Try Skin Absorption Instead of Cosmetics

(From the Woman Millant).
The constant use of rouge and powder invites a coarsened, roughened condition of the skin, eruptions, redness and wrinkles. If you've learned this from experience, suppose you quit cosmetics and try what I recommend.
Ask your druggist for an ounce of ordinary mercurized wax and begin using this tonight. Apply like cold cream, washing it off in the morning. Keep this up for a week or two. The wax will literally absorb the coarse, scaly, or blemished top skin, but so gradually as not to discommode you at all. Just as gradually the clean, velvet, naturally tinted under-skin comes to the surface. And mercurized wax becomes your everlasting friend.
For those wrinkles and large pores, make a face bath by dissolving an ounce of powdered exfoliate in a half-pint of water. This has remarkable astringent and tonic properties, and beneficial results come quickly.

Leinster was employed by the Toronto Butcher Supply Company, at the Dundas street address, and went to the back of the building to raise some ventilators. An inquest will be opened at the morgue tonight.

NEGLECT CAUSED BABY'S DEATH.

WELLAND, June 17.—The adjourned inquest to ascertain the cause of the death of the newly-born infant found buried in a field at Welland Junction was held here today and again adjourned until Friday.
Medical evidence showed death was caused by loss of blood because of improper attention at birth.

According to an edict by the Chinese Government, women are to wear European hats, but otherwise retain their customary dress, with certain modifications.

Mrs. Mattie Crise, of Somerset, Pa., who celebrated her one hundredth birthday recently, has lived in the same place all that time and never saw a railway train or street car. In all her long life she has never worn a hat, a knitted hood taking its place.

The establishment of a girls' school in conjunction with the National Farm School at Doylestown, Pa., for the purpose of training young women to become suitable wives and helpmates for its graduate agriculturists is being urged by Rabbi Krauskopf of Philadelphia.

It is estimated that 300,000 babies die each year because of parental ignorance.

The women of China knew how to weave a thousand years before their European sisters.

MOUTH BREATHING

There are children who have been operated on for adenoids and enlarged tonsils, in whom the mouth-breathing habit has not been broken. Due to obstruction in the proper breathing channel, the mouth had to be used, and the habit, once contracted, firmly fastens itself, and is corrected with difficulty. The longer the child was compelled to breathe thru his mouth, the more difficult it is to eradicate the evil.

If, however, the operation has been perfectly successful, and the breathing space is quite normal, there is no excuse for mouth-breathing, and the practice must be discontinued. It takes patience, perseverance, firmness, and courage to accomplish the result. When children are old enough to have the situation explained to them, it simplifies things very much, because they will be anxious to correct the habit, when they know it is not beneficial to their health.

If the habit seems very firmly established, it will be necessary to break it by making it impossible to breathe thru the mouth, especially at night. This is done by bandaging the mouth, or even using strips of adhesive plaster to close the lips. This is not cruel, if the breathing space in the nose and throat is sufficient. But it would be cruel to bandage up a little mouth-breather if the nose and throat were full of obstructive tissue. I am speaking of correcting the habit after the operation is performed.

In many cases, such measures as I have mentioned must be employed, and to evade them the score of cruelty is to prove yourself seriously weak.

While on the subject of habits, we might mention one other very annoying habit common to children: the desire to have something always in the mouth. The child constantly sucks something, his thumb, his whole hand, a pacifier, or even his tongue. This habit spoils the shape of the mouth, hurts the teeth, causes adenoids and enlarged tonsils, uses up saliva, and is unpleasant to witness. I have heard of many plans to correct this habit: wearing of cotton bits, putting red pepper or mustard on the fingers or tips of the tongue, putting splints of cardboard on the arms, to prevent the hands being raised to the mouth.

Some of these suggestions may help you. At any rate, cure this disgusting habit as early as possible.

MISS CLEGG MAKES A HIT.

Clegg and McRae are giving one of the most sensational bicycle acts ever seen at Scarborough Beach. Miss Clegg is a Toronto girl, who first learned to ride a wheel on the streets of this city, and whose increasing skill eventually led to an offer to appear upon the vaudeville stage. In the past four or five years she has given performances in practically every large city in the United States, and has been called the "Queen of the Bicycle." Her act is a most remarkable one, indeed. The comedy of the bill is provided by Le Roy Wilson and Tom, the acrobats, who give a very amusing and at the same time clever performance. The music is rendered by the band of the 48th Highlanders, and the moving pictures in the open air continue to be a prominent attraction.

"GROW OR GO" IS MOTTO OF W. C. T. U.

And Toronto Branch Report Shows Members Live Up to It.

AFTER LIQUOR TRAFFIC

White Slavery, Morals, Drama and Suffrage Discussed in Reports.

The feature of the opening session of the annual meeting of the Toronto Women's W. C. T. U., which was held in the new Willard Hall on Gerrard street yesterday, was the annual address of Mrs. Fred C. Ward, the president. The comfortable furnishings of the big assembly hall in which the meeting was held were the best evidence that the W.C.T.U. was flourishing, and Mrs. Ward did not fail to call attention to the fact. She pointed out that this was the first annual meeting under the new conditions and climaxed all by stating that 300 new members had been added during the year and that the total membership was now 1550.

"But this is not nearly enough for a city the size of Toronto," she added. "Grow or go" is the best motto for us at this time." Mrs. Ward told of the progress that was being made by temperance workers in many countries in Europe and among her encouraging reports she stated that even in Germany there was now a growing sentiment against beer drinking.

Out for the Vote.
The speaker then referred to the other projects in which the union was interested. First of all, the women were out for the vote and intended to get it.

Liquor traffic strikes at the home," she said, "and mothers will defend the home if given an opportunity." The white slave traffic then came in for some thrusts. In many ways the social evil was more insidious than the liquor evil and not long ago reports came from New York that there really was a gigantic octopus—the White Slave Trust—in operation in America, and that this trust now had its eyes centred on the young growing cities in the Canadian west.

In concluding her report, Mrs. Ward enlisted with Magistrate Robinson in condemnation of the "Deborah" drama, a play which she said was a disgrace to Toronto.

Mrs. R. Fletcher, in presenting the corresponding secretary's report, referred to many of the points referred to by the president, and stated that the union was trying to make Toronto "a cleaner and safer place in which to live."

Among the reports which she presented she mentioned that all the women had been fighting against the pool-rooms and that the Deer Park Union had secured 60 signatures to abstainence pledges in the last year. There were now 15 bands in the local Temperance League and 1500 members in the Temperance Army.

Soap Wrappers.
The union's financial affairs were discussed by Miss Lottie Harris, the treasurer. In the year of eight months \$20,169.59 had been raised and \$18,875.59 expended. An interesting item in the receipts was an amount of \$1309.87 received from a soap manufacturer in exchange for soap wrappers. Miss Harris could not state just during the year, but they must have run up to the millions.

The wrappers were sent in to Toronto by friends of the union living in the Dominion. They came from the shores of the Atlantic and Pacific and were shipped to the manufacturer in return for a cheque for the \$1309.87.

DECORATE FOR DOMINION DAY.

The World has struck the popular fancy, for practically everybody now is decorating with Pennants. The success of our distribution of Pennants with the word "Canada" has prompted us to issue one emblazoned with the word "Toronto" and they are ready for distribution this morning.

BOARD APPROVES HOSPITAL GRANT

Trustees' Appeal For Funds For New General Goes to Council.

An appeal for \$210,000 was made to the board of control by the trustees of the Toronto General Hospital. That amount is the cost of the land upon which the several buildings have been erected. The trustees stated that the expenditures to date is \$3,475,000. To meet this there has been the city's grant of \$400,000, the government's grant of \$800,000 and private subscriptions of \$1,400,000, the bulk of which was subscribed by the trustees. That leaves \$1,000,000 to be raised, for which is available about \$250,000 from the old hospital property. Other expected subscriptions, together with the proposed additional \$210,000 from the city, would clear the institution of debt.

The appeal for the extra grant was sent on to council and will be disposed of this afternoon. The present corrective measures are sufficient. The estimated expense is \$2500. The deputations will again wait on the board next Tuesday with a perfected proposition to be sent on to council. The board insisted that the women's organizations should undertake most of the work should a commission be appointed and the deputations agreed to it.

A bylaw to appropriate nearly \$3,000,000 for site for public and high schools will be given to the council this afternoon.
"We should raise the pay of the police, commencing next August," said Controller Church.
"Not till next year," said Controller Foster.
"No more this year," Controller McCarthy declared.

A bylaw is to be put thru the council today to reduce the discount on water bills from 20 to 10 per cent. This will produce about \$65,000 additional revenue.

The foremen of the street cleaning department asked for raise of pay from \$14 to \$20 a week. The request was referred to Commissioner Wilson.

The Pionier's Opportunity.
The full summer service of the Niagara-Saint Catharines Line is now in effect between Toronto and Niagara Falls, through the Garden of Canada, and the speedy, comfortable steamers Dalhousie City and Garden City are making four round trips daily except Sunday, across Lake Ontario, a pleasant sail of little more than two hours. The management report that they still have a few good dates open for picnic engagements, but their service is even more popular than in previous years, and it will be advisable to make early application in order to avoid possible disappointment.

The attention of intending picnicers is specially directed to the improved facilities at Port Dalhousie for an outing of this kind, which together with moderate rates and frequent service, makes it one of the most suitable spots available to residents of Toronto.

EFFICIENT HOUSEKEEPING
BY HENRIETTA D. GRAUEL
DOMESTIC SCIENCE LECTURER

\$800. A Year.

THE young man I am engaged to is only making eight hundred dollars a year. Can we live on that?" is the timid query in the morning mail.

Bless you, children, of course you can. Whole families on every side of you are doing it. City and government employees, teachers, stenographers and bookkeepers by the score get no more. But whether you live happily, or not, depends entirely upon yourself.

You must like housekeeping and be willing to learn to be an economical housewife. You need not be a first-class cook, but you should know the fundamentals of plain cookery, and be willing to go to market with a basket on your arm, and carry home your provisions. Then you can have an abundant variety of attractive food.

You should be able to make good bread; it is more wholesome and economical than the baker's article. With plenty of good bread you have the means of making butter toast, milk toast, bread pudding, French toast; you can always have a savory bread stuffing with your roast, and homemade bread and milk alone is excellent fare, seasoned with love.

You must do your own plain sewing, and mend your clothing carefully. The washing you should not do, but the ironing, including "shirts," will have to be done at home.

No woman deserves the name of wife who is not willing to do her part, if necessary, to help earn the living.

Webster tells us "Comfort is a state of quiet enjoyment," so you must keep a tight rein on your tongue to have a comfortable home. When your husband comes home tired at night and tells what he has had to contend with all day long, you must listen quietly and not take that moment to complain about being poor or to tell that the gas bill is unreasonable or that the bread didn't rise.

This is the time you must remember to tell "him" you married for love, not money, and that the rich sometimes become poor and, by the same token, you may some day be millionaires.

If two young, sensible persons cannot marry and live contentedly on eight hundred a year, I doubt if they could on eight hundred a month.

Hundreds of families are doing it; raising children and paying for a home besides. The credit is always due to the woman who must be a good manager; willing to work year after year, taking her pay in love as she goes along.

The Lord knew what He was about when He set a married pair at housekeeping in Eden and they had much less than eight hundred a year. Don't be afraid, young folks, if you are reasonably sure that you can count on having that much regularly. Look at the lonely old bachelors and homeless women in the world; there isn't one of them that doesn't wish they had a home and a family.
