burglars Chances Lessened Burglars Captured Booty Recovered

These three things are more nearly assured by the Northern Electric Police Alarm System than by any other system at present in operation.

Burglars might as well expect to get away from an electric man trap, as to beat the Police Department that employs the Northern Electric Police Alarm System.

This system not only summons the patrolman on the beat, but it summons every patrolman for miles around. The Burglar is caught by the net spread for him.
