Ideal weather for racing, a good track and fairly good attendance, as well as extra good racing, were the combination for yesterday's matinee given by the Dufferin Driving Club. Sharp at 2.20 Stater Bedingfield called the trotters responded-King Ree (R. J. McBride), Tobe (E. C. Lewis), Hester Schuyler (B. Whytock), Norma Lee (W. Hezzlewood). Mr. Bedingfield had good control of his field, and, with very little scoring, they got away to a nice start, with Hester Schuyler in the lead, Tobe lying second. As they reached the first haif, King Ree made a bid for first position, the bay mare having gone to a break, and then King-Ree and Tobe hooked up-together, and they raced as a team. It was a grand race thru the stretch, but the son of Oro Ree had just a shade the better of it. In the second heat, Tobe went away with mr. McBride claimed he was interfered with, but the judges thought not, Tobe winning the heat, with Hester Schuyler second. The third heat was a corker for the first half between Tobe and King Ree, and they stepped the first half in Lis, Tobe winning the heat, with Hester Schuyler second. The third heat was a corker for the first half was a horge race from wire to wire, King Ree withing, with Tobe second. In the final heat all the horses trotted well, and it was an avelash findshetween Tobe and King Ree, with Tobe getting the decision.

In-Class C. R. Scott, with his new purchase, Master Roy, marched home a winner in each heat. With Harry Lee in second a gold norse, and no doubt he will win many mathine races with libra, and with the first heat. It looks as if Mr. Scott has gold a good horse, and no doubt he will win many mathine races with libra, and the variety process. Oakland Results. Oakland Results.

For the past fifteen years he has been a dancing master, conducting academies at various places. For the past two years he has spent his day time in the employ of the city as an inspector of sidewalks.

The funeral will be Masonic. In politics he was a Conservative. York Conservative Association, was in the chair at the Geary meeting held in the Y. M. C. A. hall at East Toronto last night. T. N. Phelan spoke at some length

on the Bloor-Danforth viaduct and the tubes. He favored the viaduct as it would open an avenue of commerco

with the west end of the city.

As to the tubes, he was in favor of it as a plebiscite, but as a by-law he did think that at the present time they knew enough about it to pledge themselves to such an expenditure as the scheme would call for. Ald. McMillin, J. W. Jackson and the

chairman urged that the citizens give both the tubes and viaduct their nearty support.

Controller Geary spoke at considerable length on the different improve-ments necessary in East Toronto. In ed into two wards, with six representatives instead of three, as at present. In respect to the water service, the city, under a proper representative nead, would give the eastern part all they could use. Better lighting and mproved sidewalks would come good time.

The attacks of "The World" he characterized as an overdose of fer-tile imagination. In his case "every knock was a boost."
