NEWSPRINT EXPORT LIKELY TO DECLINE

Canadian Mills Finding Increasing Competition in U. S. Markets.

New York, Jan. 31.—(By Canadian Press).—Figures compiled by the federal trade commission show that the production of newsprint in the United States is on the increase.

The production of newsprint in the United States is on the increase. The output of the United States mills for the twelve months ending December 31, 1920, amounted to 1,511,968 tons, against 1,474,517 tons in 1919, and 1,260,235 tons in 1918.

While many United States publishers are still largely dependent upon Canada for their supplies, there are indications that the recent increase in price effected by some of the Canadian mills has turned United States consumers to other markets, and the prediction is made here that if the prices of the Canadian product are maintained at their present high level Canada's export newsprint business may be seriously affected.

The trade commission's statistics show that the Dominion manufacturers are meeting with ever-increasing competition from Europe. In November, 1919, Canada had a monopoly of the United States market, not a mill of newsprint being received in this country from Europe, while Canadian mills sent 59,256 tons of non-dutiable print-

ing paper (which includes practically all newsprint) to this market. In November, 1920, however, Canada's share of the trade was cut down to 52,337 tons, while imports from Europe were: From Germany, 4,059 tons; from Sweden, 2,920 tons; from Norway, 1,472 tons.

LITTLE PROSPECT NOW FOR U. S. TARIFF BILL TO PASS THE SENATE

Attempt Will Be Made Today to Vote Closure, But Both Sides Concede That It Is Hardly Likely to Carry—Sponsors Will, Nevertheless, Try to Keep It Before Upper House.

Washington, Jan. 31.—Senate Republican leaders, in accordance with their program for procedure with the Fordney emergency tariff bill, today asked unanimous consent for a vote February 15, and, upon objection, presented their petition for closure, or limitation of debate.

Senator Pomerene, Democrat, Ohio, objected to the proposal for a vote February 15, after an address in which he denounced the bill as "nothing but everything that goes on the breakfast table of the working man."

The closure petition, presented by Senator Crammer of Pennsylvania, in charge of the bill, bore names of thirty-four Republican senators and will be voted on at 1 o'clock Wednesday.

It requires a two-thirds vote for adoption and its defeat was conceded tonight by both Republicans and Democrats.

In presenting the closure plan, the first time an attempt has been made to invoke it since the senate controversy over the peace treaty, Senator Penrose said he had exhausted every reasonable effort.

Statement by Gen. Atterbury That They Need Readjustment Termed Ultimatum.

IS AIMED AT LABOR STRICT ENFORCEMENT

Chicago, Jan. 31.—President Wilson was asked tonight by Representatives of seven labor unions to investigate the statement of Brig. Gen. W. W. Atterbury of the Pennsylvania lines, before the railway labor board that the railroads of the United States must have wage readjustments or be in danger of bankruptcy, and in the statement were found true, to place the matter before congress and ask that body to enact remedial legislation immediately.

The union leaders, however, in their telegram to the president making the request, declared they did not believe the rate to be in the financial condition outlined by General Atterbury.

They charged that he had, by delivering what they termed an ultimatum, violated the labor board, "violated all decent properties, disregarded the transportation act and flouted existing agencies, such as the interstate commerce commission, and even congress itself."

General Atterbury's obvious policy, The Telegram said, "is to disrupt labor unions, turn public opinion (Continued on Page 3, Column 2.)"

High Peak is Reached in Requests for Relief

With a total of 2,200 men handled, the city relief department at the Krausman Hotel had the biggest day yesterday since registration was opened.

Speaking to The World last night, Brigadier-General Fraser said he thought the increase in a large measure due to the number of men and families which had formerly a little money put by for a rainy day and who were now getting to the end of their resources.

The kind of people whom pride had held back while able to eke out an existence had at last been forced to ask relief.

The relief problem is still acute and the number of families faced with the possibility of eviction from their homes increases daily.

General Fraser made a further appeal for children's garments, which are not coming in in the way it had been hoped, and which are very badly needed among the families. He said he had found it much harder to obtain clothing for the children than

DETROIT SITUATION IS LITTLE ALTERED

Reports of Marked Industrial Impetus Appear Over-Sanguine.

Detroit, Jan. 31.—The beginning of February will see little change in the industrial situation here, a canvass of the larger factories today indicated. Although there have been unconfirmed reports that this week would bring marked increase in the number of men employed, there were no announcements of resumption of operations, which were generally expected to follow the partial re-opening of the Ford plant.

At the Highland Park plant of the Ford Motor Company workers began returning on a plan of gradual increase, which, it is said, will provide for approximately 10,000, but officials of the Packard Motor Car Company stated that operations in some departments had been curtailed today for the purpose "of balancing up the inventory."

At the headquarters of the Employers' Association it was estimated that the number of unemployed placed at 160,000 the first of the year, had been reduced approximately 15,000 during January.

John R. Lovett, manager of the association, said he believed the situation was on the way to improvement in other industrial cities of the state, including Lansing, Battle Creek, Kalamazoo and Muskegon.
