JOHN CATTO & SON 55 to 61 King St. E., Toronto BIG DEMONSTRATION

Continued From Page 1. clement prevailed, but there was no disorder. Hard-Won Victory.

In a characteristic speech, during the course of the debate, Mr. Redmond spoke feelingly of the years of defeat and discouragement through which Irishmen had passed in their efforts to secure home rule, and now this day of victory had dawned.

"We know that the house of lords is going to throw the home rule bill out," he said, "but I believe there is some hope in the future of the people of this country in the civilized world which will not welcome as glad tidings of great joy the announcement that this powerful British nation, has at last been magnanimous enough and wise enough to undo an old national wrong.

Mr. Redmond's concluding remarks were greeted with a storm of applause. Prolonged cheers greeted the Irish leader at the close of his speech.

Law is Prophetic. Andrew Bonar Law, leader of the opposition, said that for a generation the Liberals had been emulating Sisyphus. They had rolled the stone to the top of the hill for a third time, but the cheers over the vote about to be taken would not have died away when the stone had begun to roll down this time to remain at the bottom.

He declared that no bill which included Ulster's consent could ever become law. The bill as it was could not stand for a single hour. Once they gave Mr. Redmond a Parliament in Dublin he could alter it in any way he pleased.

Ulster Will Fight. Compared with the year 1893, the demand now for home rule had decreased, while the hostility against it had intensified. The real danger came from the Nationalist party, which had eighty votes to sell. The Unionist party, he said, would remove that temptation when it got the chance of reducing the Irish representation at Westminster to just proportions. He challenged Mr. Birrell to say that the bill could be imposed upon Ulster without bloodshed.

"No rebellion would be better justified," the opposition leader declared, "than the opposition leader's readiness to give up his life at the hands of British soldiers, if they shoot down a hundred in Belfast, 2000 will be ready next day to share their fate."

Mr. Birrell concluded the debate. He regretted that the opposition had hurriedly belittled the movement which

LABOR MEN PRESENT VIEWS ON WORKMEN'S COMPENSATION

Act Is Desired Commencing With Basic Principle of State Managed Fund by an Insurance Commission, and Compulsory Insurance With No Contribution From Workmen Except in Special Cases.

Fred C. Bancroft, representing the Dominion Trades and Labor Congress, presented labor's view on compensation to workmen to Sir Wm. Meredith at a hearing in the parliament buildings last night. "Briefly," said Mr. Bancroft, "we desire an act commencing with the basic principle of a state-managed compensation fund, by an insurance commission, as we have pointed out; compulsory insurance for the widest possible application in Ontario, with no contribution from workmen, except that which they lose in wages as a result of their injury or death, when incapacitated—for instance, if compensation is 70 per cent of wages, then the workers contribute 30 per cent, plus the minimum scale of compensation set, and then from that upwards to be based upon the earning capacity of the workman."

He stated that the entire compensation should rest upon employers. "The only method of dealing with the question of contribution is: Is the principle underlying compensation for accidents to rest upon the employer's employment or arising out of their employment, one of a contribution from the workmen. And the answer from all over the world is no, and the workers of Ontario are emphatic in their opposition to any such injustice being foisted upon them by an attempt to twist into the legislation, something that has no right to be there."

Unpopular Move. "It will be the most unpopular move in legislation that has ever been placed on the statute book in Ontario if the proposal in this direction of the manufacturers should be considered. The labor men, however, feel that no such proposal will be allowed to creep into the scheme, either by yourself or the legislature, but as intimated, labor does not want to take any chances on something that may make a great deal of trouble."

He showed that in many of the United States and countries where such legislation have been passed, workers do not contribute. Mutual Insurance. He suggested: "A plan of mutual insurance, whereby the employers grouped into classes pay an assessment to meet the claims for injuries, as outlined in the legislation, the assessment naturally to be based upon the hazard of the industry. A board appointed by the crown to have the administration of the legislation under their control, so that all the workers will have

CALL IS ISSUED FOR CONVENTION ON "DRYS" WILL MEET IN MASSEY HALL FOR TWO DAYS NEXT MONTH.

Toronto will be the Mecca for the Ontario "dry" on Feb. 28 and 27, to attend the big prohibition convention announced exclusively in The World on Tuesday last. The program consisting of selections from the program given at the two previous concerts in Toronto.

SCOTT ACT CAMPAIGN. Definite Action Will Be Postponed Until After Vote Is Taken in Manitoulin.

The meeting decided to call a mass convention to assemble in the Massey Hall on the 28th and 27th inst. Resolutions were adopted expressing thanks for the defeat of the repeal movement in Owen Sound and gratification at the large proportion of places carried for local option at the recent elections.

A vigorous protest was adopted against the continuance of the three-fifths majority clause in the Ontario local option law. The question of a general campaign in Ontario for the Scott Act in places which have given local option majorities less than three-fifths, was left in abeyance until after the vote upon the adoption of the act on Jan. 30 in Manitoulin Island.

Call is issued. The legislative officers were authorized to issue a call for the meeting to be held at the point of a Sombra Township farmer, who was returning to his home from town. The man was held up at the point of a revolver and took his horse and headed for the St. Clair River, where it is thought they crossed into the States.

DARING HOLD-UP IN SOMBRRA. SARNIA, Jan. 16. (Special)—Word has just been received here of a daring hold-up last evening of a Sombra Township farmer, who was returning to his home from town.

Some trouble from a hot-box delayed the special train conveying the clergy near Welland, and followed at Buffalo. The party dined at the Hotel Statler. Great disappointment was felt at the absence of Sir Henry Fellows on account of the serious illness of Lady.

PUBLIC SUFFER THRU APPEALS

Contract, and the time had not yet arrived for its execution. Municipalities Suffer. Mr. Maclean, referring to the fact that the present action of the government was necessitated by an appeal to the privy council, said that the time had now come to consider the matter of these appeals. Many Ontario municipalities had suffered severely by the construction placed upon their contracts with street railway companies, electric light companies and other public utility corporations. The time had come, in his opinion, when Canada should decide for herself the meaning of her own laws made in Canada.

Hon. Redolphe Lemieux sarcastically commented upon the "Canadianism" of the member for South York, in Quebec there was no dissatisfaction with the judgment of the privy council.

Parliament in Error. A. K. McLean, Halifax, suggested that the late government should not have referred the "implement" clause to the courts. Everybody in Canada knew what the true intention was, and the privy council had incorrectly construed the contract. Instead of going to the courts, parliament should have passed an act declaring the true intent and meaning of the contract.

To this Hon. William Pugsley, who was a member of the late government, took exception. He said it would have been monstrous for the government to have construed the contract to suit itself by procuring subsequent legislation.

Major Sam Sharpe, North Ontario, reminded Mr. Pugsley that, as a member of the Laurier government, he had helped force thru parliament an act changing the rights of policyholders in the Canada Life Insurance Co. even after a writ had been issued to have the matter determined by the courts.

COULD NOT DIGEST HIS FOOD

Mr. J. D. S. Barrett. If you suffer from chronic indigestion, forget about the stomach and pay attention to the condition of the liver and bowels. Ten to one that is where the real trouble lies. The liver gets sluggish and fails to filter the bile from the blood, the bowels become constipated and the whole digestive system is upset. As to cure, you cannot do better than to read of Mr. Barrett's experience with Dr. Chase's Kidney-Liver Pills. There is no treatment so prompt and thoroughly effective, as the use of Dr. Chase's Kidney-Liver Pills. For several years I was a great sufferer from indigestion, the least bit of food caused me considerable trouble and often I could scarcely eat a meal a day. The many remedies I tried proved futile until in 1906 I began the use of Dr. Chase's Kidney-Liver Pills, and after using about eight boxes I was completely cured. Since that time I have not been troubled with indigestion, which I consider a great blessing.
