NOTES TO THE ABOVE ILLUSTRATION.

SCHILLER'S drama of "William Tell" took possession of the hearts of the German people more than any work that he ever wrote. It is related that on one occasion after the performance of this drama—Schiller being present—all the audience frantically rushed out of the theatre to see their beloved poet once more; and when his tall form appeared, sorely bent by suffering, the crowd respectfully made way for him—all heads being quickly uncovered. As the poet passed through the long rows of people, he was received in profound silence, all eyes following his steps; fathers and mothers holding their children aloft, whispering "That is he! that is he!"

It may not be uninteresting to give a brief sketch of the life of this illustrious poet, whose writings could so powerfully influence the feelings of the nation which has always been regarded as of a phlegmatic character:—

JOHANN CRISTOPH FRIEDRICH SCHILLER was born in 1759, at Marbach, in Württemberg, his parents being persons in humble life. When a boy he displayed very strong feeling and great industry, and he was carefully brought up by his pious parents. His mother was a true German—very real and true in all she did, and all she said and thought; and his father (who was in the service of the Duke of Württemberg) was an intelligent military man, with very great energy. Young Schiller was originally intended for the church, but on the establishment of a military school by his father he changed his views, and became one of the most promising students in the academy, and it was there he learned the first elements of science. At this period he found means to procure the works of the immortal Shakespeare; and the dark and strong shadows that give expression to the pictures of this poet, the affecting situations of his heroes, his bold and energetic language, and those beautiful passages where his eloquence becomes a torrent that no obstacle can resist, were so congenial to the feeling soul of young Schiller, that Shakespeare soon engrossed all his admiration, and was his favourite author.

Schiller entertained the greatest admiration and affection for the Duke of Württemberg, and his rare poetical talents were thoroughly appreciated by, and much exercised for the Duchess. He then (after having studied medicine for some time) became a regimental surgeon in Stuttgart, but he was soon discontented with this position. When in his twenty-second year Schiller wrote his celebrated tragedy of "The Robbers," which at once enabled him to take his position as one of the first dramatists of his country. It was first brought out at Mannheim, but unfortunately the Duke of Württemberg's displeasure was excited by finding some few passages of a revolutionary tendency in it, and he prohibited the poet who could speak his mind so freely from writing again! Schiller, chafing under this treatment, left Stuttgart secretly, and became an exile, and went to Mannheim, where, after experiencing many hard-
