

DEPARTMENT OF HELMINTHOLOGY,
DEPARTMENT OF ZOOLOGY,
WEST MAINS ROAD,
EDINBURGH.

I hope that I am not premature in suggesting that such appointments should be considered or in enclosing the attached memorandum on a possible research programme. I hope that it may save valuable time in so doing, but I am writing without knowledge of the situation in Canada. Please regard these as suggestions only.

I also enclose a note of my own qualifications for your own information and in case I can be of service to the University in other ways.

Yours very sincerely,

Thomas W. M. Cameron
