Deputy Chief of Police Jenkins returned last evening from his vacation.

Continuing my thoughts on the "broad view" side of the question, they ran like this:—Forget all about yourself in this matter, be unselfish, if your crop of oats is not sufficient to carry you through the winter there are plenty to be obtained in the city at 60 cents per bushel.

Also of the number of visitors to your property when the shooting season opens. They will be there in droves, entering at all points, at all times, and will make themselves at home. If any fences you have built are broken down, there will be same visitors, then by all means take a broad view of the question and be patient, they are looking for that deer which caused you so much loss and worry last summer, and perhaps they will shoot it. And then see how nice it will be on Sundays when the hills are so enjoyable, better think it over twice whether or not to take out some accident insurance or run the risk. And while it is against the law to shoot on Sundays, a little violation like that does not matter, but, ah! what if you had shot that deer in the summer and then the broad view disappears.

Now, this thing is happening within five miles of the courthouse, St. John, N. B., and if a deer were shot by an irate farmer how he would be brought to justice, but what of this law-breaking Sunday shooting, how different that is, not a word said, yet it is done openly and without compunction. On all roads leading from the city every Sunday morning in the fall men can be seen making for the woods, guns over their shoulders, and yet the hard-working, industrious farmer has to see the fruit of his labor destroyed and keep within the law to furnish sport for such law-breaking people as these.

And suppose a farmer should prosecute a man for trespass, wouldn't he be regarded as a narrow-minded person. I think so.

I must apologize for the length of this letter. I feel there are many such cases as my own, and that something should be done so as we can protect ourselves.

Yours truly,  
THE SAME FARMER.

## CHAMPIONSHIP IS CAUSE OF A DEADLOCK

Marathons and St. Peters Baseball Teams Cannot Agree as to the Grounds or Players for Games.

A deadlock has developed between the Marathons and St. Peter's teams aspirants for the city baseball championship, over the matter of grounds. At a meeting of the joint committee last evening in the Y. M. C. A. rooms no decision was reached on several questions and a committee was delegated to settle all matters in dispute, if possible. Those present were S. S. De Forest, chairman; D. B. Donald and H. Clawson representing the Marathons; and E. Mahoney and F. Dever the St. Peter's.

It was agreed that Umpire McAllister should call the balls and strikes and Umpire MacDermott look after the bases. P. Carroll and H. Ervin were appointed official scorers.

St. Peter's asked permission to play Mike Long, who has played short stop for St. Joseph's during the season. The Marathons refused to join the team on the terms of the cup contest but agreed to leave the matter open for consideration.

The question of grounds coming up, St. Peter's proposed the Shamrock grounds. The Marathons objected that the field was not in proper condition for play and were in favor of the Victoria grounds.

The question of dividing the games between the two grounds was also talked over, but nothing definite was done. Messrs. Mahoney and Donald were named as a committee to settle all differences if possible.

## DREYFUS CASE AT NICKEL

A pictorial version of the famous Dreyfus case is the Nickel's big feature for today and Thursday, and those who were interested in the progress of this startling French military scandal some years ago will certainly appreciate the most realistic re-enactment of the episode.

The Dreyfus case has left nothing undone to prevent the case in its original detail and exactness. The chief actors in the plot—the unfortunate and traitorous Dreyfus, the grafting Col. Henry, the corrupt thief Count Esterhazy, Count Paty Du Clair, Emil Zola, Maitre Labori, and other officials are portrayed very cleverly and the degradation scene in the public square, the lonely abode on Devil's Island, court-room scenes, etc., are actually repetitions of the original.

Indeed, this there will be a Grand Review Of The Russian Army, and a charming fairytale comedy "King Scatterbrain's Troubles." The usual good singing and special orchestral selections. National music will be introduced in the Dreyfus picture and Russian military scenes. For those who enjoy the more real subjects in motion pictures this is a great show.

## CAPT. EDWARD COLE FELL TO HIS DEATH

Tragic Death of Well Known Dorchester Ferry Man.

Hopewell Cape, July 28.—The community here shocked this morning to hear of the death of Captain Edward Cole, of Dorchester. Capt. Cole was well known to many in this province and Nova Scotia, having been the ferryman between here and Dorchester all his life. He served under his father who had during his life rendered similar service across the same water.

Capt. Cole was on Monday rendering service with his gasoline launch for the S.S. Gogwale that is lying at anchor in the Pettedioe river and loading with lumber for the English market. The deceased made a mistake and fell from his own launch. Though he was soon rescued by the officers from the steamship Gogwale, he never fully regained consciousness and died on board the Gogwale within a few hours. Captain Cole leaves a wife and a family of six children, one of his boys is a doctor and was killed two years ago while in the electric light service in Moncton by coming in contact with a live wire which literally charred the boy's body.

The role of family have the sympathy of all in this their second bereavement.
