

STEWART'S STARTLING CHARGES
MUST SURELY BE INVESTIGATED

Ward One Alderman Says Ashbridge's Marsh is Being
Polluted With Parts of Human Bodies, Dead Dogs
and Cats, Infected Mattresses, Etc.

Startling statements were made at the City Hall yesterday afternoon by Ald. W. T. Stewart to the members of the Works Committee. When Stewart started out to make startling statements he is like the proverbial bull in the china shop, for he doesn't care what he breaks. If his English language is not entirely according to the code, his expression is convincing, and his attitude is that he can lick the man who says he can't prove it. Ald. Stewart is a muscular, weighty man, in the prime of life.

His outburst yesterday followed his demand for a crematorium in the East End. He wanted \$8000 placed in the estimates of the Works Committee for this purpose, and in support of his request he made some astounding statements. He said that Ashbridge's Marsh was being loaded up with infected blankets and mattresses from hospitals, and pieces of human bodies, and, incidentally, a baby in a bottle of alcohol. These things he thought would warm up a little and smell quite a lot in the good old summer time, and the people who are his constituents would acquire all the ailments which are specified in the patent medicine advertisements. He hardly put it that way, but that was what he meant.

Wants East End Crematorium.
The crematorium in the East End was charged off last October and nothing has been done since in the way of burning a lot of stuff which could be burned and not be missed. Ald. Stewart says that the scavengers would sooner dump their loads into Ashbridge's Bay than take them to the West End crematorium.

As a slight evidence of the consistency of his kind, he quoted a few figures. He said that in nine months last year at the eastern destructor, about 6000 loads of general refuse were cremated. Outside of this the destructor consumed 400 dogs, 200 cats, 500 birds, 1000 rabbits, 1000 guinea pigs, 1400 cases of refuse from St. Michael's Hospital, including bandages, poultices and other matter, 3000 bags of manure, 150 bags of potatoes.

Notes on Stewart.
"The city in our end is growing, and there is no let up in the demand for a crematorium. Since the East End crematorium was closed, Ashbridge's Bay has been the dumping place for dead dogs, dead cats, rotten fish, rotten eggs and rotten everything. It's got to be stopped," said the alderman, who shook his fist in front of his own face.

Some Details.
Ald. Stewart said that on Feb. 18 last year mattresses from the Girls' Home, where there was diphtheria or scarlet fever, were thrown into the windows, and the cases sent back by the scavengers. The inside of the mattresses were released to the placid waters of Ashbridge's Bay, to float for a little while and smell in the hereafter.

Ald. Stewart named four distinct dates on which mattresses with clothing and bedding had been removed from the isolation hospital, and he named instances of infected clothing and bedding and furniture having been removed from infected houses. He also said that impure citizens had dumped their refuse into the bay to use them.

A Straight Declaration.
To strengthen his case he introduced the following joint declaration: "We, the undersigned employees of the corporation of the City of Toronto, more particularly of the Street Department, do hereby declare that we have seen and know of the following things being done by the scavengers: That on Feb. 18 last year mattresses from the Girls' Home, where there was diphtheria or scarlet fever, were thrown into the windows, and the cases sent back by the scavengers. The inside of the mattresses were released to the placid waters of Ashbridge's Bay, to float for a little while and smell in the hereafter."
