TORONTO EXPECTS TO BEAT MONTREAL

Final Figures in Victory Loan Canvass Matter of Guesswork.

What is in store for the public in the way of announcements from the platform at the Massey Hall meeting, is the question that is in the minds of the thousands interested in the results of the Victory Loan. Final figures are mere guesswork so far, few taking upon themselves to give a close chase. There is, however, an idea among the workers, that taking figures already known plus the enthusiasm of the canvassers and their clientele, the Dominion total will be comewhere between \$550,000,000 and \$403,000,000. What Toronto figures will be no man saith, but that the record will be a proud one—as it is to the will be a proud one—as it is to the present—is unanimously agreed upon.

ronto executive, summarizes the situation when he says:
"It is impossible to say what Toronto has raised for the Victory Loan, but we are hopeful that the total will be greater than that of Montreal," said J. W. Mitchell, chairman of the Torontoe xecutive, last night. "The canvassers were at work until after midnight on Saturday and the complete reports of the day's results will not night on Saturday and the complete reports of the day's results will not be known until late on Monday. So far has we know every inch of ground, has been covered over and over again, and if the total is not as large as we anticipate it will not be because of the fort." Enthusiasm continued at leverish heat right up to the close of business on Saturday night and, as har as we can gather at tals time, every district chairman will have a good report to make at the Massey Hall meeting. We are hopeful, or course, that Toronto will be kept at the top of the list again, but should received despending the satisfactory of the less that the market of the satisfactory of the less that the statisfactory of the less that the statisfactory of the less than the satisfactory of the satisfactory of the less than the satisfactory of the s eports of the day's results will not be known until late on Monday. DR. CODY IN A NARROWER FIELD.

Venerable Archdeacon Cody, former minister of education, referred briefly in St. Paul's Church vesterday morning to the change brought about by the new administration in Ontario so far as he was personally concerned. He remarked that for the first time in many months he was able to devote his whole time and attention to the affairs of the church. He had endeavored to do his duty in a broader field, one in which he had welcomed the opportunity to serve the rising generation, and he did not regret that he had taken

Austen spoke on behalf of the Conservatives, Mr. Fulton for the Liberals, J. Smythe Carter for the United Farmers and S. P. Shantz for the Laborites. The ef-fect of the farmers' movement on the fect of the farmers' movement on the tariff question and on various phases of provincial policy was thoroly de-bated, and the political outlook for bated, and the political outlook for the older parties examined. Mr. Austen said that even if the Conservative party in Ontario had been knocked flat in the provincial elections, the rise of the Western Farmer party with its free trade program would unite Conservatives again in defence of the national policy, and that after the post-war brainstorm had exhausted itself, and public temper returned to normal, he had no doubt that Ontario would again be the citadel of tario would again be the citadel of Conservatism in Canada.
