Special The Special Shirt Sale for the last two days has been the most successful one we ever had. Never had so many shirt-buyers at one time, and never pleased them so well. Going through the lot we find nearly 130 dozen of the Fifty Cent Shirts. These we have marked for Tuesday's selling at **TWENTY-NINE CENTS EACH.**

Men's and Boys' Colored Cambric Shirts, balance of broken lines and assortments. Negligee bosoms with collars and cuffs attached, neat chest and cuffs, in blue and fawn colorings, sizes 12 to 17½ neck, regular selling price would have been 50c each. On sale Tuesday morning at **29c.**

Table Cloths Two hundred **Worth \$2.50** of them that **For \$1.58** were cleared to us at a sacrifice because some of the cloths were slightly imperfect, although no one but an expert would detect it. Although this imperfection does not interfere with the wearing qualities, it sadly interfered with the price, and on Tuesday you can buy for **\$1.58** what should have cost you **\$2.50**:

Fine Bleached Damask Table Cloths, size 22x24 yards, finished with a border all around, guaranteed pure linen, superior quality and low price. **1.58**

THE TORONTO WORLD

ONE CENT MORNING PAPER.
No. 25 YONGE STREET, Toronto.

PUSILLANIMOUS AS WELL AS TRICKY.

Hardy's first proposition was to have the Legislature pass an act to legalize the constable vote. This was too outrageous and his supporters threatened to bolt. His next proposition was to ask the Legislature to pass an act to hold new elections in those constituencies where the Liberal members would be unelected if the votes of constables were declared illegal. That is to say, in constituencies where the constable vote, as polled, does not affect the result there will be no election; in constituencies where the constable vote, as polled, forms the pivot on which the election turns, according as the vote is allowed or disallowed, there will be a new election. The further Hardy proceeds the deeper he is getting into the mire. The principle underlying his latest proposal is even more objectionable than that involved in his first proposition. What he says is this: "I didn't understand that constables had not a legal right to vote when I brought on the general election last March. I learn now that they have not the right. What I propose is that we hold the elections over again after we have passed a law making it clear that the constables have a vote."

Although Mr. Hardy's last proposal does not affect the Opposition so seriously as this first proposition, yet the principle involved is even more outrageous, and it will be opposed even more strenuously than his proposal to legalize the vote is already polled. The last proposal involves retroactive legislation just as much as the first, but for trying to game over again. Mr. Hardy can produce after him the semblance of a precedent, although he was able to bring forward a spurious precedent for legalizing the constable vote. Mr. Hardy's first coup was at least audacious. His last act savors of cowardice and pusillanimity. Mr. Hardy says in effect: "Please fellow-citizens, please, O judges, please everybody, do not discharge us. We never expected you were going to turn out and know what will become of us if we get the sack. Everybody, please help us. O, what will become of us if we have to give up our seats!"

An ordinary workman, a bricklayer or a clerk would receive his discharge with more dignity and less whining than Hardy has exhibited in regard to the notice to quit that has been served upon him by the people. If Mr. Hardy had any self respect he would neither whine nor resort to trickery to keep himself in office. "Why on earth cannot the man take a licking like a gentleman?" is the exclamation of The Montreal Star, and it is the exclamation that everyone throughout the country is making.

THE TRIMMERS BEGIN TO JUMP. The country is full of trimmers, of men who are astride the fence waiting for the arrival of the moment when it will be prudent to jump down and declare for one or the other. A circusmaster would show these gentlemen that the moment is approaching, if it has not already arrived, is the attitude of The Hamilton Herald on the political situation. The Herald, as every one knows, is the most independent paper in all Canada. The Globe quotes it as such whenever it wants to popularize a Grit scheme. When the coup of July 12 was first launched, The Globe was pleased to quote the endorsement of this celebrated Hamilton journal, celebrated more for its independence than for any other virtue. The Herald's independence seems to lead it to believe that the moment for the trimmers to jump has arrived. In one article last night it asserts that the Premier's latest move looks more like the move of a man who is in a hurry to get out of the country than it does of a man who is in a hurry to get into it.

Wake up trimmers! The Herald (the most independent sheet in all Canada) has begun to shout for Whitney. It is time for you all to follow suit.

TORONTO AS A SUMMER RESORT. Toronto is becoming more and more popular as a summer resort with the people of the Southern States. This year hundreds of Americans are passing the season in this city. Toronto has acquired a reputation among quite a number of the southern cities as a pleasant, cool and delightful retreat from the heat of semi-tropical America. We do not know of any city on the continent where the summer can be passed more pleasantly than right here in Toronto. Situated as it is on the margin of one of the great lakes, the climate is always tempered and equable. The lake acts as a radiator which sends forth its heat to the adjoining land in winter, and as a refrigerating coil, which cools the atmosphere in summer. The people who are accustomed to the southern island climate find Toronto much more agreeable than the residents of the city itself. This summer business has not come exactly of its own accord. Interested people have been cultivating it for a few years back and the result, we are glad to say, has been very satisfactory. The visitors themselves form an excellent advertising medium for increasing the number of our summer guests, but a well directed advertising policy would have a wonderful effect in enlarging this most desirable business. Let the Americans be told of the beauties and attractions of our outdoor life in Toronto, and we will secure a still greater increase in the number of our summer visitors.

THE INDEPENDENT TELEPHONE MOVEMENT.

Independent telephone companies are springing up like mushrooms all over the United States. Probably the most formidable competitor which has yet entered the field against the Bell interests is the Kinlock Telephone Company of St. Louis, which has laid 100 miles of conduit in that city. It has already installed 6000 instruments, and its service will commence within a few weeks. The telephone construction companies are working night and day filling orders for the new competitive companies that are coming into existence. As soon as a new plant is installed in any town connection is made with the nearest towns having independent exchanges. This way a long distance system is being established concurrently with the local exchange. The spontaneity of the new movement is one of its most characteristic features. The companies are established on a sort of mutual or semi-co-operative basis. The exchanges work in co-operation with one another, and the local companies are for the most part independent of local business units. The further progress of the movement will be watched with interest by the people of this country.

WHERE TO SPEND CIVIC HOLIDAY.

Everybody asks everybody else just now, "Where are you going Civic Holiday?" and no one seems at all certain as to where the happy spot of visitation may be. Perhaps the hesitancy is caused by the variety of choice. This could easily be, for there's not a boat in the bay but sails on Monday for some place of pleasure. Our local railway will keep in constant touch with the parks and picnic grounds in and about the city, and both the G. T. R. and the C. P. R. systems have made extensive arrangements to pour Toronto's populace into sister towns and cities.

Van Every's excursion to Cleveland will doubtless be well patronized. The American steamer Badger State will make the trip.

A concert is advertised as one of the special features at Grimsby Park on the day in question, and the steamer White Star will do a big day's work in transporting pleasure-seekers there.

Completing the list of pleasure points within convenient reach of Toronto is Owen Sound, at which place Broadview Lodge, L. O. O. F., is holding its annual excursion.

Orillia's Hotel Accommodation. Editor World: I reading my morning paper I find with your article and the high encomium on the town of Orillia and surroundings, but you quite fail to mention the inadequacy of the hotel accommodation. What Orillia requires is a first-class hotel, with all modern sanitary appliances, a garage for work vehicles, the traveling public will stop off on the shores of Couchiching, instead of proceeding north to Muskoka. W. Sterling.

A Plague of Sand Flies. Niles, Mich., Aug. 5.—Traffic was blocked last night by myriads of sand flies, which swooped down on the city. Merchants were compelled to close their stores and the authorities put a gun at work shovelling flies into the river. They lay six inches deep on the streets.

The Roof Garden. This popular place was filled last evening when the Willis Stock Company gave a first-class bill of minstrelsy and comedy. The minstrels are to be repeated next week, with new jokes, etc., and followed by "A Kiss in the Dark," a short comedy, full of fun. Four performances will be given on Monday, commencing at 2 and 8 p.m.

There are many thousands of wise women in this country who, when they find that they are suffering from weakness or disease of their distinctly womanly organs, promptly write to an eminent physician with a world-wide reputation, instead of trusting their cases to some obscure physician with but limited practice and experience.

The special referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for examinations and local treatment. This medicine is Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned in wifehood, and it cures all the troubles of the system, such as nervousness, indigestion, inflammation, headache, neuralgia, and all the ills that come from a disordered system. It insures the little new-comer's health and an ample supply of nourishment, and it builds up the system. Women have testified to its marvelous merits. Medicine dealers sell it.

It is a druggist's business to give you, not to tell you, what you want. Any sane woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice by enclosing 31 one-cent stamps in her letter, to cover cost of stamps and mailing. Write to the People's Common Sense Medical Adviser, 1000 York St., Buffalo, N. Y.

A New Atmosphere

There's a new atmosphere in the "Slater Shoe" store—more sprightly enthusiasm.

The new management coincides with Slater methods throughout.

The Slater style means public confidence—in store methods as well as shoes.

It's a Slater Principle that an ill-fitting shoe is the worst kind of shoe investment—this principle is laid down hard and fast at 89 King Street West.

There are 14 shapes, 11 sizes and half sizes, 5 widths, and every color of shoes there.

The "Slater Shoe" is made to fit all kinds of feet and we are here to sell the shoe that fits you.

The only store in Toronto selling genuine "Slater Shoes."

NO MORE CARS TO WESTON.

So Decides the Toronto Suburban Railway Co.—Will Not Be Dictated to by Village Councils.

The petty quarrel which has been going on for the past three years between the Weston Village Council and the Toronto Suburban Electric Railway has at last come to a focus. Up to the present the Weston Council has been on the aggressive, and although no bonus was given to the line, which goes into the heart of the village, the Council has insisted that the railway company must build the line through the village, or it may out of it altogether. Now, the Electric Railway is to have its innings, and to-day will issue a proclamation which says:

According to the terms of judgment, dated March 16, 1908, and which by express instructions of the Weston Council are to be adhered to, the cars of the Suburban Electric Railway Company will cease running through Weston on and after the 10th inst.

A Successful Medicine.—Everyone wishes to be successful in any undertaking in which he may engage. It is, therefore, extremely gratifying to the proprietors of Paroel's Vegetable Pills to know that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The endorsement of these pills by the public is a guarantee that a pill has been produced which will fulfill everything claimed for it.

Special Attractions at Munro Park. Next week will be the beginning of a new departure in Munro Park. The management has been content to give a series of first-class concerts by the military bands of the city, all of which have been immense successes. For the week commencing on Monday next, Aug. 8, special attractions will be given on the grounds every night, with matinees Monday, Wednesday and Saturday afternoons, at 2.45. A new stage has been erected, additional lights have been added, and other improvements are also in progress, all of which will make the grounds more attractive than ever. The program includes performances by the following famous artists from the Haillon and Marlow congress of novelties: The original and only Moccasin, slack wire artist, equibrist and juggler; Campbell and McConnell, the celebrated acrobatic comedy artists in their original sketch, "A Clown's Trip to Zuluand"; the Paturo Brothers, their funny animal talking act, for laughing purposes only, and the Valetta brothers, the
