IS IT PEACE ?

It looks as the Mr. Mackenzie, the president of the Toronto Street Railway, is going into the conciliation business, as far as the difficulties with the city are concerned. The part will well become so shrewd a man. Yesterday he conferred with the board of control, and afterwards Mayor Coatsworth was in great good humor. During the mayoralty contest Mr. Coatsworth talked of twisting the necks of the city railway directors. After yesterday he may be in danger of falling on their necks.

Nowadays it is impossible for the great complaining, long suffering public to know exactly who is the strategic genius of the company. At one time Mr. Mackenzie was regarded by many as the beginning and the ending of the company's ambition. But in these latter times the president of the street railway is president of other things vastly bigger than the Toronto trolley system, and obviously he cannot give that business the attention it received from him awhile ago. Whatever the profundities of interior administration may be, and whoever contrived to is be measured exclusively by the profit sue instructions which either muddled earned and the relief afforded to local the motormen or were muddled by rates. These are more truly found in them, every citizen in whom familiar- the cheaper and better service renderity with straps has bred contempt, will ed, in the superior position of the emhall the signs of approaching rest from ployes and the freedom from the inlitigation and standing which the caument of Mr. Mackenzie.

And, in good sooth, Mr. ought to be as gratified as the mayor. far-seeing man of business is too con-siderable to make a situation of disputation with the city by the company, which was one of the first great products of his singular capacity, worthy financial geniuses of the times. The large sex, might have taken the shape of an ultimatum. it is not difficult to fathom the sources The ladies put a question to their emfrom which these charges come. They are not new and form part of the stock in trade of the "Industrial Freedom League" and other organizations promoted and inspired on behalf of franchise-holding companies. the tax rate to soar year by year." As a simple matter of fact and as a single instance, the street railways of Britain alone, so far from being a tax on the British householder, kept money in his pocket. During the last financial year local authorities paid over in relief of rates £209,881-about \$1,000,000. Some of the larger amounts were Leeds \$275,000; Manchester, \$250,000; Liverpool, \$135,000; Hull, \$97,500; Notting of a two-cent fare. In addition to this ture. What private company is doing this? This city's favorable showing, according to the commissioners, is due to the corporation doing work which ought to have been charged against the street car operation. Here again no details are given and it is perfectly safe to say the imputation cannot be sustained. Not only does the tramway department pay all proper charges, but it pays city taxes and maintains that part of the streets upon which the tracks are laid to a given distance from the outer rails

In matters of this nature no reliance can be placed on vague generalizations unaccompanied by such precise details as will permit of accurate verification-There is nothing secret about the accounts of the British municipal undertakings. They are printed and issued every year with unfailing regularity, the sums paid in aid of rates are known, the amounts devoted to the sinking funds established for repayment of debt, for reserve and for depreciation are equally available. The figures have been repeatedly and mercilessly attacked by the interested opponents of municipal ownership and have been investigated by parlian tary committees. 60 lbs. Carbide which I had left over from last year. I ordered five cans for this present year, as per account. I closed Camp last Monday, having been there within one day of ten weeks, and I have three cans left untouched. As near as I can figure I used about 280 lbs. as there was some Carbide in the Machine, so you see I will have emough for next year.

We used all the light that we wanted without economizing at all and I must say that the Machine worked absolutely perfectly. I left Toronto last Tuesday morning, having stayed over night at that place but did not have time to call on you as I should have liked to have done. I saw your "Giant Siche" at Viamede. It certainly looked as though it could turn out a good deal of light, and Mr. Graham told me it worked like a charm.

Notwithstanding the diffusion of knowledge, mankind seems as prone as agreeable duties to be performed, even by a prime minister.

Many men and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling you are going to die: or perhaps you wake up from your sleep feeling as though you were about to choke or smether, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining.

the government service and to the community at large.

Meantime a peculiar element has been introduced into the mystery. An other name has been mentioned by a Liberal newspaper as that of the mysterious "Christopher Stratford." It was given to the public on Tuesday in the following curiosity of journalism:

NOT GOVERNOR VAN ZANT

The West Elgin Personator Said to Have Been a Mr. Wright. (Special Despatch to The Globe.)
St. Thomas, Jan. 15.—The man who personated Christopher Stratford in the West Eighn election of 1899 is said to have been a resident of St. Catharines, now living across the line, and not Mr. Garrett Van-Zant. governor of the Toronto Jail.

indicated? The public should not be allowed to associate a wrong Mr. Wright with the West Elgin scandal, The abov special news despatch, singularly enough, gives a name in the heading. but no name in the telegraphed story The St. Thomas correspondent must have referred to Mr. Wright, for a news editor of The Globe is incapable of sup-plying from his inner consciousness the name of an electioneering dodger. It is not quite fair to mention a name

in such a way, because, unless the con nection of the person associated with the affair is a matter of notoriety. it is unjust to every Mr. Wright in the neighborhood of St. Catharines to use that cognomen at all. To speak of "a Mr. Wright" is a puerile way of avoiding risk of libel, and an equally inept way of shielding a faithful Liberal elecioneerer, now serving his province from the disturbing light of interrogation being flooded upon him.

But everybody knows there is no wrong Mr. Wright in St. Catharines. From the Liberal point of view the unfortunate part of the matter is that the individual alluded to, altho he did some point in the United States, has been back in St. Catharines for a couple of years. The implicated person is ex-Ald. Emmerson Wright, who declines to make a definite statement as to his relation to an incident which he no Pertect doubt most bitterly regrets. This much is certain, that the repu

table citizens of St. Thomas, who have made affidavits declaring their belief after inspection that Governor VanZant is the impersonator, must in fairness to the man they accused be confronted with the Mr. Wright of St. Catharines. and say whether they had made a mistake.
