THE MEDICINAL VALUE OF FRESH FRUIT JUICES

One of the Greatest Wonders of the Age.

Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruits, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve biliousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion. An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels, into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and

In a highly intensified degree. These valuable tonics and internal antiseptics were added and the whole pressed into tablets. These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. THEY WILL GO AHEAD AT ONCE WITH CHAMPLAIN MONUMENT

Subscribers Will Decide the Matter of a Site—Committee Appointed to Handle the Fund—Mr. McCarthy Says He is Ready to go Ahead.

A meeting of the subscribers of the Champlain monument fund was held in the mayor's office yesterday afternoon and as the required amount of \$10,000 is now practically complete it was decided to go on with the work. A committee of eight was appointed to take over the fund which will be deposited in a chartered bank to the credit of three members to be appointed by the whole body. This committee, which has power to add to its number, will arrange all details by contract otherwise with Mr. McCarthy and from time to time pay him such sums as they shall see fit. Those present at the meeting, besides his worship, were: Hamilton McCarthy, Col. J. R. Armstrong, D. R. Jack, E. B. LeRoy, T. H. Hall, Rev. Dr. W. O. Raymond, Dr. W. P. Dole, Hon. R. J. Ritchie and D. Arnold Fox. The mayor, who was in the chair said that he had called the meeting because John Russell, Jr., treasurer of the fund, wished to be relieved of the responsibility of its custody. Personally he would be taken off his own shoulders. He sketched the history of the fund, briefly showing how the matter had been handed over to him by the Historical Society and concluded by pointing out that with the exception of some \$300 or \$350 the requisite amount of money had now been raised. He asked Mr. McCarthy to give the meeting some information about the time that would be necessary to finish the monument and the time the money would have to be paid to him. Mr. McCarthy said he was ready to go on with the work. He had come to the city at this time with the intention of having the matter settled and he would like to have it closed as soon as possible. He has to move his present studio as the land on which it stands is needed for building lots and he is now negotiating for another

property and every day delayed means a great deal. It is hard to say to promise a statue under twelve months after it is started, but it might be completed in eight or nine months. It will take at least five or six months after the first plaster replica is finished. Then, as there is no foundry in Canada which does such work, the statue will have to be cast in New York and he always gives his personal superintendence at the last stages of the casting. Mr. McCarthy went on to say that in his opinion it is never safe or wise to hand down such work to two or three months. He would use his utmost endeavor to make the Champlain monument worthy of London, Paris or any other European capital, something beautiful to look at and which would be a source of pride and gratification for all time to come. He was sure these results could be attained if he had a sympathetic committee to work with and give a fairly free hand. Touching the matter of payments Mr. McCarthy said the rule in England and the states is to pay an artist something on account as soon as his model is accepted. In answer to a question, Mr. McCarthy said his design had been accepted for the Champlain monument. He thought the total cost would be covered by the sum originally fixed on—\$10,000. Mr. Jack said he was pleased to hear Mr. McCarthy say so as he was under the impression that the \$10,000 would not cover the cost of a foundation for the monument. Mr. McCarthy said he was ready to go on with the work. He had come to the city at this time with the intention of having the matter settled and he would like to have it closed as soon as possible. He has to move his present studio as the land on which it stands is needed for building lots and he is now negotiating for another

He moved that a committee of seven be appointed with power to add to their number. The following were then nominated: Col. Armstrong, D. R. Jack, Mayor Sears, Rev. Dr. W. O. Raymond, Hon. Wm. Pugsley, Senator Ellis and Rev. Father Gaynor.

In the course of further discussion it was decided to increase the membership of the committee to eight, adding the name of John Russell, Jr. Col. Armstrong then moved that the committee named be instructed to take over the funds which they are to deposit in a chartered bank to the credit of three of their number to be named by themselves, no money to be drawn out without the consent of at least two of the three. A lengthy discussion as to the site of the monument was precipitated by Dr. Dole asking if anything definite had been done in the matter. Mayor Sears replied in the negative. He said that some who reside near Queen Square and who had subscribed to the fund had offered to double the amount if the monument were placed there. A good many were in favor of moving the drinking fountain in King Square and placing it there while still others wanted it in Indian-street.

Mr. Le Roy suggested that Market Square would be a very desirable site. By moving the fountain nearer the end of the square and placing the monument there and terracing the surrounding ground it could, in his opinion, be made a very beautiful square. Besides that every one who came into the city either in winter or summer would see it, whereas the squares are used by visitors only in the summer.

Rev. Dr. Raymond, while agreeing with Mr. Le Roy that the Market Square could be made a most desirable site, said that as that was the place where the Loyalists landed the Historical Society had long had a project of placing there a memorial to the founders of the city.

It was finally resolved on the motion of Mr. Jack to leave the question of site to private subscribers of \$1 or over. It was understood that neither the city council nor the local or federal government will have a vote, but all private individuals will be entitled to one vote for each dollar subscribed. The details of the scheme will be worked out later by the committee. Mr. McCarthy's expenses while on visits to the city then came in for discussion. He has already been paid \$175 and the question was whether this was to be considered part of the \$10,000. D. R. Jack expressed the opinion that as there had been no competition and as Mr. McCarthy said he would be willing to meet the committee and arrange the matter satisfactorily. It was then moved by Rev. Dr. Raymond, seconded by Hon. Mr. Ritchie, that Mayor Sears and the daily papers be authorized to receive subscriptions temporarily.

Some one asked Mr. McCarthy for an expression of opinion on the question of site. In reply he said there seemed to be only three available sites, each of which has strong claims. Market Square he called the "Charing Cross" of St. John, and said it would be very suitable. Very strong arguments could be advanced in favor of both King and Queen Squares. He had once thought that the corner of King and Germain streets would be a very favorable spot, but he would not undertake to decide on any. On motion of Rev. Dr. Raymond a committee consisting of Col. Armstrong and D. R. Jack was appointed to draw up specifications with Mr. McCarthy to be submitted to a meeting of the committee this morning at 10.30 in the mayor's office.

ALDERMEN IN CAUCUS

They Made a Choice for Deputy Mayor and Board, Chairman Yesterday Afternoon.

The annual caucus of the aldermen to elect chairmen and members of the different boards and committees was held at city hall yesterday afternoon. The balloting for deputy mayor and chairman resulted as follows: Deputy mayor—Ald. Pickett. Board of public works—Ald. McGoldrick. Board of water and sewerage—J. H. Frink. Safety board—Ald. Vanwart. Treasury board—Ald. Bullock. Ferry committee—Ald. Baxter. Appeals committee—Ald. Sprual. Excepting in the selection for the head of the safety board there is said to have been very little competition. In this department Ald. Vanwart and Ald. Christie had both strong supporters and the former was successful by seven votes to six. Ald. Hann and Wiley were appointed revisors of the voters' lists. The board of works will as usual consist of all the ward aldermen. The water and sewerage board will have eleven members. The new members of the council on this board are Wm. Frink, J. King, Kelley and H. L. McGowan. The safety board will also consist of eleven members, and all the new-comers have been given places. The treasury board will have nine members with Aldermen-elect Frink, Kelley and McGowan as new members. The number on the ferry committee has been increased to seven and Aldermen-elect Frink, McGowan and Baskin are included. On the appeals committee the incoming aldermen are Frink and Baskin. J. King Kelley was added to the bills and by-laws committee, which will consist of seven members. This board appoints its own chairman. Ald. Baxter is convener and it is generally understood that he will continue to preside.

WHY SPRING BRINGS WEAKNESS

Winter Weakens the System and Allows Disease Germs to Enter

Great epidemics, such as fevers, infectious skin diseases and pestilence break out in the spring. Winter shuts out fresh air from many homes, and only a few get even a little sunshine. The blood naturally grows thin, colorless and diseased,—we tire easily, sleep poorly and have headaches. In this condition we are easy prey to sickness and fill the hospitals and graveyards. You must create resistance and strength. The blood must be purified, must be given power to expel the seeds of spring fever. Ferrone is the only remedy. It calls back vim and energy, fills the body with vitality, makes every fibre sing with new found life and health. That gnawing tiredness leaves you—Ferrone drives it away. Sleepless nights are turned into periods of rest, and you pick up fast. Day by day your appetite improves,—this means more food is transformed in nutriment that will build and energize weak organs. The inclination to worry passes away because Ferrone imparts nerve—tone and bodily strength that prevents depression. Think it over—Ferrone is a wonderful tonic, in fact it is more because it establishes health that lasts. Thousands use it in the spring and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power of Ferrone in a week—its bound to help you if you only give it the chance. Sold by all dealers, 50c. a box or six boxes for \$2.50; be sure of the name Ferrone.

PAUL MORTON URGES A TAX ON AMERICAN HEIRESSSES IN EUROPE

"Good-for-Nothing Noblemen Marry Yankee Girls Solely for Their Money," He Declares.

PHILADELPHIA, May 3.—Paul Morton, formerly secretary of the navy, after his attendance at the banquet of Equitable Life Insurance agents at the Bellevue Stratford, talked on various subjects and among them that of those who spend American money abroad and marry noblemen. "On this matter of the immense exportation of money from America to Europe by means of heiresses, etc., said Mr. Morton. "I have often believed that some kind of tax should be put upon it. "Particularly have I for a long time thought that a tax of some kind should be placed on the incomes which American women carry to Europe after their marriages to foreign noblemen. Those good-for-nothing fellows marry American girls solely for their money, and some taxation scheme should be worked out to save at least a portion of this out go. Besides, we want to keep young American heiresses in this country. "It does not seem equitable. These girls' fortunes have been all made by good Americans, from good American industry and by good American brains. "Does it not seem utterly unfair that this garnering, this harvest, should be taken out of the country and be dumped into the pockets of some idle scion of nobility who never did a stroke of work? "The country loses not only the girl who might have brought herself and her riches to some good American, but it also loses many millions made out of it. "I am in earnest about this," concluded Mr. Morton. "It sounds funny, but it's so. There should be a tax on them." At the monthly meeting of the slaughterhouse commissioners yesterday the licenses for the ensuing year were issued.

IT WAS ANNOUNCED THAT JOHN E. McDONALD HAD BOUGHT OUT THE SLAUGHTERHOUSE BELONGING TO JOHN MCCARTHY AND MR. McDONALD WAS GRANTED A LICENSE FOR THE PREMISES.

There were five other licenses issued, as follows: Kane & McGrath, in the city; M. J. Collins and M. J. Collins, Fairville, and Oudlip Miller and F. B. Black, St. Martins. The returns of killing for the past month were: John McCarthy, 250 cattle, five calves; Kane & McGrath, 280 cattle, thirty-eight sheep and sixty-seven calves; and John Collins, ten cattle, eight sheep and ten calves.
