

MCGILL UNIVERSITY

MONTREAL

THE MACDONALD PHYSICS LABORATORY

May 7th. 1931.

Sir Arthur Currie, G.C.M.G.,
Principal,
McGill University.

Dear Sir Arthur,

I received an invitation to represent the Royal Society of Canada at the Centenary Meeting of the British Association in London, next September; also to represent the Royal Society, together with Professor McLennan of Toronto, at the Maxwell Centenary, at Cambridge, and the Faraday Centenary in London.

I understand that certain money is available to meet my expenses. Before coming to a decision as to my summer plans I have to consider whether there is sufficient money for the undertaking, and I should be grateful if you would let me know how much can be awarded from the grant to the Royal Society of Canada from the British Association, and whether there are other funds from McGill University which are available.

Yours very sincerely,

A. S. Eve,
Dean of the Faculty of
Graduate Studies and Research.
