MARINE MOVEMENTS.

Brief Detention of the Victoria Tug Lorne"-Seizure of the Schooner "Annie C. Moore,"

Loss of an Unknown Sloop-News of the West Coast-The "Henrietta" Seiznre Case.

The Customs officials of Puget Sound seem never so happy as when endeavoring to entangle British shipping in the meshes of the law. Despite the fact that the majority of their seizures in the past have been set aside by their own courts, the work goes vexatiously on. Early this week the Victoria tug Lorne picked up the bark Mc-Near, bound from San Francisco to Puget Sound, and towed her from outside the Cape to Royal Roads. There the bark remained for a time, and the Lorne again picking her up towed her, on Wednesday, across the Straits. dropping her three miles Cape to Royal Roads. There the bark remained for a time, and the Lorne again picking her up towed her, on Wednesday, across the Straits, dropping her three miles outside Port Angeles and following her into the harbor, the ship going in under sail. The Collector of the port, the bark being engaged in coastwise trade, held that the Lorne had violated the maritime laws of the United States in towing her, and accordingly detained her until bonds to the amount of \$600 were furnished. These were promptly forthcoming, and the Lorne were promptly forthcoming, and the Lorne returned to her work.

BACK FROM ALBERNI. The little steamer Spinster, Captain Foot, returned to port on Wednesday after a perilous trip from Barclay Sound, where she had been delivering freight. Capt. Foot brings home with him several specimens of gold quartz from the ledges recently located by Frank McQuillan. The find is on a mountain west of Maunt Moriarty be. Through Jail Walls.

Katie, the five-year-old daughter of Rev. G. R. Maxwell, died gesterday. The functional force the medical board, and all passed. They were Dr. Walton, of Victoria; Dr. X. McPhillips, Vancouver; Drs. Morris and the first of the Commercial bank affairs. Wm. Hespeler and J. T. Ewart are appointed as advising liquidators.

The double of the first of the company has been dismissed, as an arrangement has been made with creditor Government assayer, who is now at China creek, very good, although he had not, up to the Spinster's departure from Alberni, assayed it. As Mr. McQuillan was working for himself at the time of his discovery the find is his own, and is considered a valuable on the discovery on the discovery of the manufacture of the manufacture. find is his own, and is considered a valuable one. Speaking of the new paper mill Capt. Foot says people here, in the city, have no idea of the immense concern it is. The saw-mill in connection is already in operation, and what is far more encouraging to its owners is the fact that the dam across the Somass, which has for the pastyear been the source of much trouble and the suspension of the completion of the mill to a certain extent, is now all but complete. Of course, the dam has not been filled in yet, but the construction of the frame work, which has caused much difficulty on account of the swift current, is finished, and the prospects are that the mill will be man. find is his own, and is considered a valuable one. Speaking of the new paper mill Capt. Foot says people here, in the city, have no idea of the immense concern it is. The saw-mill in connection is already in operation, the prospects are that the mill will be manreprospects are that the mill will be manufacturing very shortly. To-day Capt. Foot leaves for Port Angeles, where he will make arrangements for the yacht race which takes place a week from Saturday. The Port Townsend people, it is said, present a cup to the winning Victoria craft in the

THE FAWN ARRIVES. The principal news from the Copper Island coast brought by the sealing schooner Fawn, Capt. Magnesen, which returned home yesterday, is of the lamentable drowning in a squall, of nine men three of whom belonged to the craft. The three from the Fawn were F. Turner, whose wife and the same that the fawn were F. Turner, whose wife and the same that the same th belonged to the craft. The three from the Law were F. Turner, whose wife and family reside on the Songhees Indian reserve; J. A. Jensen, a Dane, and C. Olsen. They had left their vessel in a small boat in search of seals on a morning when the weather and sea were quite calm, but a squall arose while they were out, which evidently terminated their careers, for their boat was afterwards pleked up and returned to the Fawn by the schooner Trinmph. On the day of the squall six of the crew of a Japanese sealer met a similar fate. They had, like their white companions in misfortune, been out in two boats hunting when the storm overtook them, capsing their craft and placing them at the mercy of the wild seas. Nor is this the only misfortune the Fawn has had, for on her homeward trip another storm was encountered, which smashed in one of her stern boats. Capt. Magnesen says he heard of no esizures during his expedition, nor saw any Russian cruisers. He says the vessels which were on the Copper Island coast earliest in the season are the most suod coast earliest in the season are the most suod constuding. As for the Fawn's own catch, she received 77 methods the most suod coast earliest in the season are the most suod constuding. As for the Fawn's own catch, she received 77 methods and the whole, however, will be small, as the seals are searce and the weather has been most unfavorable for hunting. As for the Fawn's own catch, she received 77 methods and the weather has been most unfavorable for hunting. As for the Fawn's own catch, she received 77 methods and the proper standard to the state of the City of Chester when the colinary of the defence of the Steamship company is that the City of Chester when the olinary of the defence of the Steamship company is that the City of Chester when the colinary of the defence of the Steamship company is that the City of Chester when the colinary of the defence of the Steamship company is that the City of Chester when the colinary of the defence of the Steamship company is that the Ci

The steamship Danube returned from the North with a big cargo of salmon yesterday morning, consisting of 20,185 cases, which, shortly after her arrival, she commenced discharging at the outer wharf. Her cargo in detail was as follows: 350 cases for transhipment over the N.P.R. 7,625 for shipment over the N.P.R. 7,625 for shipment over the C.P. R., and 12,210 cases for the bark Routenbeck. The Danube brings very little news of importance from the North. The cameries are all through fishing now, but some have not yet completed their packs. The Standard Canning Co. have yet 1,300 cases of salmon to ship down.

weather the attendance was exceedingly large, among those present being many Presbyterian clergymen from Vancouver and various parts of the district. Rev. A. Dunn, Whonnock, the oldest friend of the deceased in the country, conducted the funeral services, assisted by Rev. E. B. Mc-Lean, moderator of Westminster Presbytery, and Rev. Mr. Greig.

Mining company, of Ottawa, are in receipt of a contract made a few days ago by their superintendent in Kaslo, of silver ore at 83½ cents per ounce for silver and \$3.50 per 100 pounds for lead. These prices are the same as last year. One hundred tons of high grade ore are being shipped to the Tacoma Smelting and Refining company. This is the highest price paid for silver since last a November, and is accounted for by the fact that the Kootenay produces the finest quality of fluxing ore in the world. It is being shipped from the Wellington mine, twenty miles from Kaslo.

TO THE ELECTORS -OF THE-

District of Cariboo

At the request of a great many of my friends. I have, with great diffidence, consented to contest the seat in the Local Legislature rendered vacant by the death of our esteemed fellow-citizen, Mr. I. B. Nason. In offering myself, I do so as a supporter of the present Administration, as I consider that we have been very fairly dealt with by it.

Having been a resident in the District for over tweaty years, and having been engaged in farming and mining almost an equal length of time, I feel that I am fairly conversant with your needs. Of course, not having engaged in mining for the last ten years personally, circumstances may have altered semewhat, so that your requirements may not be just the same as they

mining for the last ten years personally. circumstances may have altered semewhat, so that your requirements may not be just the same as they were then. Hoping to make a personal canvase—if time will permit—I shall be pleased to listen to any suggestions you may make.

As to the requirements of the farming portions of the District, I claim to be fully acquainted with them. I believe that the Land Act should be further amended so as to better suit those engages in farming and stock raising. Considering a railway of paramount importance, any bona fide schemeto build one to benefit the District wilk should I be elected, receive my fullest support.

There are other subjects which I would wish to touch upon, but as I intend to hold public meetings at all the principal places in the District I hope then to more fully and clearly explain my views.

In the meantime,

I have the honor to be, gentlemen,

Faithfully yours,

WM. ADAMS Alexandria, July 20th, 1893. audw
