Ontario and Dominion Governments, and the Grand Trunk and C. P. R. authorities.

It is not stated specifically what the requests of the joint deputation will be.

requests of the joint deputation will be, but it is understood that they will ask for some concessions from the railways and for favors from the Governments in the further opening up of their country. The deputation are arranging for special round trip rates for their trip.

Supplies for the Camp.

According to The Port Arthur Herald there is every indication that mining will be carried on in Western Algoma more vigorously during the coming summer than in any time in the past. The supplies are being taken into a number of camps and preparations are being made to open a large number of properties that have lain quiet since their discovery. According to the mining law a large number of these properties will have to be placed under development this coming spring, and, as a result, it is estimated that half a million dollars will be expended in mining operations hereabouts in the next few months, or the land will revert to the Government and again become open for application.

ROSSLAND NEWS.

It is Good-Reports Regarding the Smug gler and the Iron Mask-Shipments. Yesterday's statement in The World regarding the new position the War Eagle mine is about to assume is supplemented by further good news regarding the Trail Creek camp. It is understood that an Ontario syndicate, after stood that an Ontario syndicate, after making a thorough examination of the Smuggler property, has taken over 100,600 shares of the Smuggler's stock for \$30,000, with the intention of proceeding at once with development, The World is informed that four companies are at present bidding on the 10-stamp mill and five-drill air compressor plant and engines and boilers to be placed on the property.

on the property.

The last shipment of the Iron Mask is said to have netted \$10,000 to the owners, after paying all mining and melting charges.

The total ore shipments for the month of February from the Rossland mines were as follows: Le Roi 4800 tons, Iron Mask 320 tons, Poor Man 140 tons, making a total of 5240 tons.

CAMP M'KINNEY.

Strike on the Cariboo-About Minnehaba-

Fire Mountain.

of 1642. The total amount of revenue in 1897 from East Kootenay was \$35,000, a clear increase of \$20,000 over the preceding year. The future of Southeast Kootenay is exceptionally promising. When a region makes such treat advancement on the strength of great advancement on the strength of the commencement of the construction of adequate transportation facilities, what may be expected of it when the facilities become established?

Victory-Triumph. The Rossland Miner of March 3 says With Camel-hair Head-flap ... the Victory-Triumph was among the fortunate properties this week, in that the pay streak of ore has widened to 20 inches and another body of fine ore has been encountered alongside of it. The tunnel is now in 195 feet and the 20-inch pay streak is \$25 ore. The Kootenay Gold Fields Syndicate of London, Eng., is behind the Victory-Triumph with ample funds for development.

An Honest Proposition. In this issue Messrs, Higgins & Hanapton, mining blokers, of this city, offer on an investment of about \$500 an excellent plan whereby a purchaser of mining stocks to that extent will be receiving immediate returns on his investment and at the same time be able to participate in the splendid chances that are offered on their cheaper class of stocks. We certainly think this proposition is worth careful investigation.

In order of importance the lobster fishery stands fourth among the fishery industries of the country, the value of the yield in 1836 being \$2,205,762, while the total from 1800 to 1806 was \$45,740,470.—Canadian Grocer.

was quickly cleared and that traffic suffered no serious delays.

Another Good Increase.

The carnings of the Grand Trunk for the week ending March. 7 were \$445,045, an increase of \$47,461, as the figures for the same period last year were \$307,587.

Mr. M. A. Overand has been appointed foreign freight agent for the Canada Atlantic Railway; he will assume his new position and move into his offices at Montreal on April 1. Mr. Overand is at present district agent for the Canada Atlantic with headquarters in Toronto and is well known to business men in the city, having had 25 years' experience in the freight departments of Canadan railways, during most of which time he was located in Toronto. It is understood the Canada Atlantic do not intend to refill the vacancy occasioned by Mr. Overand's promotion.

BUSY AT THE SHIPYARDS have been rather surprised by the prompt-

In Development Work This Year or Forfeit Their Mining Claims

The Canadian Pacific officials appear to have been rather surprised by the promptness with which the Grand Trunk met the last cut in rates to the Pacific Coast. On Wednesday afternoon the C.P.R. anounced that they would sell tickets to the coast and Alaska points at \$5 less than the figures quoted in the tariff they were the using. The next evening at 5.30 o'clock the Grand Trunk agents in Canada, west or kingston. received the following telegram. Algoma Location Owners—Joint Deputation of Wednesday afternoon will be \$35 first-class and Alaska points at \$5 less than the figures quoted in the tariff they were then using. The next evening at 5.30 o'clock the Grand Trunk agents in Canada, west or kingston. received the following telegram. Algoma Location Owners—Joint Deputation of Works and Trunk agents in Canada, west or kingston. received the following telegram. Algoma Location Owners—Joint Deputation of works and the figures of the camp—Progress in Ressland—News From Camp McKinney.

According to advices from the west the Boards of Trade of the towns of Rat Portage, Port Arthur and Fort William are making arrangements to send a joint deputation east, with a view of securing some ameliorations of the conditions under which they claim the Ontario gold fields are at present laboring. They will visit Toronto, Ottomer of the conditions under which they claim the Ontario gold fields are at present laboring. The Gradual Breakdown of Health Or the Rapid Decline in Strength, Either of Which

Invariably Precedes the Tuberculous Stage, is attributed to nervous prostration, debility, in fact, to everything but the true cause, and is very generally neglected, because non-professional people do not know that this is the way consumption begins, and that there may and there may not be a cough present, according to the organs attacked. When the tuberculous condition develops, the eyes brighten, the skin grows clear, and there is a buoyancy of spirit which

When the tuberculous condition develops, the eyes brighten, the skin grows clear, and there is a buoyancy of spirit which lulls all fears to rest.

I have in mind a case which is truly remarkable for its characteristic unconsciousness of danger, a youth approaching the last stages of consumption. His father and mother and brothers and sisters are all as unconscious of his danger and theirs as he. Sad to say, he is under the care of a quack physician who prescribes nightly mustard plasters and plenty of whiskey; just as if the inward fire of consumption were not doing its work fast enough! His father, under the impression that the cold air is bad for him, keeps all the doors and windows closed and makes the poor boy sit by the fire. All the family hover about him, especially when he has those terrible fits of convulsive coughing. Will it be any wonder that these young people, living in an atmosphere rife with the bacilli of tuberculosis, fail in health and drift into a decline? In the beginning of his attack, friends who knew the virtues of Shiloh's Consumption Cure coaxed him to take it; he did so and began to feel better; but his physician bade his mother throw it away and avoid all such stuff. He wished to go on with it; his people would not let him; he must obey his doctor. He has done so, and with what results? He is drifting rapidly to "that bourne from whence no traveler e'er returns."

S. C. Wells & Co., Le Roy, N. Y. Gentlemen:—No tongue can tell the great good I received from taking Shiloh's Consumption Cure. Both my lungs were badly affected, but they are now completely cured.

Nelson Gough, Strathroy, Ont.

Your money will be returned if Shiloh's fails to relieve. Use Shiloh for one sold and and the strain of the property of the great good I are convinced you will always have it in your family medicine chest;

Your money will be returned if Shiloh's fails to relieve. Use Shiloh for one cold, and I am convinced you will always have it in your family medicine chest; you will never begin another winter without it. AT SMALL RISK

A sum of about \$500, invested as per table below, will yield, at present

rate of dividends, over 12 per cent. per	er annum:	Company of the con-	
No. of	Price	101	Com-
Shares. Stocks	Per share.	Cost.	mission.
100 Moon Auchor	. \$1.00	\$100.00	\$2.00
100 Elkton Cons	80	80.00	1.50
100 Gold Coin	94	94.00	1.50
500 Gilpin C. C	18	90.00	1.88
4000. Gilpin Four		40.00	Net
5000, Madonna		87.50	Net
with a restaurable of the		\$491,50 6.88	
		\$498.38	

Realizing the fact that many people would be more inclined to consider mining investments if there was a greater certainty of immediate return, we take the liberty of submitting the above plan, which, we think, is worthy of consideration. The first three named companies are regular monthly dividend payers. Elkton pays 2 cents per share per month, Moon Anchor 2 1-2 cents per share per month, Gold Coin 1 cent per share per month, and it is more than likely that during 1898 the Gold Coin dividend will be increased to 2 and perhaps 3 cents per month. The Gilpin and Cripple Creek Company own a shipping mine (the Montgomery) that has already produced about \$50,000. Also, realizing the fact that purchasers of dividend paying stocks are not likely to make the tremendous profits that the prospective stocks, having good properties behind them, and under good management, present, we have combined the two showing that on an investment of about \$500, a purch ceiving interest on his money to the extent of OVER ONE PER CENT. PER MONTH, and at the same time have the chance of participating in the tremendous profits that are likely to accrue from the first-class prospective stocks we have mentioned. The management of all of them we can guarantee. THE TOTAL DIVIDENDS from the three first named companies would amount to \$5.50 PER MONTH, and the present price of those dividend payers is exceedingly low, and they will, no doubt, show great deal higher prices in the course of a few months. The prices quoted are the latest market price we have, but, of course, it is understood they are subject to fluctuation. We can heartily recommend the three cheaper stocks mentioned as splendid chances for large profits. The above plan can be arranged to suit larger investors, and on an investment of about \$1000 we can submit a plan where the IMMEDIATE RETURN would be at the rate of about 15 PER CENT. PER ANNUM, with the excellent chance of large profits from prospective stocks. For smaller investors we advise the immediate purchase of Gilpin Four at ONE PER CENT. PER SHARE, which we can get in blocks of 500 and over. Madonna is also an excellent chance at 1 3-4 cents per share. That company owns patented property in the celebrated Cripple Creek district. Do not delay, but write us
