LOCAL FRUIT MARKET.

Chicago Gossip.

A. J. Wright & Co. received the following from Chicago at the close of the market to-day:

Wheat was strong at and around the opening, but weak cables and larger receipts northwest, together with selling from that quarter, with short interest largely eliminated, left market in poor condition to take offerings by holders. The close is rather heavy. Armour sold Sept. quite liberally on the bulge.

Corn—Influenced by frost over central west and had strong undertone all day, and values were forced up sharply. Shorts bought freely, and there was considerable buying by that element and traders who are always ready to believe in a calamity and buy on such belief. Full values were not maintained because of realizing by buyers of past few days.

Oats have not shown as much strength as corn, as the crop has been secured, and is not subject to frost, as is corn. Market showed firmness, but short interest largely eliminated.

Provisions—Stronger to-day for January product than for the nearby months. Shorts bought and packers sold. Recelpts of hogs light.
