## SUMMARY: OR, GENERAL VIEW OF THE SOCIAL REFORMS WHICH MR. BUCHANAN PROPOSES IN THE FOLLOWING AND HIS OTHER NEWSPAPER WRITINGS.

The reader must not object to the same idea being often repeated in this same, or almost the same works. These articles were addressed to different parties at diffrent periods, but always with the own carator parts or pleading alicer mulds for the consideration of the writer's view, that Feel's having got l'aritament to usurp the noninpotence on fundamental questions formerly the prerogative of the partiamentary consultance on fundamental questions formerly the prerogative of the partiamentary consultance on fundamental questions formerly the prerogative of the partiamentary consultance on fundamental questions formerly the prerogative of the partiamentary consultance on fundamental questions formerly the prerogative of the partiamentary consultance on a start principles). Will be fund to be u virtual suboption of Universal Suffrage ; for there can be no to be the most desirable timing in our circumstances, and in fact the only means of making sure of protection to our mitional, as opposed to foreign industry, and of ourgetting relieved from priesteraft in errery shape. Except by means of Taking are of protection to our mitional, as opposed to foreign social confusion ;-let, A new Ecclesiastical law that will do away with the other washing the house to be the most sufficiency of Euclides authority to its own adherents, and the Church of Nome's authority to aliens in this country, (Nough we could not object to recognise, as Bitisti, a Catholic Church with wintever doetrines if it is only declared free from the authority or any line for or any principle will house the or principle of the solution or any line principle of industry, cathority, to raise prince through and privileges : 2d. A new Corn law, whose principle will not be to raise prince through are could not object in the solution of the raise of the or allowing or any line principle will be solution or any line principle will be the solution of the raise of the raise of the grant of the wealther with wintever doetring in advectory divect of the grant of

Commissioners of the National Peet as the measure of the pro-tection to native industry afforded by the country's property, f5th, Mr Buchanan would have the LAND made to subserve the employment of the producing elss, the public lands becom-ing the property of the National Savings Banks, as will be shown below. And if it is objected that Lord Goderich gave away to

below. And if it is objected that Lord Godrich gave away to • Taxes must surely be a deduction from wages, if they cannot be added to price; and they cannot be the latter in competition press(the abectors of Mr Cobden et hey genus onne) would but reflect, they could not fail to preceive that if their neighber newspapers were not also charged the stamp, they would have to deduct the price of their newspapers. This is literally true in the case of our agricultural produce (the more so as the foreigner from our having intrinsic instead of erbienatic money has the option of payment in an untaxed article, gold); and it is true than without some consideration would be supposed, as regards manufactures, though we can produce these cheaper than the for-giner; for in return for liss wheat the foreigner has it always in his power to take gold fixed at a low, foreign, untaxed and profitless refores are raised by our covering our taxes, profits, do., de. Gold at a foreign price is equivalent to any other commodity as a raw material price of data the latter at the manufactured price, so that his purchases of British goods iminish as their prices are raised by our covering our taxes, profits, do., de. Gold at a foreign price is equivalent to any other commodity as a raw material price of da and the latter at the manufactured price of 10d per bb., the difference (4d) being our national taxa-tion, profits, rents, wages, de. f Um men of property would then have a direct interest in protecting nativo industry, as well as in avoiding war and other extravaganetes, and in teconing financial reformers in fact.

 Chained with winterver descringes if it is only declared the from the audority only dense for full market, and toprevent audo investige principal will be analy only of all market, and toprevent audo investige and the set of all market, and toprevent audo investige and the set of all market, and toprevent audo investige and the set of all market, and toprevent audo investige and the set of all market. And toprevent audo investige and the set of all market, and toprevent audo investige and the set of all market. And toprevent audo investige and the set of all market, and toprevent audo investige and the set of all market. And toprevent audo investige and the set of all market and toprevent audo investige and the set of all market. And toprevent audo investige and the set of all market and toprevent audo investige and the set of all market. And toprevent audo investige and the second and the set of all market and toprevent audo investige and the second and the set of all market and toprevent audo interest. The second and the set of all market and toprevent audo interest in the set of all market and toprevent audo interest. The second and the second A new down naw, whose principle will not be to raise prices through creating their lower this price below that of a full market, and toprevent used inn-taing medium which is the legal life's blood of every British interest. I the culonists in each particular colohy the control of the coloniant print to the colonists and they will grant any privilege to their fellow-subjects in the old country. from which they thomselves are not excluded, Let, says the, the home government only ad-vance a few millions to thue colonial agriculturists for improve-ments, on the same security and terms as this is done at home (6 per cont. for 31 years, thus paying up the principal), and the co-lonists will be prepared to co-operate in any work of philanthreoy. This and STEAM FOR THE MILLION ACKONS THE ATLANTIC would phase British subjects on as good a footing as American citizens in the expense of getting to these. B, M, M Buchman misist that every country and colony should have paper or emblomatio money, and that the advantage of the circulation should be taken from the rich, who do not stand in meed of it, and given to the power classes—life this can be done with safety—not only as a direct bonefit, but as a nouns of indi-vidual banking onenry which the richer classes also monopolise at present. Ho would induce the industrious classes to take a legal tender (thus giving the privale he would make a legal tender (thus giving the interest in improved lands, to be lot in small parceis, at rents not over 4 per cent. and the value of his land to cover his TENANY RIGHT (the stock holders having 's preference.] And it would be itims on long at 5 per cent. to the extent of one land' of his stock, the Lasso Sarivos Baxes not having the privilege of advancing on any store second, the government and the period stock holders had re-evied 5 per cent. rand, in order to its adoption, he does nose it at all necessary directing to interfere with the existing Bank of England, or other banks in 'righand, Ireland, Sc

tion to the ampropertied class, this would more permanently ele-vate our masses. Th. IMMEDIATE MONETARY REFORM—A THING INDISPENSABLE—so that until practically, or in the regulare course of business, the legal tender votes of the Land Savings Banks supplant the notes of the Bank of England, these (the notes of the Bank of England) to be algost leader to the amount sho is now permitted to issue, viz.—to the extent of the government det, fourteen millious, and amount of specie in her vaults. The Banks of England to be bound never to have less than fourteen millions of specie in her vaults, and (as well as all other Banks, bissue notes of as low a denomination as one pound or ten shillings. Though not exactly by the same machinery, Mr Buchanan's view would be to carry out the principle of that greatest authority on the naturo and use of Muney, Mr JOHN Money on SOCIAL ECONOMY enants be better expressed tham in the language of his elequent friend, Mr JONATIAN DUN.

 $\uparrow$  The tenure of the land might be made equal to a f echold for his family by the tonant's insuring his lite with the Land Savings Bank for the other half also.
