The month closed with one of the slowest days in the local market since the first of the year. The improvement noted yesterday was not present today, and brokers and traders appeared to be in a state of apathy. Cable rushed into activity late in the day, and the market was somewhat better. The buying was largely in the hands of the C.P.R. and other active stocks. The month closed with one of the slowest days in the local market since the first of the year.
