

In consequence of the small balance on hand, the usual contribution to missions this year has only amounted to \$50, but now enjoying increased comfort, and with no extra expenditure to provide for during the coming year, we hope to devote the entire school offerings to missionary and benevolent objects.

All of which is respectfully submitted,

W. N. HOSSIE,
Secretary.

ZION CHURCH MISSION BAND.

In the month of May, an Association under the above title, was formed for the two-fold object of instructing the younger members and adherents of the church in Home and Foreign Missions, and enlisting their sympathy and liberality on behalf of these departments of church work. Officers were also elected, and monthly meetings held, when missions in different parts of the world were the subject of addresses and occasionally an evening of a literary and social character. The number of members enrolled is now 182, and it has been decided to divide the Band into two departments, the one to be composed of the younger scholars of the Sabbath Schools, and the other of the young people of the congregation.

The Receipts and Expenditures during the year have been as follows :
