

portant information touching the early state of our country has been obtained since the time when Goldsmith wrote; and therefore that portion of his narrative which embodied the transactions of the Romans, Britons, and Saxons, has been withdrawn to make way for a more authentic account of the settlement of those ancient nations in the southern parts of this island. To render the work as complete as possible, a chapter has been added which brings down the record of public events to the accession of Queen Victoria. Such being the extent of the improvements introduced into the present edition, the proprietors hope that this popular abridgment will be found better calculated than it has hitherto been for facilitating to students of all ages the acquisition of a competent knowledge of English history. To compensate to teachers the inconvenience attending alterations, however indispensable, the publishers have stereotyped the volume, and thereby prevented the recurrence of any similar evil for the time to come.

CRITICAL NOTICES of Simpson's School Histories.

"These are neat and cleverly-edited reprints of very popular school-books."—*Athenæum*.

"These works contain much important matter never before introduced into books of this description.—We recommend them most cordially as decidedly superior to the general order of schoolbooks, containing no one sentiment, either religious, moral, or political, to the influence of which on the youthful mind the most sedulous and serious teacher would think it necessary to furnish an antidote."—*New Baptist Miscellany*.

"To the master who wishes his pupils to be readily acquainted with what all should know, and to the parent who is anxious that his children should learn history through an honest and impartial medium, we recommend Simpson's editions of the Histories of Greece, Rome, England, and Scotland."—*Literary Chronicle*.
